John Crowley's masterful *Little, Big* is the epic story of Smoky Barnable, an anonymous young man who travels by foot from the City to a place called Edgewood—not found on any map—to marry Daily Alice Drinkawater, as was prophesied. It is the story of four generations of a singular family, living in a house that is many houses on the magical border of an otherworld. It is a story of fantastic love and heartrending loss; of impossible things and unshakable destinies; and of the great Tale that envelops us all. It is a wonder. The best stories from a master of speculative fiction Called "one of our brightest cultural commentators" by Publishers Weekly, Kit Reed draws from life—with a difference. This new collection brings together thirty-four of her strong, original stories, from early classics like "The Wait" and "Winter" to six never-before-collected short stories, including "The Legend of Troop 13" and "Wherein We Enter the Museum." An early favorite, "Automatic Tiger," is the first in a series of Reed's stories about animals. There's a monkey who grinds out bestsellers with the help of a "creative writing" app. Her uncanny black dog can enter a crowded room and sit down at the feet of the next man to die. Her characters confront war in various arenas: mother/daughter battles, the war of the sexes, the struggles of men scarred by war. Kit Reed's self-described "transgendered" fiction is confirmation of an "extraordinary talent" (The Financial Times). The range and complexity of her work speaks for itself in *The Story Until Now*. Get ready for blast-off with this fast-paced poem that's all about space travel. A touching picture book about an older sister's unconditional love for her new baby brother Matisse is a little girl in a big world. Despite her size, she gets to have all sorts of grand adventures, like seeing the big sights of the city, making big messes, and taking big naps when her little body is all tuckered out. But when Matisse meets her baby brother, she realizes that she isn't so little after all- She's a big sister! And it's great fun to show this new little person what wonders this big world has in store. With warmth and joy, Claire Keane showcases a gorgeous retro-inspired style to tell this tender tale of unconditional sibling love. From top CNN anchor and special correspondent Soledad O'Brien comes a highly personal look at her biggest reporting moments from Hurricane Katrina, the tsunami in Southeast Asia, the devastating Haiti earthquake, and to the historic 2008 U.S. elections and high profile interviews with everyday Americans. Drawing on her own unique background as well as her experiences at the front lines of the most provocative issues in today's society, and from her work on the acclaimed documentaries *Black in America* and *Latino in America*, O'Brien offers her candid, clear-eyed take on where we are as a country and where we're going. What emerges is both an inspiring message of

hope and a glimpse into the heart and soul of one of America's most straight-talking reporters. Have you ever had a dream? How did you make that dream come true? Dave McGillivray is a world-renowned athlete, entrepreneur, captivating motivational speaker, and philanthropist. He's also the director of the Boston Marathon, the world's oldest and maybe most famous annual race! But he wasn't always so accomplished. In *Dream Big: A True Story of Courage and Determination*, his nonfiction picture book for readers ages 6 to 10, Dave shares his unique, true story about reaching deep and showing extreme determination in the face of doubt, disappointment, and loss. In *Dream Big: A True Story of Courage and Determination*, Dave is a small kid who wants more than anything to be a professional athlete. But there's one problem. You have to be tall to play basketball. You have to be big to play football. And Dave? He's little, but his dreams are BIG. He turns to running, because you don't have to be big to be a marathon runner! But you do need to train. And Dave doesn't do much training before he crosses his first starting line of the Boston Marathon. Which is probably why he doesn't quite cross the finish line on his first attempt at the famous race. But his Grandpa believes in him, and that's enough to make Dave train hard for the next Boston Marathon. But will his Grandpa be there to see him succeed? Kids and grownups alike will be inspired by Dave's story of passion, determination, and grit. Nomad Press's first foray into the genre of nonfiction picture books, *Dream Big* delivers on all the promise you'd expect from a vibrant, real-life character paired with an award-winning fine artist. Together, Dave McGillivray and Ron Himler create a story that is heartwarming, inspiring, and beautifully presented. Text and photographs depict the life of an eight-year-old dwarf who lives