Something Coming Through Paul McAuley, 2015-02-19 The aliens are here And they want to help The extraordinary new project from one of the country's most acclaimed and consistently brilliant SF novelists of the last 30 years The Jackaroo have given humanity fifteen worlds and the means to reach them They're a chance to start over but they're also littered with ruins and artifacts left by the Jackaroo's previous clients Miracles that could reverse the damage caused by war climate change and rising sea levels Nightmares that could forever alter humanity or even destroy it Chloe Millar works in London mapping changes caused by imported scraps of alien technology When she stumbles across a pair of orphaned kids possessed by an ancient ghost she must decide whether to help them or to hand them over to the authorities Authorities who believe that their visions point towards a new kind of danger And on one of the Jackaroo's gift worlds the murder of a man who has just arrived from Earth leads policeman Vic Gayle to a war between rival gangs over possession of a remote excavation site Something is coming through Something linked to the visions of Chloe's orphans and Vic Gayle's murder investigation Something that will challenge the limits of the Jackaroo's benevolence

The Quiet War Paul McAuley, 2009-12-04 Twenty third century Earth ravaged by climate change looks backwards to the holy ideal of a pre industrial Eden Political power has been grabbed by a few powerful families and their green saints Millions of people are imprisoned in teeming cities millions more labour on Pharaonic projects to rebuild ruined ecosystems On the moons of Jupiter and Saturn the Outers descendants of refugees from Earth's repressive regimes have constructed a wild variety of self sufficient cities and settlements scientific utopias crammed with exuberant creations of the genetic arts the last outposts of every kind of democratic tradition The fragile detente between the Outer cities and the dynasties of Earth is threatened by the ambitions of the rising generation of Outers who want to break free of their cosy inward looking pocket paradises colonise the rest of the Solar System and drive human evolution in a hundred new directions On Earth many demand pre-emptive action against the Outers before it's too late others want to exploit the talents of their scientists and gene wizards Amid campaigns for peace and reconciliation political machinations crude displays of military might and espionage by cunningly wrought agents the two branches of humanity edge towards war

Eternal Light Paul McAuley, 2010-12-30 In the aftermath of an interstellar war an enigmatic star is discovered travelling towards the Solar System from the galactic core Its appearance adds a new and dangerous factor in the turbulent politics of the inhabited worlds as the rival factions the power holders of the ReUnited Nations the rebels who secretly oppose their power and the Religious Witnesses all see advantages to be gained But what awesome technology started the star on its journey half a million years ago and why

Fairyland Paul McAuley, 2010-12-30 The 21st century Europe is divided between the First World bourgeoisie made rich by nanotechnology and the cheap versatile slave labour of genetically engineered Dolls and the Fourth World of refugees and homeless displaced by war and economic

upheaval In London Alex Sharkey is trying to make his mark as a designer of psychoactive viruses whilst staying one step ahead of the police and the Triad gangs At the cost of three hours of his life he finds an unlikely ally in a scary super smart little girl called Milena but his troubles really start when he helps Milena quicken intelligence in a Doll turning it into the first of the fairies Milena isn't sure if she's mad or if she's the only sane person left in the world she only knows that she wants to escape to her own private Fairyland and live forever Although Milena has created the fairies for her own ends some of the Folk as fey and dangerous as any in legend have other ideas about her destiny **Whole Wide World** Paul

Paul McAuley,2010-12-30 Florence in the year 1518 is riven by scientific and sociological change caused by the wonderful devices of the Great Engineer Leonardo da Vinci Now he is old and lives as a recluse working behind the walls of his castle The Raphaelites artists and anti-technologists led by Raphael of Urbino call for his excommunication Pasquale di Cione Fiesole an apprentice painter witnesses an assassination attempt on Raphael at a Cathedral service The weapon falls into his hands and he is soon on the run from engineers and artists desperate to prove his innocence *Into Everywhere* Paul McAuley,2016-04-21 The Jackaroo those enigmatic aliens who claim to have come to help gave humanity access to worlds littered with ruins and scraps of technology left by long dead client races But although people have found new uses for alien technology that technology may have found its own uses for people The dissolute scion of a powerful merchant family and a woman living in seclusion with only her dog and her demons for company have become infected by a copy of a powerful chunk of alien code Driven to discover what it wants from them they become caught up in a conflict between a policeman allied to the Jackaroo and the laminated brain of a scientific wizard and a mystery that spans light years and centuries Humanity is about to discover why the Jackaroo came to help us and how that help is shaping the end of human history

