A landmark exposé and “deeply engaging legal history” of one of the most successful, yet least known, civil rights movements in American history (Washington Post). In a revelatory work praised as “excellent and timely” (New York Times Book Review, front page), Adam Winkler, author of *Gunfight*, once again makes sense of our fraught constitutional history in this incisive portrait of how American businesses seized political power, won “equal rights,” and transformed the Constitution to serve big business. Uncovering the deep roots of *Citizens United*, he repositions that controversial 2010 Supreme Court decision as the capstone of a centuries-old battle for corporate personhood. “Tackling a topic that ought to be at the heart of political debate” (Economist), Winkler surveys more than four hundred years of diverse cases—and the contributions of such legendary legal figures as Daniel Webster, Roger Taney, Lewis Powell, and even Thurgood Marshall—to reveal that “the history of corporate rights is replete with ironies” (Wall Street Journal). *We the Corporations* is an uncompromising work of history to be read for years to come. A practical approach to Corporations featuring carefully edited cases, intriguing notes and questions, and exercises drawn from actual cases to create a practical and skills-driven approach to the study of the legal principles of business. Featuring: Each chapter includes all the landmark cases that students should be introduced to in a Corporations or Business Entities course Strong skills-driven exercises and questions (both litigation-based and transaction-based) the practical exercises give students a chance to simulate what lawyers do the exercises are drawn from actual disputes, particularly from material in the case's procedural history, publicly-

available information about the dispute, and other information provided from the actual lawyers on the case Brief notes and questions after cases, including some with practice-orientation Diagrams, or Roadmaps are included to give students an illustrative snapshot of some of the toughest cases. This text obviates the need for law professors interested in skills training to rely on supplemental texts or creating their own materials Companion website that includes supplemental introductory cases (with notes and questions) to enable use of the casebook by MBA and undergraduate students (Black & White version) Fundamentals of Business was created for Virginia Tech's MGT 1104 Foundations of Business through a collaboration between the Pamplin College of Business and Virginia Tech Libraries. This book is freely available at: <http://hdl.handle.net/10919/70961> It is licensed with a Creative Commons-NonCommercial ShareAlike 3.0 license. Business Organizations Law in Focus, Second Edition provides a thorough introduction to the key attributes, advantages, and disadvantages of every form of for-profit business organization in the United States, including: partnerships, limited liability companies, and corporations. The practice-oriented approach of the Focus Casebook Series elucidates the legal and practical aspects of business organizations through real-world scenarios that provide numerous opportunities for students to apply theory to practice and solidify their understanding of key concepts. Clear exposition and Case Previews support independent learning and focus case analysis. New to the Second Edition: Significantly more editing of cases with an eye towards making case excerpts shorter and more accessible to students. Expanded coverage of LLCs in Chapter 12, including a newly added case and related exercises addressing the primacy of the operating agreement in LLC governance and 2019 case and associated exercises highlighting LLC dissolution standards. Newly-added cases and exercises in Chapter 9 highlighting the continued evolution of Delaware's Caremark corporate monitoring and oversight doctrine, including references to the Delaware Supreme Court's recent decision in *Marchand v. Barhill*, 212 A.3d 805, 809 (Del. 2019) reversing the dismissal of Caremark claims against an ice cream manufacturer over allegedly persistent food safety issues, and the Chancery Court's decision in *Clovis Oncology, Inc. Derivative Litig.*, C.A. No. 2017-0222-JRS, 2019 WL 4850188 (OCT. 1, 2019) denying a motion to dismiss Caremark claims involving allegedly "serial non-compliance" with FDA protocols and regulations having to do with drug approval. An additional case in Chapter 10 that asks whether the "disrespectful and unfairly disproportionate treatment of a female shareholder by the male majority in a closely held corporation constitutes corporate oppression" pursuant to New York Business Corporation Law § 1104-a (a)(1). A new case in Chapter 10 in which shareholders of AmerisourceBergen—one of the world's leading wholesale distributors of opioid painkillers—sought to exercise their inspection rights under DGCL § 200 to investigate whether the firm had engaged in wrongdoing in connection with the distribution of opioids. Additional and expanded references to Model Business Corporation Act (MBCA) standards across Chapters 8, 9, and 10, including expanded references to MBCA standards concerning director conflicting interest transactions, the corporate opportunity doctrine, and the MBCA's universal demand rule for derivative actions. A new case in Chapter 3 addressing duties of loyalty and candor in the partnership context that invokes the *Meinhard v. Salmon* standard in a manner that is more accessible to students. Updated coverage of the proxy system and proxy regulation, securities offering rules and regs, and developments in insider trading law. New cases and "spotlight" sections that address a variety of timely issues, including "unicorns" (start-up businesses with a valuation of at least \$1 billion), claims involving opioid manufacturers, and corporate governance matters involving #MeToo claims. Professors and students will benefit from: Features that engage students in applying theory to practice, such as Real-Life Applications, Application Exercises, and Applying the Concepts. Experiential exercises on

