Is That a Fish in Your Ear? David Bellos,2011-10-11 A New York Times Notable Book for 2011 One of The Economist s 2011 Books of the Year People speak different languages and always have The Ancient Greeks took no notice of anything unless it was said in Greek the Romans made everyone speak Latin and in India people learned their neighbors languages as did many ordinary Europeans in times past Christopher Columbus knew Italian Portuguese and Castilian Spanish as well as the classical languages But today we all use translation to cope with the diversity of languages Without translation there would be no world news not much of a reading list in any subject at college no repair manuals for cars or planes we wouldn t even be able to put together flat pack furniture Is That a Fish in Your Ear ranges across the whole of human experience from foreign films to philosophy to show why translation is at the heart of what we do and who we are Among many other things David Bellos asks What s the difference between translating unprepared natural speech and translating Madame Bovary How do you translate a joke What s the difference between a native tongue and a learned one Can you translate between any pair of languages or only between some What really goes on when world leaders speak at the UN Can machines ever replace human translators and if not why But the biggest question Bellos asks is this How do we ever really know that we ve understood what anybody else says in our own language or in another Surprising witty and written with great joie de vivre this book is all about how we comprehend other people and shows us how ultimately translation is another name for the human condition

The Varieties of Religious Experience: A Study in Human Nature William James,2015-09-04 The Best Nonfiction Masterpiece of the 20th Century There are two lives the natural and the spiritual and we must lose the one before we can participate in the other William James The Varieties of Religious Experience A Study in Human Nature The Varieties of Religious Experience A Study in Human Nature is not a book about a specific religion The author psychologist Williams James does not try to convince the reader one religion is better than the other He doesn t even make a case for atheism and the scientific approach The book is in fact about human nature and how we experience religion at a psychological level Xist Publishing is a digital first publisher Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading no matter what form it takes

Napoleon's Egypt Juan Cole,2007-08-07 In this vivid and timely history Juan Cole tells the story of Napoleon s invasion of Egypt Revealing the young general s reasons for leading the expedition against Egypt in 1798 and showcasing his fascinating views of the Orient Cole delves into the psychology of the military titan and his entourage He paints a multi faceted portrait of the daily travails of the soldiers in Napoleon s army including how they imagined Egypt how their expectations differed from what they found and how they grappled with military challenges in a foreign land Cole ultimately reveals how Napoleon s invasion the first modern attempt to invade the Arab world invented and crystallized the rhetoric of liberal imperialism

The Violence of Modernity Debarati Sanyal, 2020-03-03 The Violence of Modernity turns to Charles Baudelaire one of the most canonical figures of literary modernism in order to reclaim an aesthetic legacy for ethical inquiry and historical critique Works of modern literature are commonly theorized as symptomatic responses to the trauma of history In a climate that tends to privilege crisis over critique Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential Examining Baudelaire's poems afresh she shifts the focus of critical attention toward an account of modernism as an active engagement with violence specifically the violence of history in nineteenth century France Sanyal analyzes a literary current that uses the traditional hallmarks of modernism irony intertextuality self reflexivity and formalism to challenge the historical violence of modernity Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history and thereby to challenge the melancholy tenor of our contemporary wound culture In a series of provocative readings Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity counterviolence and critique The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma Following her extended analysis of Baudelaire's poetry Sanyal in later chapters considers a number of authors influenced by his strategies including Rachilde Virginie Despentes Albert Camus and Jean Paul Sartre to examine the relevance of their interventions for our current climate of trauma and terror The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity

Scientific Babel Michael D. Gordin, 2015-04-13 English is the language of science today No matter which languages you know if you want your work seen studied and cited you need to publish in English But that hasn't always been the case Though there was a time when Latin dominated the field for centuries science has been a polyglot enterprise conducted in a number of languages whose importance waxed and waned over time until the rise of English in the twentieth century So how did we get from there to here How did French German Latin Russian and even Esperanto give way to English And what can we reconstruct of the experience of doing science in the polyglot past With Scientific Babel Michael D Gordin resurrects that lost world in part through an ingenious mechanism the pages of his highly readable narrative account teem with footnotes not offering background information but presenting quoted material in its original language The result is stunning as we read about the rise and fall of languages driven by politics war economics and institutions we actually see it happen in the ever changing web of multilingual examples The history of science and of English as its dominant language comes to life and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices but also of the possibilities of the polyglot and the losses that the dominance of English entails Few historians of science write as well as Gordin and Scientific Babel reveals his incredible command of the literature language and intellectual essence of science past and present No reader who takes this linguistic journey with him will be disappointed

Consuming Life Zygmunt Bauman,2013-05-08 With the advent of liquid modernity the society of producers is transformed into a society of consumers In this new consumer society individuals become simultaneously the promoters of commodities and the commodities they promote They are at one and the same time the merchandise and the marketer the goods and the travelling salespeople They all inhabit the same social space that is customarily described by the term the market The test they need to pass in order to acquire the social prizes they covet requires them to recast themselves as products capable of drawing attention to themselves This subtle and pervasive transformation of consumers into commodities is the most important feature of the society of consumers It is the hidden truth the deepest and most closely guarded secret of the consumer society in which we now live In this new book Zygmunt Bauman examines the impact of consumerist attitudes and patterns of conduct on various apparently unconnected aspects of social life politics and democracy social divisions and stratification communities and partnerships identity building the production and use of knowledge and value preferences The invasion and colonization of the web of human relations by the worldviews and behavioural patterns inspired and shaped by commodity markets and the sources of resentment dissent and occasional resistance to the occupying forces are the central themes of this brilliant new book by one of the worlds most original and insightful social thinkers
