*Kierkegaard For Beginners* Donald D. Palmer, 2007-08-21 The Danish philosopher Soren Kierkegaard was one of the most original thinkers of the 19th Century and one of the most enigmatic men who ever walked the Earth Philosophically Kierkegaard was the bridge that led from Hegel to Existentialism Kierkegaard abhorred Hegel s abstract Know it all idealism that tried to capture reality in a few words Kierkegaard s attack on social and religious complacency and his single handed assault on traditional Western philosophy generated a crisis that produced a radically new way of philosophizing and made him the founder of the school that would later be called Existentialism To Kierkegaard reality was personal subjective it began and ended with the individual and philosophy was not something one merely talked about it was the way you lived For such a brilliant thinker the way Kierkegaard lived was somewhat too interesting His abstract love affair His obsession with death His leap of Faith his cynicism his marvelous sense of humor how do you put all that into one man For starters you read *Kierkegaard For Beginners* It explains plainly and simply the great Danish thinker s obsession with the particularity of human existence as well as his demonstration of how the creation of an authentic new kind of individual is possible

**Wisdom of the Italians** Giambattista Vico,2010-01-01 In an illuminating introduction to the volume Robert Miner elucidates Vico's short but difficult work at the same time he allows the reader to assess the importance of that work in absolute terms as well as relative to Vico's other writings and the work of his numerous interlocutors in the republic of letters Looking At Philosophy: The Unbearable Heaviness of Philosophy Made Lighter Donald Palmer,2005-06-07 Distilled from Donald Palmer's more than 30 years of teaching experiences this approachable text historically organized text exemplifies Dr Palmer's very successful light hearted approach to teaching introduction to philosophy Through the use of humor drawings charts and diagrams serious philosophical topics come alive for the readers without compromising the seriousness of the subject matter The text can be used as a core text or as a supplement to any reader **50 Philosophy Ideas You Really Need to Know** Ben Dupre,2022-08-18 In a series of 50 accessible essays Ben Dupre introduces and explains the philosophical questions around knowledge consciousness identity ethics and justice that have engaged the minds of thinkers from the Ancient Greeks to the present day From Plato's cave to virtue ethics theories of punishment to animal rights 50 Philosophy Ideas You Really Need to Know is a complete introduction to the most important philosophical concepts in history

*Introducing Foucault* Christopher Horrocks,Zoran Jetvic,2004-01-01 This book places Michel Foucault's work in its turbulent philosophical and political context and critically explores his mission to expose the links between knowledge and power in the human sciences their discourses and institutions It explains how Foucault overturned our assumptions about the experience and perception of madness sexuality and criminality and the often brutal social practices of confinement confession and discipline

**Bad Beliefs** Neil Levy,2022-01-30 Why do people come to reject climate science or the safety and efficacy of vaccines in defiance of the scientific consensus A popular view explains bad beliefs like these as resulting from a range of biases that together ensure that human beings fall short of being genuinely rational animals This book presents an alternative account It argues that bad beliefs arise from genuinely rational processes We've missed the rationality of bad beliefs because we've failed to recognize the ubiquity of the higher order evidence that shapes beliefs and the rationality of being guided by this evidence The book argues that attention to higher order evidence should lead us to rethink both how minds are best changed and the ethics of changing them we should come to see that nudging at least usually changes belief and behavior by presenting rational agents with genuine evidence and is therefore fully respectful of intellectual agency We needn't rethink Enlightenment ideals of intellectual autonomy and rationality but we should reshape them to take account of our deeply social epistemic agency

**An Insider's View of Mormon Origins** Grant H. Palmer,2002 Quote Why would God reveal to Joseph Smith a faulty mistranslated KJV text Chap 4 Evangelical Protestantism in the Book of Mormon concludes that numerous theological issues addressed in the Book of Mormon probably derived from Smith's Upstate New York religious environment than from the claimed ancient gold plates Chap 5 Moroni and the Golden Pot examines a long list of parallels between a published story by E T A Hoffmann and Smith's account of the angel Moroni's

visits The chapter concludes It would stretch credulity to believe that this long list of parallels between Hoffmann s Golden Pot story and Smith s Moroni story could be a coincidence and I therefore think that a debt is owed to E T A Hoffmann and the European traditions Chap Does the Center Hold? ,2020 I ve met students whose parents pressured them to major in business or biology or to enroll in pre law courses but I can t remember ever meeting students whose parents insisted that they become philosophy majors Certainly nobody ever went into this field motivated by greed unless he or she was laboring under a serious misapprehension Plato may have gone into philosophy impelled by a frustrated lust for power but few make that mistake anymore *Introduction to Business* Lawrence J. **Structuralism and Poststructuralism For Beginners** Donald D. Palmer,2007-08-21 What is Structuralism How is it possible And once the structures of Structuralism have been discovered how is Poststructuralism possible Thus begins Don Palmer s Structuralism and Poststructuralism For Beginners If Nobel or Pulitzer ever made a prize for making the most

difficult philosophers and ideas accessible to the greatest number of people one of the leading candidates would certainly be Professor Don Palmer From his Sartre For Beginners and Kierkegaard For Beginners to his Looking at Philosophy author illustrator Don Palmer has the magic touch when it comes to translating the most brutally difficult ideas into language and images that non specialists can understand In its less dramatic versions writes Palme structuralism is just a method of studying language society and the works of artists and novelists But in its most exuberant form it is a philosophy an overall worldview that provides an account of reality and knowledge Poststructuralism is a loosely knit intellectual movement comprised mainly of ex structuralists who either became dissatisfied with the theory or felt they could improve it Structuralism and Poststructuralism For Beginners is an illustrated tour through the mysterious landscape of Structuralism and Poststructuralism The book s starting point is the linguistic theory of Ferdinand de Saussure The book moves on to the anthropologist and literary critic Claude Lévi Strauss the semiologist and literary critic Roland Barthes the Marxist philosopher Louis Althusser the psychoanalyst Jacques Lacan the deconstructionist Jacques Derrida Learn among other things why structuralists say Reality is composed of not Things but Relationships Every object is both a presence and an absence The total system is present in each of its parts The parts are more real than the whole The book concludes by examining the postmodern obsession with language and with the radical claim of the disappearance of the individual obsessions that unite the work of all these theorists **Prominent Families of New York** Lyman Horace Weeks, 1898
