

REFLECTIVE JOURNAL

The main aim of this journal is to keep a record of my thoughts, notes, reflections and questions about this subject, and some implementation activities related to this subject that I have carried out in my classes. All the information we can find in this journal is connected, however I have decided to classify them by topics.

If we focus on parents' perspective, assessment is something good because it facilitates them the fact of knowing that their children are working at school and if they are truly learning or not. Now, I will focus on teachers' perspective. For teachers assessment is something great because it gives information about students and their progress in the learning process, about our own job (because we are assessed by others teachers of self-assessment) and information about the quality of the tools we use in our classes.

❖ **Formative & Summative Assessment:**

I would like to mention that, before studying this unit it was difficult for me to understand the difference between formative and summative assessment. However, now, I am able to distinguish them and that's why I would like to refers on these terms in the following lines. After each explanation, I will give you some examples of how I use each of the assessments with my students.

- **Formative assessment** provides explicit feedback to both, teacher and students, in order to improve the teaching-learning process, it means, the

You'll Never Find Us Jeanne Baker Guy, 2021-08-15 In 1977 Jeanne's German nationalist ex-husband Klaus tells her he's gotten a new job and wants to take their three-year-old daughter and six-year-old son away for a long weekend to celebrate. Jeanne relents. But Klaus never returns and instead sends Jeanne a letter delivered by a mutual friend in which he declares that he has fled to Germany and she will never see him or her children again. The next four months are filled with agony, despair, and anger as Jeanne seeks legal support but quickly learns that federal parental kidnapping laws will offer her little help. She reflects on her tumultuous ten-year marriage to Klaus and the unsettling events that followed their divorce. A product of the patriarchal culture of the 1950s, Jeanne's nice-girl mentality is being tested and reshaped by the feminist movement of the 1970s, and she finds that the kidnapping ultimately becomes a doorway to unexpected strength. *You'll Never Find Us* is the story of a young mother coming into her own power regardless of past mistakes, bad judgment, and fears—the story of a woman who realizes she must tap into her newfound resilience and courage to find her stolen children and steal them back.

Journal Keeping Dannelle D. Stevens, Joanne E. Cooper, 2023 By the authors of the acclaimed *Introduction to Rubrics*, Major growth of interest in keeping journals or diaries for personal reflection and growth and as a teaching tool will appeal to college faculty, administrators, and teachers. One of the most powerful ways to learn, reflect, and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development, particularly for those in academic life, and demonstrates journals' potential to foster college students' learning fluency and voice and creative thinking. In professional life, a journal helps to organize, prioritize, and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking, track changes, and review observations and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.