drafting documents and preparing appropriate filings. An overview in Chapter One of the various forms of business organization and their key attributes, advantages, and disadvantages. An emphasis on contemporary principal cases and issues that resonate with today's students and fuel class discussion. Clear exposition of legal principles means students can absorb assigned reading on their own, and professors don't have to explain it from the lectern in class. Attention to attorney ethical issue and rules that commonly arise in the representation of business entities. The online ascii art generator can convert text to multiline text boxes. Try it now. "Select list of references": pages 518-519. Complete coverage includes all the elements of a traditional Legal Environment of Business Text. The bold and innovative McGraw-Hill Taxation series is now the most widely adopted code-based Tax title across the country. It's apparent why the clear, organized, and engaging delivery of content, paired with the most current and robust tax code updates, is used by more than 600 schools. The breadth of the topical coverage, the storyline approach to presenting the material, the emphasis on the tax and non-tax consequences of multiple parties involved in transactions, and the integration of financial and tax accounting topics make this book ideal for the modern tax curriculum. Story line Approach: Each chapter begins with a story line that introduces a set of characters or a business entity facing specific tax-related situations. Examples related to the story line allow students to learn the code in context. Integrated Examples: In addition to providing examples in-context, we provide "What if" scenarios within many examples to illustrate how variations in the facts might or might not change the answers. More than 100 Videos: Guided Example hint videos provide students with on-demand walk-throughs of key Tax topics, offering narrated, animated, step-by-step solutions to algorithmic variants for select exercises similar to those assigned. Conversational Writing Style, Superior Organization, and Real-World Focus What form is best for your business? Should it be one of the corporate forms or one of those that is not a corporation? This text will give you the facts and the comparisons that will help you make that choice. It should at the very least, give you the basic information so you can understand the issues that affect that choice. In addition, this writing is intended to list the basic information about US business structures every attorney and CPA wishes his or her new client already understood when first seeking help turning a worthwhile business plan into a smooth running profit making machine. The table of contents lists the types of business legal structures available to the entrepreneur for doing business in the US. Note that business structures have either a ?corporate? and ?non-corporate? legal form. Take a ?quick look? at the comparison of business types appearing in Chapter 1: ?Business Entities Compared?. It is an easy to understand summary of the major considerations in choosing a form for a business. That page, for each type, lists the owner; personal liability; taxation and management features of each type. The later chapters of this writing discuss the details and the major issues that apply to each of business legal structure listed in that first chapter. All USA businesses are legal entities authorized defined, created, and registered according to the individual state laws of the state where the business is located. Although similar, there are important differences among the states. A great deal of ?shopping? for a favorable ?home? does in fact take place because of those differences. However, there is a requirement for all businesses to ?register? in any state where it has operations. That subject is the subject of Chapter 15: ?Doing Business in Other States?. The appendix provides links to all 50 state departments Involved in forming a business. It includes all state's secretary of state business records departments; state taxation departments; security departments; and corporate and business laws. This book is meant for every individual, whether students, teachers, new entrepreneurs, or business owners. Here, every section of the book talks about different aspects existing in the business structure in this book. From understanding the basic terms to going to the

