The Thirteenth Edition of Practical Business Math Procedures provides students with an engaging and personalized way to learn, leading to success in the classroom and beyond. Respected authors

Jeffrey Slater and Sharon Wittry incorporate examples from The Wall Street Journal and Kiplinger throughout the entirety of the text to reinforce real-world application of business math. Every chapter concludes with the "My Money" exercises, which encourage students to apply the chapter material to their personal finances while utilizing the Internet's many resources. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. This book reflects more than 28 years of author involvement with business math education and the business community. The linking of mathematics with real business practices in real businesses gives readers a better appreciation for and understanding of the concepts that are vital in the business world. Updated in a new 8th edition, this book is filled with updated chapter-opening scenarios, chapter-ending case studies, cases, boxed features, and exercise sets. It is organized in workbook format and opens with chapters on basic math. Coverage includes banking, business statistics, trade and cash discounts, markups and markdowns, payroll, consumer credit, mortgages, insurance, taxes, and stocks and bonds. Math for Business & Finance: An Algebraic Approach provides modern examples for students to understand business mathematics and make connections with real-world applications.

The course covers mathematical concepts from an algebraic approach, combined with Business applications. Every chapter is devoted to a Personal Finance theme, with topics that include Payroll and the Cost of Purchasing a Home. There is also extensive integration of scientific calculator notation, and also has the Wall Street Journal and Kiplinger news clips that have been widely popular in Jeffrey Slater's other two Business Math texts.
