Inside, you'll also discover 550 powerful natural remedies made from them for every one of your daily needs. Many of these remedies had been used by our forefathers for hundreds of years, while others come from Dr. Nicole's extensive natural practice. This book was made for people with no prior plant knowledge who are looking for alternative ways to help themselves or their families. This lost knowledge goes against the grain of mainstream medicine and avoids just dealing with symptoms. Instead, it targets the underlying root cause and strengthens your body's natural ability to repair itself. With the medicinal herbal reference guide included, it's very easy to look up your own condition and see exactly which herbs and remedies can help. Let me just offer you a small glimpse of what you'll find inside: On page 145 learn how to make a powerful "relieving" extract

using a common backyard weed. This plant acts directly on the central nervous system to help with all kinds of pain and discomfort. You'll also discover the most effective natural antibiotic that still grows in most American backyards (page 150). Turn to page 43 for the natural protocol Dr. Nicole is recommending for a wide range of auto-immune conditions, after falling prey to MS herself at age 29. I could go on and on because this book contains no less than 800+ other medicinal plants and natural remedies. Two natural health physicians give up-to-date accurate information on natural treatments for today's most common medical conditions. "By the study, experimentation and practice of natural healing, women are changing and charting the future of health care. Despite heavy resistance or lack of recognition from patriarchal medicine, they are nevertheless making positive changes that will continue and increase. Women's emphasis on one-to-one work practiced in mutual agreement and participation is very different from mechanized and big-money medicine, and has results and successes far beyond expectations. The emphasis on self-healing returns health care to the consumer, to women's lives and bodies, for the first time in centuries. The medical system cannot control a movement held in the hands of women, though it may try. Women are taking control again of healing, our daughter-right, for the first time since the matriarchies and the Inquisition."—from the Introduction
