**Dickinson** Emily Dickinson, Helen Vendler, 2010-09-07 Seamus Heaney Denis Donoghue William Pritchard Marilyn Butler Harold Bloom and many others have praised Helen Vendler as one of the most attentive readers of poetry Here Vendler turns her illuminating skills as a critic to 150 selected poems of Emily Dickinson As she did in *The Art of Shakespeare's Sonnets* she serves as an incomparable guide considering both stylistic and imaginative features of the poems In selecting these poems for commentary Vendler chooses to exhibit many aspects of Dickinson's work as a poet from her first person poems to the poems of grand abstraction from her ecstatic verses to her unparalleled depictions of emotional numbness from her comic anecdotes to her painful poems of aftermath Included here are many expected favorites as well as more complex and less often anthologized poems Taken together Vendler's selection reveals Emily Dickinson's development as a poet her astonishing range and her revelation of what Wordsworth called the history and science of feeling In accompanying commentaries Vendler offers a deeper acquaintance with Dickinson the writer the inventive conceiver and linguistic shaper of her perennial themes All of Dickinson's preoccupations death religion love the natural world the nature of thought are explored here in detail but Vendler always takes care to emphasize the poet's startling imagination and the ingenuity of her linguistic invention Whether exploring less familiar poems or favorites we thought we knew Vendler reveals Dickinson as a master of a revolutionary verse language of immediacy and power *Dickinson Selected Poems and Commentaries* will be an indispensable reference work for students of Dickinson and readers of lyric poetry

immediacy and power Dickinson Selected Poems and Commentaries will be an indispensable reference work for students of Dickinson and readers of lyric poetry **Poems, Poets, Poetry** A Kingsley Porter University Professor Helen Vendler, Helen Vendler, 2013-12-01 Poets Thinking Helen Vendler, 2009-06-30 Poetry has often been considered an irrational genre more expressive than logical more meditative than given to coherent argument And yet in each of the four very different poets she considers here Helen Vendler reveals a style of thinking in operation although they may prefer different means she argues all poets of any value are thinkers The four poets taken up in this volume Alexander Pope Walt Whitman Emily Dickinson and William Butler Yeats come from three centuries and three nations and their styles of thinking are characteristically idiosyncratic Vendler shows us Pope performing as a satiric miniaturizer remaking in verse the form of the essay Whitman writing as a poet of repetitive insistence for whom thinking must be followed by rethinking Dickinson experimenting with plot to characterize life's unfolding and Yeats thinking in images using montage in lieu of argument With customary lucidity and spirit Vendler traces through these poets lines to find evidence of thought in lyric the silent stylistic measures representing changes of mind the condensed power of poetic thinking Her work argues against the reduction of poetry to its frequently well worn themes and demonstrates instead that there is always in admirable poetry a strenuous process of thinking evident in an evolving style however ancient the theme that is powerful and original Last Looks, Last Books Helen Vendler, 2010-03-01 Modern American poets writing in the face of death In Last Looks Last Books the eminent critic Helen Vendler examines the ways in which five great modern American poets writing their final books try to find a style that does justice to life and death alike With traditional religious consolations no longer available to them these poets must invent new ways to express the crisis of death as well as the paradoxical coexistence of a declining body and an undiminished consciousness In The Rock Wallace Stevens writes simultaneous narratives of winter and spring in Ariel Sylvia Plath sustains melodrama in cool formality and in Day by Day Robert Lowell subtracts from plenitude In Geography III Elizabeth Bishop is both caught and freed while James Merrill in A Scattering of Salts creates a series of self portraits as he dies representing himself by such things as a Christmas tree human tissue on a laboratory slide and the evening morning star The solution for one poet will not serve for another each must invent a bridge from an old style to a new one Casting a last look at life as they contemplate death these modern writers enrich the resources of lyric poetry The Ocean, the Bird, and the Scholar Helen Vendler, 2015-05-11 A Times Higher Education Book of the Week One of our foremost commentators on poetry examines the work of a broad range of nineteenth and twentieth century English Irish and American poets The Ocean the Bird and the Scholar gathers two decades worth of Helen Vendler's essays book reviews and occasional prose including the 2004 Jefferson Lecture in a single volume It's one of Vendler's finest books an impressive summation of a long distinguished career in which she revisits many of the poets she has venerated over a lifetime and written about previously Reading it one can feel her happiness in doing what she loves best There is scarcely a page in the book where there isn't a fresh insight about a poet or

