above all the invention of printing and cheap paper provided essential conditions for the Renaissance And it was in literature and scholarship that it began in the rebirth of classical culture that loosened the Church s iron grip on visual art Paul Johnson tells the story in turn of Renaissance literature sculpture building and painting Despite the critical importance of inventions outside Italy printing in Germany and oil painting in Holland he locates the Renaissance firmly in Italy and in Florence above all between 1400 and 1560 There are memorable sketches of the key figures the frugal and shockingly original Donatello the awesome Michelangelo the delicacy of Giovanni Bellini The final part of the book charts the spread and decline of the Renaissance as the Catholic Church repositioned itself to counter the Reformation which the Renaissance had itself helped to produce
