Short Answer

1. The five types are fire-based, third-party services, hospital-based, police systems and private systems.
2. State emergency medical services (EMS) agencies are responsible for the overall planning, coordination and regulation of the EMS system within the state as well as licensing or certifying EMS providers. Their responsibilities may include leading statewide trauma systems, developing and enforcing statewide protocols for EMS personnel in addition to the national requirements, administering or coordinating regional EMS programs, operating or coordinating statewide communications systems, coordinating and distributing federal and state grants and planning and coordinating disaster and mass casualty responses, as well as homeland security medical initiatives.
3. The purpose of the *National EMS Education and Practice Blueprint* is to establish nationally recognized levels of EMS providers and scopes of practice. It provides a framework for future curriculum development projects and a standardized way for states to handle legal recognition and reciprocity.
4. The four nationally recognized levels of training are emergency medical responder (EMR), emergency

medical technician (EMT), advanced emergency medical technician (AEMT) and paramedic.

3. Licensure is an acknowledgment that the board has permission to practice in the state granting the licensure, has the highest level of public protection granted by the state and is the final authority for public protection.

CASE STUDY

Scenario A

1. Primary responsibilities include ensuring the safety of yourself and the bystanders, gaining access to the patient, determining any threats to the patient's life, summoning more advanced medical personnel as needed, providing medical care for patients and assisting more advanced medical personnel.
2. Indirect medical control involves the use of standing orders, which allows EMS personnel to provide certain types of care or treatment without speaking to the physician.
3. Secondary responsibilities would include summoning additional help and directing bystanders or asking them for help; taking additional steps if necessary to protect bystanders from danger; recording what you saw, heard or did at the scene; and reassuring the patient's family and friends.

Scenario B

Handbook of Teaching for Physical Therapists - E-Book Gail M. Jensen, Elizabeth Mostrom, 2012-09-02 Whether you are practicing in an inpatient or an outpatient facility, academic institution, or clinical residency program, this well-respected handbook gives you the background and guidance you need to effectively educate individuals across the continuum of physical therapy practice. Practical, real-life examples show you how to incorporate health literacy and needs of the learner, assess and adapt to the various learning styles of patients, use simulations in education, facilitate the development of clinical reasoning skills, and assess learning outcomes and the effectiveness of your teaching. Plus, four all-new chapters and major revisions of all content throughout the book keep you on top of the latest research and best practices. Coverage of the theory and application of educational principles across the continuum of PT practice provides the information you need to improve your skills in the educational process, both in academic and clinical settings. Two-section format divides content into two parts: designing academic and clinical education programs and teaching students in academic and clinical settings, and teaching patients and families in clinical and community settings. Variety of teaching and teaching assessment methods expands your teaching, learning, and assessment repertoires. Case stories at the beginning of each chapter allow you to see the relevance of the information in the chapter. Threshold concepts highlight key ideas that are important to know. Annotated bibliography at the end of each chapter provides resources for further study. NEW Chapter on Authentic Assessment Simulation-Based Education reflects the new ways to facilitate student learning through the use of human simulation models. NEW Chapter on Strategies for Planning and Implementing Interprofessional Education covers the fundamental concepts of team-based care and interprofessional learning. NEW Chapter on What Makes a Good Clinical Teacher translates current research on clinical teaching into clinical education and practice. NEW Chapter on Facilitating the Teaching and Learning of Clinical Reasoning helps you apply current research on clinical reasoning in rehabilitation to clinical education and teaching. NEW Two combined chapters on Patient Education and Health Literacy (previously chapters 8 and 12) and Applied Behavioral Theory and Adherence Models for Practice (previously chapters 9 and 10) provide focused presentations on current thinking and practical strategies for addressing health literacy issues in the clinical environment. NEW Expanded chapter on Post-Professional Clinical Residency and Fellowship Education offers more information on models and trends in residency education and mentoring.