in an average-sized family and attends a regular school. This incredible board book is filled with your favourite Richard Scarry characters from Busytown. You will love Richard Scarry's adorable and imaginative artwork that has made him a favourite with children all over the world. Let boys cry! This picture book imagines a world in which boys are encouraged to express their full range of emotions. It's Levi's first day at a new school, and he's scared. His father tries to comfort Levi by telling him "Big boys don't cry." Though the father immediately understands his misstep, he can't find the words to comfort his son, and Levi leaves for school, still in need of reassurance. Fortunately, along his walk to school, Levi sees instance after instance of grown men openly expressing their sadness and fear. His learned mantra, "Big boys don't cry," slowly weakens, and by the time he's at school he releases a tear. Once he's there, things aren't so bad after all, and on his walk home he sees everyone he's encountered earlier, feeling better now that they expressed their emotions. Upon his arrival home, he finds his father waiting for him on their porch, tears in his eyes. His father is able to admit that he was scared and the two embrace, closer than before. Jonty Howley's gorgeous debut paints the world we wish existed for our boys, and offers a path there! This story is the truest interpretation of the notion that we should "let boys be boys": let them express the full range of their emotions, vulnerable parts and all! Nature never intended Southern California to be anything but desert, so they said. But settlers turned it into farms, factories and living areas for millions of people. The key to that development was 300 miles north, in the High Sierra, where the company that became the Southern California Edison Company undertook the creation of one of the great water power developments in the world. They called it Big Creek. Completed in 1929, this work of engineering art involved six dams, eight tunnels (one 13 miles long), three major artificial lakes and five powerhouses—all created to ensure electric power for a rapidly growing Los Angeles and suburbs. Author David H. Redinger was Resident Engineer for the Big Creek Hydroelectric Project, one of the most extensive in the world. In this fascinating book, he recounts the obstacles encountered in building a railroad in the High Sierra, from carving roads and tunnels through rough terrain, to enduring snowstorms at high altitudes, and generally accomplishing near-miracles with brainpower, mulepower, steampower, and manpower. Bear thinks that he is the coolest guy in the forest. He loves to strut his stuff, he loves to do whatever he wants and he never worries about a thing! One day, Bear is strutting his stuff as usual in the forest, not minding where he is going, when he runs into Moose. Moose tries to help him realise that he should take care and mind others and where he is going, but he doesn't care - he does whatever he wants! Will Bear listen or is he about to learn the hard way? *A Summer To Remember* Fourteen-year-old

Clay Lancaster has been dreaming for years of the adventure he calls *The Big Wander* -- a summer in the Southwest with his older brother, Mike, searching for their uncle Clay. When Mike decides to return home to Seattle and the girlfriend he left behind, Clay chooses to stay on and continue the search on his own. Following a tip about his uncle, he heads out into the most remote canyons of the Navajo reservation, with only a burro and a dog named Curly for company. Clay loses his heart to the vast, rugged land -- and to an adventurous girl with a long, dark braid -- but finds his uncle in big trouble. Can Clay pull off a risky plan to save his uncle -- and the wild horses Uncle Clay has put his own life in jeopardy to protect? What has a bluish-greenish nose, sharp white teeth and big yellow eyes? It is the Big Green Monster, in this book children can change the features of the monster, it is designed to help dispel their fears of night-time monsters. A boy walks through a forest full of snakes and wolves and bears, but this boy isn't afraid because he knows they'll stay out of his way. The scary monster in this forest won't stay out of his way, though. He pops out at the boy and growls! But the brave boy just keeps walking along because he doesn't believe in monsters. This sets the monster to begging and begging for the boy to believe in him, even just a smidge. Will the boy ever agree? This unusual monster story, with thrills and fangs and growls, shows that a little confidence and a lot of courage can shrink fears to a size that might even be a little cuddly. Size is relative, but everything is worth seeing in this concept book from the illustrator of *And Tango Makes Three*—now available as a Classic