The Field Guide to Bigfoot and Other Mystery Primates Loren Coleman, Patrick Huyghe, 2015-06-01 The Field Guide to Bigfoot and Other Mystery Primates is a comprehensive study of the astonishing variety of puzzling primates that are being reported by eyewitnesses around the world but that science has failed to recognize. This fully illustrated volume not only contains the references, range maps, and typical footprints that appeared in the first edition but it also contains a new complete index and new preface that updates the discoveries made since this book was first published. Loren Coleman is the world's most popular living cryptozoologist. He appears frequently on television and radio and has even been turned into a fictional character in novels and comic books. He is the author of more than two dozen books including *Bigfoot Mysterious America* and *Cryptozoology A to Z* with Jerome Clark. His fieldwork has taken him from Scotland's Loch Ness to the rainforests of Mexico, from the Everglades to the Pacific Northwest's Bigfoot country. Coleman is director of the International Cryptozoology Museum.

America's National Game Albert G. Spalding, 2020-09-14 This book is in great demand by baseball enthusiasts. Having been connected with every department of the game from player to magnate, Mr. Spalding has contributed a very important work to the game's history. As the invincible pitcher of the Boston Club previous to the formation of the National League, his book of so many pages is an interesting record of events dating from the beginning of the great American pastime. It is not exactly a history of the game but deals largely with incidents during the author's career who was a player in the late 1860s and early 1870s and helped organize the National League in 1876. One chapter devoted to sundry topics gives an account of the sale of the immortal King Kelly, the original 10,000 beauty, by Chicago to the Boston Club in the late 1880s. Other chapters are devoted to the literature of the game, quoting several instances of the baseball paragrapher's art and also specimens of the distinct poetry of the pastime of which Casey at the Bat is probably the most widely known. The Cincinnati Red Stockings. Mr. Spalding gives credit as being the pioneer professional organization. It was not however until 1871 that professional baseball playing as recognized today was instituted. Mr. Spalding shows how cricket could not do for Americans.

He says it is suitable for the British temperament but not for the Yankee hustling spirit He also tells how he worked into the game through a one handed catch when a small boy To lovers of baseball whose name is legion and whose number increases yearly this book comprises in itself a whole library of useful information **A Modern Look at Monsters** Daniel Cohen,1970 *The Encyclopedia of Monsters* Daniel Cohen,1990-09 Describes popular myths about land and sea monsters phantoms monstrous birds and bats extraterrestrials and weird creatures *Abominable Snowmen* Ivan T. Sanderson,2008-11-01 Scottish zoologist IVAN TERRANCE SANDERSON 1911 1973 coined the word cryptozoology and first used it in print in this hard to find 1961 work the story of hairy hominids across the planet from the very beginnings of human civilization until the mid 20th century With its scientific anthropological approach this is one of the first books to treat the phenomenon of Bigfoot seriously and introduced a groundbreaking classification system for the spectrum of subhumanoids I am happy that a whole new generation of cryptozoologists in training will be able to read Ivan T Sanderson s classic book says cryptozoologist Loren Coleman in his new introduction This book opened the minds of many to the vastness of the hominoid reports and spotlighted for people that Bigfoot Sasquatch research was the next area for exploration in North America This new edition complete with the original illustrations and maps is part of Cosimo s Loren Coleman Presents series LOREN COLEMAN is author of numerous books of cryptozoology including Bigfoot The True Story of Apes in America and Mothman and Other Curious Encounters **Galactic Pot-healer** Philip K. Dick,1994 What could an omnipresent and seemingly omnipotent entity want with a humble pot healer Or with the dozens of other odd creatures it has lured to Plowman s Planet And if the Glimmung is a god are its ends positive or malign Combining quixotic adventure spine chilling horror and deliriously paranoid theology Galactic Pot Healer is a uniquely Dickian voyage to alternate worlds of the imagination *Abominable Snowmen* Ivan T Sanderson,2022-03-07 In this book Ivan T Sanderson summarizes current world evidence regarding ABSMs abominable snowmen drawing from records and reports that are world wide in scope and cover a broad period of time For completeness he discusses all prevailing views both pro and con ranging from highly plausible accounts to reports that border on the absurd The result is as thorough an evaluation of all known ABSM sightings as could possibly be compiled at this time *There's Something in My Attic* Mercer Mayer,1992-09-01 Uh oh there might be something creeping around in the attic Could it be a monster After a little girl hears something snooping around in the attic when she s sleeping she decides to investigate How can she sleep when something is making creaking noises and stealing her toys when she s not looking In typically zany Mayer fashion an intrepid girl confronts a resident nightmare with delightfully unexpected results Publishers Weekly The story is satisfying humorous possibly bibliotherapeutic and significantly different from previous titles to justify making room on the shelf for this nightmare as well School Library Journal **Mysterious Creatures** George M. Eberhart,2013-07 Volume 1 originally published Santa Barbara Calif ABC CLIO 2001 *The Ancient Giants Who Ruled America* Richard J. Dewhurst,2013-12-17 A study of the substantial evidence