poetry Charles Simic New York Review of Books Vendler has done perhaps more than any other living critic to shape I might almost say create our understanding of poetry in English Joel Brouwer New York Times Book Review Poems are artifacts and Vendler shows us often thrillingly how those poems she considers the best specimens are made A reader feels that she has thoroughly absorbed her subjects and conveys her understanding with candor clarity wit John Greening Times Literary Supplement *Wallace Stevens* Helen Vendler,1986 In this graceful book Helen Vendler brings her remarkable skills to bear on a number of Stevens short poems She shows us that this most intellectual of poets is in fact the most personal of poets that his words are not devoted to epistemological questions alone but are also words chosen out of desire *Coming of Age as a Poet* Helen Vendler,2003 With characteristic precision authority and grace Vendler helps readers to appreciate the conception and practice of poetry as she explores four poets and their first perfect works 4 halftones Part of Nature, Part of Us Helen Vendler,1980 A collection of book reviews and essays on more than forty modern American poets **Our Secret Discipline** Helen Vendler,2007-11-29 The fundamental difference between rhetoric and poetry according to Yeats is that rhetoric is the expression of ones quarrels with others while poetry is the expression of ones quarrel with oneself Through exquisite attention to outer and inner forms Vendler explores the most inventive reaches of the poets mind

**Invisible Listeners** Helen Vendler,2009-02-09 When a poet addresses a living person whether friend or enemy lover or sister we recognize the expression of intimacy But what impels poets to leap across time and space to speak to invisible listeners seeking an ideal intimacy George Herbert with God Walt Whitman with a reader in the future John Ashbery with the Renaissance painter Francesco Parmigianino In *Invisible Listeners* Helen Vendler argues that such poets must invent the language that will enact on the page an intimacy they lack in life Through brilliantly insightful and gracefully written readings of these three great poets over three different centuries Vendler maps out their relationships with their chosen listeners For his part Herbert revises the usual vertical address to God in favor of a horizontal one addressing God as a friend Whitman hovers in a sometimes erotic sometimes quasi religious language in conceiving the democratic camerado who will following Whitman s example find his true self And yet the camerado will be replaced in Whitman s verse by the ultimate invisible listener Death Ashbery seeking a fellow artist who believes that art always distorts what it represents finds he must travel to the remote past In tones both tender and skeptical he addresses Parmigianino whose extraordinary self portrait in a convex mirror furnishes the poet with both a theory and a precedent for his own inventions By creating the forms and speech of ideal intimacy these poets set forth the possibility of a more complete and satisfactory human interchange an ethics of relation that is uncoerced understanding and free *The Breaking of Style* Helen Vendler,1995 Vendler s masterful study of changes in style yields a new view of the interplay of moral emotional and intellectual forces in a poet s work Throughout Vendler reminds us that what distinguishes successful poetry is a mastery of language at all levels including the rhythmic the grammatical and the graphic **The Poetry of George Herbert** A Kingsley Porter University Professor Helen

**The Music of Emily Dickinson's Poems and Letters** Carolyn Lindley Cooley, 2003-03-05 Music is a vital element in the poems and prose of Emily Dickinson but despite its importance the function of music as a literary technique in her work has not yet been fully explored what information exists is scarce and scattered The significance of the musical terminology and imagery in Dickinson's poetry and prose are thoroughly explored in this book It considers the music of Dickinson's life and times and how it influenced her writing how she combined music and poetry to create her own style several important nineteenth century reviews for what they reveal about the musical quality of her work and her use of Protestant hymns as a model for her poetry It also provides insights into musical interpretations of her poetry as related to the author by some fifty modern day composers and arrangers and discusses musical reflections of her poems and letters

Soul Says Helen Vendler, 1995 This work comprises essays on American British and Irish poetry showing contemporary life and culture captured in lyric form It explains the power of poetry as the voice of the soul rather than the socially marked self speaking directly through the stylization of verse

The Given and the Made Helen Hennessy Vendler, 1995 Philosophy economics and decision theory have long been dominated by the idea that rational choice consists of seeking or achieving one's own greatest good Beyond Optimizing argues that our ordinary understanding of practical reason is more complex than this and also that optimizing maximizing views are inadequately supported by the considerations typically offered in their favor Michael Slote challenges the long dominant conception of individual rationality which has to a large extent shaped the very way we think about the essential problems and nature of rationality morality and

the relations between them He contests the accepted view by appealing to a set of real life examples claiming that our intuitive reaction to these examples illustrates a significant and prevalent if not always dominant way of thinking Slote argues that common sense recognizes that one can reach a point where enough is enough be satisfied with what one has and hence rationally decline an optimizing alternative He suggests that in the light of common sense optimizing behavior is often irrational Thus Slote is not merely describing an alternative mode of rationality he is offering a rival theory And the numerous parallels he points out between this common sense theory of rationality and common sense morality are then shown to have important implications for the long standing disagreement between commonsense morality and utilitarian consequentialism Beyond Optimizing is notable for its use of a much richer vocabulary of criticism than optimizing maximizing models ever call upon And it further argues that recent empirical investigations of the development of altruism and moral motivation need to be followed up by psychological studies of how moderation and individual rationality more generally take shape within developing individuals