Board Book. Beginning with a beautiful close-up of a “big” ladybug, this adorable board book artfully depicts the concept of scale as it zooms out from the bug, to a flower, to a cow, all the way to an expansive spread of sky. Then author Henry Cole masterfully zooms back in from that sky, to a tree, to a house, to a window, all the way to the end where an adorable dog is taking a “little” nap. Young readers will love the lush illustrations of the animals, objects, and scenery of a farm, and they’ll delight in seeing how something “big” can suddenly seem “little” with every turn of a page! Barkley the Bear is now ready to continue his family's business, which involves taking care of everyone in the forest. What a job! Barkley worries that he will not be able to provide the care necessary for everyone, but he soon finds out how easy it is to help others, and how much you can get in return. New York Times best-selling author Nick Ortner, along with Alison Taylor, take you on a memorable journey of what's most important in life: Kindness, hugs, and a little bit of work. When Jim Wahlberg went to prison the second time at 22 years old, he was sentenced to six to nine years for breaking and entering, bargained down from life for home invasion. He had staggered into a Boston cop's apartment, helping himself to the sellable stuff and all the beer in the fridge. The cop came home, found Jim passed out at the kitchen table, beat the hell out of him, and arrested him. But Wahlberg, a 130-pound kid from Dorchester, had learned some things from his life on the street and his first prison sentence. He knew how to survive. And he knew that if he wanted to avoid serving the full sentence, he would have to do something. He did what he was best at: He hustled. He would create the illusion that he was trying to change, that he'd become the model prisoner, not a guy hell-bent on getting out while he was still young enough to drink more, steal more, and do more drugs. He didn't know, though, that the Catholic priest he was trying to hustle was actually hustling him. *The Big Hustle* is the story of a redeemed life and a family's healing. This is the no-holds-barred, unvarnished, and sometimes brutal true story of Jim Wahlberg, the fifth of nine kids growing up in a working-class Irish Catholic neighborhood outside of Boston, hustling for attention any way he could get it, which led him to the biggest hustle of his life. Against all odds he got clean, he got out, and he got the girl. Jim dedicated his new life as a former addict to working with addicts, and for years has spread the word that recovery is possible. But nothing could have prepared him for what came next. His discovery that his own son was an addict threw Jim into a crisis—one that led him deeper into his faith and led to healing he never thought possible. This book is a testament to God's power and an invitation to all of us to hope in the darkest places. About the Author Jim is the fifth oldest Wahlberg. Like his brothers Donny and Mark, Jim recovered from his tough upbringing in the streets of Dorchester to become producer, writer, and director of films, including *The Circle of Addiction*, *What About the Kids?*, and *The Lookalike*. Jim is the executive director of the Mark Wahlberg Youth Foundation, created to improve the quality of life for inner city youth through a

working partnership with other youth organizations. Jim and his wife live in South Florida and have three children. The New York Times Best Seller. Part biography, part critical appreciation, part love letter, and all fun, this enormous full-color volume, packed with color film stills and behind-the-scenes photography, chronicles every Murray performance in loving detail, recounting all the milestones, legendary "Murray stories," and controversies in the life of this enigmatic performer. He's played a deranged groundskeeper, a bellowing lounge singer, a paranormal exterminator, and a grouchy weatherman. He is William James "Bill" Murray, America's greatest national treasure. From his childhood lugging golf bags at a country club to his first taste of success on Saturday Night Live, from his starring roles in Hollywood blockbusters to his reinvention as a hipster icon for the twenty-first century, *The Big Bad Book of Bill Murray* chronicles every aspect of his extraordinary life and career. He's the sort of actor who can do Hamlet and Charlie's Angels in the same year. He shuns managers and agents, and he once agreed to voice the lead in *Garfield* because he mistakenly believed it was a Coen Brothers film. He's famous for crashing house parties all over New York City—and if he keeps photobombing random strangers, he might just break the Internet. For Shared Reading and Writing. Rather, it is a wide-ranging narrative about the movies and their signal role in modern