The Congo Affair Norman Shakespeare,2015-02-28 A fascinating nail-biting and romantic exodus from civil war in the heart of the equatorial jungle It takes compelling reasons to leave rewarding jobs and comfortable urban lifestyles and move to an isolated aerospace project in an equatorial jungle The

facility constructed during a brief lull in the country's tumultuous history is located on the equator a good place to launch large rockets Nearly three thousand westerners live and work behind a fence separating them from the jungle and the darkness Few take an interest in the primeval ecosystem outside As happens frequently in the Congo things start to go downhill Civil war spreads and the base fifteen hundred miles up the river is slowly cut off Regular re supply flights are suspended after a near miss with a surface to air missile fired from the bush The alternate route ten days by dilapidated ferry to Kinshasa becomes less reliable by the week Head office personnel in Europe are out of touch with things on the ground and reluctant to upset local politicians by suggesting curtailing operations prematurely The situation reaches a point where the inhabitants are forced to prepare for the worst and to seriously consider their desperate evacuation plans While the mighty river flows endlessly by camp security guards assume power from the academic admin staff and martial law is imposed James Kent a very private divorcee with I T and military experience engages the help of friendly natives to gather intelligence and questions the head guard's escape plan The community starts to polarize Some make it to the coast by ferry but the situation deteriorates further with repeated attacks by rebels causing more tensions The stage is set darkest Africa suspense and passionate romance take control [Terrier-centric Dog Training](#) Dawn Antoniak-Mitchell,2012-08 Terriers and terrier mixes are different from other breeds Learn how to work with your terrier's instincts to get good behavior by getting inside his head and using management techniques to avoid problems at home and out in the world