deeper depth of the leading business environment, here you can have it all. This book has been written by keeping in mind the information related to business and is a major aspect of it. Starting from the business entity, which is the first major step for any business structure, till the human resource, which is said to be an equally important aspect, one can find everything here so if you're a business management student or an entrepreneur who is dreaming of setting his/her foot in this amazing world of business. Come, dig in and gain the knowledge! Overall, it's very important to gain the proper knowledge about anything and everything you want to start so don't miss the chance of getting it. Any opportunity that might be seeking to hold hands with you gets away for any reason. So, here come to join us and together be a part of a business world. Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes--portability, meaningful feedback, and greater efficiency. This looseleaf version of the Connected Casebook does not come with a binder. Intended for the basic course in Business Organizations, Cases and Materials on Business Entities encompasses corporations, agency, partnership, and LLCs. Its extended coverage of alternative business entities distinguishes it from the more limited corporations-focused coverage of many business organizations texts. The author includes elaborate problems designed to help students become practice-ready as well as enhanced coverage of LLCs and principal cases that were decided within the last 20 years. The recipient of numerous teaching awards and a former clerk at the California Supreme Court and the U.S. District court, author Eric Chiappinelli has taught, written, and practiced extensively in business entities, corporate law, securities regulation, and civil procedure. Key Features: Over 20 new cases, including *Shawe v. Elting* (Del. 2017). All principal cases are less than 20 years old. Corporation chapters reflect MBCA (2016), and Partnership materials reflect UPA (2013). LLC chapter has been revised and updated. New materials on ultra vires and ultimate beneficiaries. New discussion of DGCL §§ 204 and 205 and MBCA (2016) Subchapter E (ratifying defective acts) New real-life examples: Kate Spade acquired by Coach and Toys "R" Us bankruptcy. CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations, Emanuel Law Outlines, Emanuel Law in a Flash flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time. OUTLINE TOOL Most professors will tell you that starting your outline early is key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester. Consists of 11 modules: Business entities 6 v. "This fourth edition to *An Estate Planner's Guide to Family Business Entities* brings the second edition current through December 1, 2019 and is designed for the estate planner who is considering the most appropriate way to achieve his or her client's goal of transferring wealth to younger family members. Although it covers both tax and nontax considerations, its major emphasis is on the tax considerations, covering choosing the business entity and comparing the various entities that are available; highlighting recent developments concerning choice of entity; covering the application of the special valuation rules and other transfer tax issues, as well as the use of a grantor retained annuity trust to reduce the value of the gift when transferring an interest in a family-held entity, are discussed"-- Moye's highly regarded text offers a paralegal-specific

introduction with thorough coverage of different types of business organizations. A chapter on Limited Liability Companies contains complete information on the most recent statutes and forms. You will also find extensive coverage of employment law and agreements, share-holder agreements, shareholder meetings and agencies. Learning features like Case Problems and Practice Assignments throughout chapters reinforce concepts. LLC vs. C-Corp vs. S-Corp: The most important business decision you'll make Whether you are starting a new business or thinking about an existing one, the big question is "Which legal structure is best?" The answer has important legal and tax consequences. LLC or Corporation? explains: the basics of all business entities why sole proprietorships and partnerships are usually a poor choice how to avoid being personally liable for business debts how to pay less tax by choosing the right entity how to convert from one business entity to another, and requirements for doing business out of state. LLC or Corporation? is packed with real-world examples to help you make the best choice for your company. The 8th edition is updated with the new tax rates and deductions from the Tax Cuts and Jobs Act. Strategic Management (2020) is a 325-page open educational resource designed as an introduction to the key topics and themes of strategic management. The open textbook is intended for a senior capstone course in an undergraduate business program and suitable for a wide range of undergraduate business students including those majoring in marketing, management, business administration, accounting, finance, real estate, business information technology, and hospitality and tourism. The text presents examples of familiar companies and personalities to illustrate the different strategies used by today's firms and how they go about implementing those strategies. It includes case studies, end of section key takeaways, exercises, and links to external videos, and an end-of-book glossary. The text is ideal for courses which focus on how organizations operate at the strategic level to be successful. Students will learn how to conduct case analyses, measure organizational performance, and conduct external and internal analyses. Description Coming Soon! A comprehensive book describing principal forms of business, exploring the considerations and strategies in making an appropriate selection, sample forms and documents, and much more. By carefully considering the forms of business entities that are available and then intelligently choosing an appropriate one, the entrepreneur can reduce exposure to liabilities, save taxes and launch the business in a form capable of being financed and conducted efficiently. The sooner a choice is made, the more flexibility and wider selection the entrepreneur will have. Moreover, formalizing a business helps prevent misunderstandings among the participants by defining ownership, roles, and duties in the business. The primary considerations in the choice of business entity will be how to protect the entrepreneur's personal assets from liabilities of the business. For example, tax strategies such as maximizing the tax benefits of start-up losses, avoiding double (or even triple) layers of taxation, and converting ordinary income into long term capital gains, which is taxed at lower rates. other examples include: selecting an entity that will be attractive to potential investors and lenders, availability of attractive equity incentives for employees and other service providers, and costs (start-up costs and on-going costs). The title of the basic business law course--Corporations, Business Associations Business Organizations, or Business Entities--varies from law school to law school and from year to year. However, in these courses, the core coverage is essentially the same--agency principles, partnership law, fiduciary duties, securities fraud, and changes in corporate control. This relatively concise book is intended to reach students in the basic corporate law course, regardless of course title. This book attempts to make the usual coverage as easy and straightforward as possible. Although the vast majority of law students take a corporations or basic business organizations course, there are surprisingly few attempts to systematically organize the most important doctrines and theories covered. Of the few books that