life. At first, film was a waking dream, the gift of appearance delivered for a nickel to huddled masses sitting in the dark. But soon, and abruptly, movies began transforming our societies and our perceptions of the world. The celebrated film authority David Thomson takes us around the globe, through time, and across many media—moving from Eadweard Muybridge to Steve Jobs, from Sunrise to *I Love Lucy*, from John Wayne to George Clooney, from television commercials to streaming video—to tell the complex, gripping, paradoxical story of the movies. He tracks the ways we were initially enchanted by movies as imitations of life—the stories, the stars, the look—and how we allowed them to show us how to live. At the same time, movies, offering a seductive escape from everyday reality and its responsibilities, have made it possible for us to evade life altogether. The entranced audience has become a model for powerless and anxiety-ridden citizens trying to pursue happiness and dodge terror by sitting quietly in a dark room. Does the big screen take us out into the world, or merely mesmerize us? That is Thomson's question in this grand adventure of a book. Books about the movies are often aimed at film buffs, but this passionate and provocative feat of storytelling is vital to anyone trying to make sense of the age of screens—the age that, more than ever, we are living in. Lizzie meets an elderly man and his companion Cecile at the park, but Lizzie's afraid of dogs, so she relies on her new friend to help her take things one step at a time. For one energetic three-year-old, there are countless reasons to love his new big boy bed. There's room now for Teddy to sleep with him, and his painted clay lizard, and Hippo. He can go under the bed and pretend to be a dog and scare his cat, Whiskers. Best of all, he can get out of his bed any time he wants—as long as his parents don't hear him! Written with warmth and humor, this story captures the feelings surrounding a rite of passage that every child experiences. Eve Bunting's simple, reassuring text and Maggie Smith's bright, lively illustrations are just right for beginning readers and listeners. Introduce early learners to the Bible with the *Big Book of Bible Stories for Toddlers* from the Big Picture Interactive, featuring stories from the Old and New Testaments in this fun, interactive, and engaging new Bible storybook designed especially for toddlers. An Eclectic Collection of Fiction That Inspired Film Memento, *All About Eve*, *Rear Window*, *Rashomon*, and *2001: A Space Odyssey* are all well-known and much-loved movies, but what is perhaps a lesser-known fact is that all of them began their lives as short stories. *Adaptations* gathers together 35 pieces that have been the basis for films, many from giants of American literature (Hemingway, Fitzgerald) and many that have not been in print for decades (the stories that inspired *Bringing Up*

Baby, Meet John Doe, and All About Eve). Categorized by genre, and featuring movies by master directors such as Steven Spielberg, Stanley Kubrick, Robert Altman, Frank Capra, and John Ford, as well as relative newcomers such as Chris Eyre and Christopher Nolan, Adaptations offers insight into the process of turning a short story into a screenplay, one that, when successful, doesn't take drastic liberties with the text upon which it is based, but doesn't mirror its source material too closely either. The stories and movies featured in Adaptations include: •Philip K. Dick's "The Minority Report," which became the 2002 blockbuster directed by Steven Spielberg and starring Tom Cruise •"The Harvey Pekar Name Story" by reclusive graphic artist Harvey Pekar, whose life was the inspiration for American Splendor, winner of the 2003 Sundance Grand Jury Prize •Hagar Wilde's "Bringing Up Baby," the basis of the classic film Bringing Up Baby, anthologized here for the first time ever •"The Swimmer" by John Cheever, an example of a highly regarded story that many feared might prove unadaptable •The predecessor to the beloved holiday classic A Christmas Story, "Red Ryder Nails the Hammond Kid" by Jean Shepherd Whether you're a fiction reader or a film buff, Adaptations is your behind-the-scenes look at the sometimes difficult, sometimes brilliantly successful process from the printed page to the big screen. From the Trade Paperback edition. A Walk in the Forest introduced the enormously talented Maria Dek, and When I Am Big is a beguiling follow up to her first success. Charming illustrations and text encourage young children to explore what they can do as they grow up. The adventurous child imagines "I will tie my shoes all by myself, make 3 knots with big bows"; to eat twenty pizzas in one sitting, or walk animals, eight at a time, while teaching them tricks. When I Am Big is also an unconventional