for a former race of giants in North America and its 150 year suppression by the Smithsonian Institution Shows how thousands of giant skeletons have been found particularly in the Mississippi Valley as well as the ruins of the giants cities Explores 400 years of giant finds including newspaper articles first person accounts state historical records and illustrated field reports Reveals the Stonehenge era megalithic burial complex on Catalina Island with over 4 000 giant skeletons including kings more than 9 feet tall Includes more than 100 rare photographs and illustrations of the lost evidence Drawing on 400 years of newspaper articles and photos first person accounts state historical records and illustrated field reports Richard J Dewhurst reveals not only that North America was once ruled by an advanced race of giants but also that the Smithsonian has been actively suppressing the physical evidence for nearly 150 years He shows how thousands of giant skeletons have been unearthed at Mound Builder sites across the continent only to disappear from the historical record He examines other concealed giant discoveries such as the giant mummies found in Spirit Cave Nevada wrapped in fine textiles and dating to 8000 BCE the hundreds of red haired bog mummies found at sinkhole cenotes on the west coast of Florida and dating to 7500 BCE and the ruins of the giants cities with populations in excess of 100 000 in Arizona Oklahoma Alabama and Louisiana Dewhurst shows how this suppression began shortly after the Civil War and transformed into an outright cover up in 1879 when Major John Wesley Powell was appointed Smithsonian director launching a strict pro evolution pro Manifest Destiny agenda He also reveals the 1920s discovery on Catalina Island of a megalithic burial complex with 6 000 years of continuous burials and over 4 000 skeletons including a succession of kings and queens some more than 9 feet tall the evidence for which is hidden in the restricted access evidence rooms at the Smithsonian

Denisovan Origins Andrew Collins, Gregory L. Little,2019-09-03 Reveals the profound influence of the Denisovans and their hybrid descendants upon the flowering of human civilization around the world Traces the migrations of the sophisticated Denisovans and their interbreeding with Neanderthals and early human populations more than 40 000 years ago Shows how Denisovan hybrids became the elite of ancient societies including the Adena mound building culture Explores the Denisovans extraordinary advances including precision machined stone tools and jewelry tailored clothing and celestially aligned architecture Ice age cave artists the builders at G bekli Tepe and the mound builders of North America all share a common ancestry in the Solutreans Neanderthal human hybrids of immense sophistication who dominated southwest Europe before reaching North America 20

000 years ago Yet even before the Solutreans the American continent was home to a powerful population of enormous stature giants remembered in Native American legend as the Thunder People New research shows they were hybrid descendants of an extinct human group known as the Denisovans whose existence has now been confirmed from fossil remains found in a cave in the Altai region of Siberia Tracing the migrations of the Denisovans and their interbreeding with Neanderthals and early human populations in Asia Europe Australia and the Americas Andrew Collins and Greg Little explore how the new mental capabilities of the Denisovan Neanderthal and Denisovan human hybrids greatly accelerated the flowering of human civilization over 40 000 years ago They show how the Denisovans displayed sophisticated advances including precision machined stone tools and jewelry tailored clothing celestially aligned architecture and horse domestication Examining evidence from ancient America the authors reveal how Denisovan hybrids became the elite of the Adena mound building culture explaining the giant skeletons found in Native American burial mounds The authors also explore how the Denisovans descendants were the creators of a cosmological death journey and viewed the Milky Way as the Path of Souls Revealing the impact of the Denisovans upon every part of the world the authors show that without early man s hybridization with Denisovans Neanderthals and other yet to be discovered hominid populations the modern world as we know it would not exist **Unexplained!** Jerome Clark,2000-05 Applies the focus of scientific evidence to 347 of the best known some not so well known physical phenomena from current historical discoveries Then with lively text photos illustrations eyewitness accounts other documentation it summarizes objectively presents their possible explanations These phenomena include the Abominable Snowman ball lightning Bermuda Triangle bigfoot cattle mutilations crop circles green fireballs Hangar 18 kangaroos in the Midwest living dinosaurs Loch Ness monsters mad gassers Noah s Ark pterodactyl sightings reptile men sea serpents thunderbirds UFOs UFO abductions werewolves
