Be the Nut Nov 15 2021 Be the Nut is a story of a little buckeye who just
can't come to terms with who he really is. He so desperately wants to
become an oak tree that he can't see his own special qualities and he
begins to compare himself to the little acorn. His comparisons lead to
coveting, scheming, lying and even stealing! He learns some very important
lessons along the way; like what we wear on the outside cannot change
who we are on the inside and that God knows just what He's doing when
He creates each one of us.

International Perspectives on Inclusion within Society and Education Jun 22 2022 International Perspectives on Inclusion within Society and Education explores how the theme of inclusion in education and society plays out across different nations and cultures. Covering topics like dual citizenship, political loyalty, and migration, it includes important discussions around poverty, educational disadvantage, youth radicalisation and inequality. With perspectives from a wide range of countries, including the USA, UK, Finland, Kosovo, Albania, Poland, Lithuania, Latvia, Hungary, the Czech Republic, Slovakia and India, this book explores how issues of inclusion are often decided by a majority for the majority, which can lead to included minorities feeling disadvantaged and paradoxically excluded. While setting up a strong case for inclusion in society and education, it

considers factors such as poverty and mental health both nationally and internationally and evaluates the effectiveness of additional financial resources and educational support in creating an inclusive world. This book will be of great interest for academics, researchers, and post graduate students in the fields of comparative education, inclusive education, sociology, political sciences and social work.

The Museum's Borders May 22 2022 The Museum's Borders demonstrates that museum practices are deeply entangled in border making, patrol, mitigation and erasure, and that the border lens offers a new tool for deconstructing and reconfiguring such practices. Arguing that the museum is a critical institution for the operation of knowledge-based democracies, Knell investigates how they have been used by scientists, art historians and historians to construct our bordered world. Examining the role of museums in the Windrush scandal in Britain, the exclusion of Black artists in America, ideological and propaganda discourses in Europe and China, and the remembering of contested pasts in the Balkans, Knell argues for the importance of museums in countering unethical, nationalistic, post-fact political discourse. Using the principles of Knell's 'Contemporary Museology', The Museum's Borders considers the significance of the

museum for societies that wish to know and remember in ways that empower citizens and build cohesive societies. The book will be of great interest to students and academics engaged in the study of museums and heritage, art history, science studies, cultural studies, anthropology, memory studies and history. It is required reading for museum professionals seeking to adopt non-discriminatory practices.

The Perfect Vehicle: What It Is About Motorcycles Sep 25 2022 "This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.