counting book, as it goes all the way to twenty-five. The result is a book that nourishes a child's curiosity, confidence, and delight in the world's wonders. In her first illustrated book for children, the Pulitzer Prize-winning author Toni Morrison introduces three feisty children who show grown-ups what it really means to be a kid. From the Big Bang to the future of our planet, The Little Book of Big History divides history into manageable but comprehensive time frames, encompassing the cosmos, the stars, life and everything in between. Big History is the attempt to understand and condense the entire story of the cosmos, from the Big Bang to the current day. Combining methods from history, astronomy, physics and biology to draw together the big story arcs of how the universe was created, why planets formed and how life developed, this creates a unique perspective from which to understand the place of mankind in the universe. Excited by the alternative 'framework for all knowledge' that is offered by this approach, Bill Gates is funding the Big History Project, which aims to bring the subject to a wider audience around the world. The Little Book of Big History breaks down the main themes of Big History into highly informative and accessible parts for all readers to enjoy. By giving a truly complete timeline of world events, this book shines a whole different light on history as we learned it and makes us think of our history - and our future - in a very different way. As far as he can tell, Bear is the biggest thing around. He might even be a giant! It's not long before other, smaller animals set him straight in this charmingly illustrated book about counting and relative size. Together, two walruses, three foxes, and so on, are the same size as Bear, each teasing him for foolishly thinking that there is nothing bigger than he. When six sardines arrive to tell Bear that together, they are just as big as he is, Bear has had enough and gobbles them up for breakfast. In this eye-opening exposé, acclaimed health journalist and National Geographic contributor Maryn McKenna documents how antibiotics transformed chicken from local delicacy to industrial commodity—and human health threat—uncovering the ways we can make America's favorite meat safer again. What you eat matters—for your health, for the environment, and for future generations. In this riveting investigative narrative, McKenna dives deep into the world of modern agriculture by way of chicken: from the farm where it's raised directly to your dinner table. Consumed more than any other meat in the United States, chicken is emblematic of today's mass food-processing practices and their profound influence on our lives and health. Tracing its meteoric rise from scarce treat to ubiquitous global commodity, McKenna reveals the astounding role of antibiotics in industrial farming, documenting how and why "wonder drugs" revolutionized the way the world eats—and not necessarily for the better. Rich with scientific, historical, and cultural insights, this spellbinding

cautionary tale shines a light on one of America's favorite foods—and shows us the way to safer, healthier eating for ourselves and our children. In August 2019 this book will be published in paperback with the title *Plucked: Chicken, Antibiotics, and How Big Business Changed the Way the World Eats*. A twist on the classic parental struggle of not letting kids sleep in their bed. This *New York Times* bestseller “elegantly weaves evidence and insights . . . into a single, accessible historical narrative” (Bill Gates) and presents a captivating history of the universe -- from the Big Bang to dinosaurs to mass globalization and beyond. Most historians study the smallest slivers of time, emphasizing specific dates, individuals, and documents. But what would it look like to study the whole of history, from the big bang through the present day -- and even into the remote future? How would looking at the full span of time change the way we perceive the universe, the earth, and our very existence? These were the questions David Christian set out to answer when he created the field of “*Big History*,” the most exciting new approach to understanding where we have been, where we are, and where we are going. In *Origin Story*, Christian takes readers on a wild ride through the entire 13.8 billion years we've come to know as “*history*.” By focusing on defining events (thresholds), major trends, and profound questions about our origins, Christian exposes the hidden threads that tie everything together -- from the creation of the planet to the advent of agriculture, nuclear war, and beyond. With stunning insights into the origin of the universe, the beginning of life, the emergence of humans, and what the future might bring, *Origin Story* boldly reframes our place in the cosmos.