track the basic business law course, even fewer still are of recent vintage. This book attempts to fill those lacunae. The book intends to aid students, of course, in the basic Corporations or Business Organizations courses. Additionally, this book would be a useful resource to students in other closely related courses in law school, like Agency & Partnership, Closely Held Firms, Mergers & Acquisitions, and Securities Regulation, to name just a few. In addition to law schools, the book is also written with an eye toward the graduate students in business administration who are frequently enrolled in a basic business law course, as well as the newly minted corporate attorney who wants a refresher text. Understanding business entities is essential to the effective planning, formation, growth, and continued management of a business venture. This text provides a straightforward guide for entrepreneurs, managers, and professional practitioners who need a thorough understanding of the key attributes of the most common types of business entity. It covers issues including: entity formation, governance, location, maintenance, ownership, control, authority, liability, compensation, taxation, and funding. It also discusses the use of specific entity types for startup ventures, where to form the business entity, and doing business in multiple states. The text is organized in an easy-to-read, question-and-answer format that breaks down the elements of each business entity into small digestible pieces. Following an explanation of the applicable rules, the text includes simple examples to help the reader understand the relevant principles. *SmartStart Your Business Today! How to Start a Business in California* is your road map to avoiding operational, legal and financial pitfalls and breaking through the bureaucratic red tape that often entangles new entrepreneurs. This all-in-one resource goes a step beyond other business how-to books to give you a jump-start on planning for your business. It provides you with: Valuable state-specific sample forms and letters on CD-ROM Mailing addresses, telephone numbers and websites for the federal, state, local and private agencies that will help get your business up and running State population statistics, income and consumption rates, major industry trends and overall business incentives to give you a better picture of doing business in California Checklists, sample forms and a complete sample business plan to assist you with numerous startup details State-specific information on issues like choosing a legal form, selecting a business name, obtaining licenses and permits, registering to pay taxes and knowing your employer responsibilities Federal and state options for financing your new venture Resources, cost information, statistics and regulations have all been updated. That, plus a new easier-to-use layout putting all the state-specific information in one block of chapters, make this your must-have guide to getting your business off the ground. The basic approach to teaching taxation hasn't changed in decades. Today's student deserves a new approach. McGraw-Hill's *Taxation of Individuals and Business Entities* continues to be a bold and innovative new textbook that has generated enthusiasm across the country. With over 120 adoptions in the first edition alone, McGraw-Hill's Taxation Series is designed to provide a unique, innovative, and engaging learning experience for students studying taxation. The breadth of the topical coverage, the storyline approach to presenting the material, the emphasis on the tax and nontax consequences of multiple parties involved in transactions, and the integration of financial and tax accounting topics make this book ideal for the modern tax curriculum. As businesses grow, owners find themselves wondering if they should upgrade their legal structure to something more sophisticated, such as a limited liability company or a corporation. The question is, "Which one?" The answer isn't always clear -- but because your choice will affect the legal and tax status of your business, it's the most important question you'll answer. *LLC or Corporation?* will help you make the right choice with plain-English explanations of:

