Justice in Arms brings to life a fascinating and important element of Australia's legal history — the role of Army legal officers in Australia and in expeditionary operations from the Boer War until 2000. This is a comprehensive and absorbing history which describes the dynamic interaction of institutional and political imperatives and the personalities who managed this interaction over the decades. It is populated by colourful characters and legal luminaries and demonstrates that military justice is rightly concerned with discipline and cohesiveness. Reflecting broader societal norms, it is also concerned with the rule of law and respect for the rights, liberties and fair treatment of those who serve in the armed forces. Justice in Arms describes the extraordinary contribution of Army legal officers to both the profession of arms and the development of the law, charting the evolving personal and structural relationships between Army legal officers and command dictated by the changing legal needs of the Army and the broader Australian Defence Force. Today Army legal officers apply, adapt and shape the law to meet evolving needs in peacetime and during armed conflict and peace operations, ensuring the legitimacy of military action and the maintenance of domestic and international support for national objectives. Reproduction of the original: The Works of John Dryden by Walter Scott The research reported here established the foundation for a unit-focused evaluation of the new Infantry Advanced Leaders Course (ALC, formerly known as the Basic Noncommissioned Officer Course), with the emphasis on transfer of training. The work produced an Evaluation Design Plan, a Data Collection and Management Plan, measures of ALC impact, the architecture for data collection instruments, and a Data Collector's Guide. This document describes and characterizes each product, and presents intermediate products involved in developing the impact measures. It also summarizes design options considered and rejected, and delineates assumptions behind the data collection strategy. The primary products are included in appendixes. The research paves the way for a comprehensive evaluation of Infantry ALC's operational impact. Reprint of the original, first published in 1884. This book is a powerful resource explaining what the Army Learning Concept is and how to use the Army Learning Model (ALM) to its full potential to maximize student-centered learning and long-term retention. The Army Learning Model is broken down into its four main aspects of motivation, interaction, critical thinking, and experiential learning. Each one of these areas is thoroughly analyzed with detailed information on how ALM uses these areas to achieve highly effective learning outcomes and memorable learning experiences. A wide range of important educational items is covered, from effective instructional methodologies, increasing motivation, using new technologies such as virtual reality, to how to reach millennials, adult learners, and everything in between. Additionally, multiple links to online tools and resources are provided covering the newest educational technologies, learning science, and techniques to keep you up to date and ready. This is a must-have for anyone who wants to master the Army Learning Model. Providing clear explanations, specific examples, and implementation guides, Brent Anders (Ph.D. and Sergeant Major in the U.S. Army National Guard), articulately describes what the Army Learning Concept and the Army Learning Model is all about. His easy to understand writing style, logical breakdown of concepts, and helpful use of infographics and other images make this information come to life. By presenting both learning science data (over 200 academic and military citations) along with his expert experience as a certified military instructor and an academic in higher education (over 25 years in the military and in academia), Brent Anders is able to make the Army Learning Model a valuable usable tool for anyone involved in education (military, academia, or business). Over 100 plays, each of which has an Innopac Index record, by English authors. Most plays has a special t.p. and engraved general t.p. representing a scene from the play and a frontispiece showing an actor in a leading role. Each play was originally published separately with imprints from 1791 to 1796. Most plays have information about the author, criticism of the play and a list of the actors.