- the basics of business entities
- how each business entity protects you from personal liability
- profits, losses and tax treatment
- converting from one type of business entity to another
- what to do if

you conduct business out of state Making the right choice will affect your bottom line in many ways -- from what you pay for taxes, to your ability to seek money from investors. The book also provides conversion and formation scenarios that provide a real-world look at all the options available to you. This book is not really just for those starting a business. It's actually aimed at anyone already in business who wants to determine if they should convert—for example—from a partnership to an LLC or from a sole proprietorship to a corporation. The 2nd edition includes the latest laws regarding business structures, as well as new tips on taxes. Consists of 11 modules: Business entities 6 v. Cases and Materials on Business Entities, Fifth Edition

Beginning a business includes arranging, settling on key monetary choices, and completing a series of legal activities. Business Organizations for Paralegals by Deborah E. Bouchoux offers comprehensive overview of business organizations, presented in a student-friendly format Business Organizations for Paralegals covers of all the various types of business organizations and provides a basic and thorough understanding without overwhelming students. Each business entity is discussed using a logical “life cycle” approach: from its formation, to its advantages and disadvantages, to its operation, to its dissolution, and to its tax consequences. The text begins with an introduction to the various business entities and then progresses from the simplest, the sole proprietorship, through partnerships, to the most complex, the business corporation. The newest forms of business entities, the limited liability partnership and limited liability company, are also discussed. The text concludes with “other” forms of corporations, such as nonprofit and professional corporations. The text combines in-depth substantive coverage of topics with practical information, including checklists. Throughout, helpful pedagogy reinforces the material, including web resources, key terms, practice tips, and exercises. New to the Ninth Edition: New case illustrations, discussion questions, and Net Worth questions New and updated charts Discussion of the Corporate Transparency Act of 2021 Discussions of the shift away from the shareholder primacy doctrine to a new standard for corporate responsibility in which the interests of other stakeholders are considered when corporations take action Examination of green and social bonds, by which corporations fund eco-friendly projects or raise funds for social projects such as affordable housing An entirely new section in Chapter Eleven on governance trends, especially ESG issues, such as improving diversity in the boardroom and proposals to combat climate change Discussion of direct listings and SPACs (special purpose acquisition companies) as alternatives to IPOs The use of new stock trading apps such as Robinhood and the 2021 short sale of meme stock GameStop The SEC’s actions against celebrities for touting cryptocurrency investments The effect of the #MeToo and Black Lives Matter movements on businesses The significance of the COVID-19 pandemic in various business-related issues

Professors and students will benefit from: Comprehensive, classroom-tested text designed for paralegal students Timely coverage of new trends and topics Excellent pedagogy and well-written text make a dense topic accessible Helpful visual aids and charts that illustrate and highlight important topics Sample forms that appear in context throughout the book Discussion of the role of the paralegal in each chapter This supplement is designed for a basic business organizations course focusing on corporations, limited liability companies, and partnerships. Statutes include up-to-date versions of the Model Business Corporation Act as well as the Uniform Partnership and Limited Partnership acts. It also contains the Delaware Corporation Law and Delaware's Limited Liability Company Act. Selections from the federal securities laws that are typically covered in the basic business organizations course are also included. Significantly shorter than some other statutory supplements, it is easier to use and to bring to and from class. The 2010-2011 edition adds some sample corporate documents, including a certificate of incorporation, bylaws, and minutes. "What You Don't Know CAN Hurt You!"

Launch Your Business on the Right Foot with Experienced Insight from One of the Nation's Premier CPA Firms. The Little Book About Business Entity Selection is the result of decades of thought and is born out of the need to provide Entrepreneurs and Business Owners clear and concise information about choosing a business entity classification for a new venture. It might sound trivial, but after decades of helping people set up corporations, Marvin Morse came to an inescapable conclusion—Most people do not know how to set up their new company to maximize profitability, minimize taxation and protect themselves from liability. Three very important aspects of a business! Most people might opt for an afternoon in the dentist chair instead of enduring the sometimes painful process of setting up a corporation. Why? Because you don't know what you don't know, but at the same time you are aware that your decisions will have big financial ramifications in the future. Now, through this easy-to-read book, Marvin Morse tells you everything you need to know in story form. It is the perfect way to grasp the critically important concepts so you are well informed and can make your business decisions with complete confidence.