Billion Stars Paul McAuley,2010-12-30 Dorothy Yoshida is a telepath and a really rather good one at that She s also a scientist and when a small planet begins to manifest some unusual signs she is sent to investigate The planet is more than it seems and on further investigation the scientists begin to suspect it has been artificially altered But despite their suspicions the only life they can detect is on the surface none of which has advanced far above the level of animals And despite the hopes of mankind to find something which will help them in a burgeoning war against other species there seems to be nothing there to aid them With Dorothy s arrival however they are in for some surprising discoveries Gardens of the Sun Paul Mcauley,2010-06-30 The Quiet War is over The city states of the moons of Jupiter and Saturn founded by descendants of refugees from Earth s repressive regimes the Outers have fallen to the Three Powers Alliance of Greater Brazil the European Union and the Pacific Community A century of enlightenment rational utopianism and exploration of new ways of being human has fallen dark Outers are herded into prison camps and forced to collaborate in the systematic plundering of their great archives of scientific and technical knowledge while Earth s forces loot their cities and settlements and ships and plan a final solution to the Outer problem But Earth s victory is fragile and riven by vicious internal politics While seeking out and trying to anatomise the strange gardens abandoned in place by the Outers greatest genius Avernus the gene wizard Sri Hong Owen is embroiled in the plots and counterplots of the family that employs her The diplomat Loc Ifrahim soon discovers that profiting from victory isn t as easy as he thought And on Earth in Greater Brazil the democratic traditions preserved and elaborated by the Outers have infected a population eager to escape the tyranny of the great families who rule them Meanwhile in the outer reaches of the Solar System a rag taggle group of refugees struggle to preserve the last of the old ideals And on Triton fanatical members of a cabal prepare for a final battle that threatens to shatter the future of the human species After a conflict fought to contain the expansionist posthuman ambitions of the Outers the future is as uncertain as ever Only one thing is clear No one can escape the consequences of war especially the victors **War of the Maps** Paul McAuley,2020-03-19 The underrated McAuley is in top form in this hard science fiction novel with heart Washington Post Book World On a giant artificial world surrounding an artificial sun one man a lucidor a keeper of the peace a policeman is on the hunt His target was responsible for an atrocity but is too valuable to the government to be truly punished Instead he has been sent to the frontlines of the war to use his unique talents on the enemy So the lucidor has ignored orders deserted from his job left his home and thrown his life away in order to finally claim justice Separated by massive seas the various maps dotted on the surface of this world rarely contact each other But something has begun to infiltrate the edges of the lucidor s map something that genetically alters animals and plants and turns them into killers Only the lucidor knows the depths to which his quarry will sink in order to survive only the lucidor can capture him The way is long and dangerous The lucidor s government has set hunters after him He has no friends no resources no plan But he does have a mission Red Dust Paul J. McAuley,2009 An SF odyssey myth circumstance and a viral kiss alter the life path of Wei Lee from mortal man to a reluctant

deity the newly anointed saviour of the Red Planet The Invisible Country Paul J. McAuley, 1996 In these nine extraordinary tales acclaimed author Paul J McAuley illuminates the unseen and the unimaginable with brilliant prose and incandescent conceptual daring These stories explore the wonders and dangers of biotechnology and its and travel from a distant alternate past to a breathtaking far flung future in sixteenth century Venice transformed by a premature Industrial Revolution a physician mourning his daughter's passing meets a mountebank with the power to raise the dead In a tomorrow of raw and terrible beauty revolutionaries struggle to free genetically engineered creatures fated to die in combat games and violent sexual encounters And ten million years in the future on an artificial world orbiting an immense black hole a civilization of awesome strangeness and complexity created and abandoned by God like Preservers is about to meet the human ancestors of its makers Enter The Invisible Country and prepare to be dazzled *Child of the River* Paul J. McAuley, 1999 Found as a baby in a boat on the Great River and raised by an obscure bureaucrat Yama becomes a clerk in Confluence's vast civil service There he attracts the attention of schemers who have discovered that he is able to control the machines which maintain the fabric of the world In order to reconcile his human nature with his dangerous powers Yama must unravel the riddle of his birth Austral Paul McAuley, 2017-10-19 A prescient and chilling climate change thriller set on the harsh landscape of Antarctica from one of the best science fiction writers of the present day The great geoengineering projects have failed The world is still warming sea levels are still rising and the Antarctic Peninsula is home to Earth's newest nation with life quickened by ecopoets spreading across valleys and fjords exposed by the retreat of the ice Austral Morales Ferrado a child of the last generation of ecopoets is a husky an edited person adapted to the unforgiving climate of the far south feared and despised by most of its population She's been a convict a corrections officer in a labour camp and consort to a criminal and now out of desperation she has committed the kidnapping of the century But before she can collect the ransom and make a new life elsewhere she must find a place of safety amongst the peninsula's forests and icy plateaus and evade a criminal gang that has its own plans for the teenage girl she's taken hostage Blending the story of Austral's flight with the fractured history of her family and its role in the colonisation of Antarctica Austral is a vivid portrayal of a treacherous new world created by climate change and shaped by the betrayals and mistakes of the past Austral has been optioned for television by Circle of Confusion the company who brought The Walking Dead and Locke and Key to the small screen They've recruited award winning screenwriter Elise McCredie Stateless and director Erik Skjoldbjerg An Enemy of the People Insomnia to work on this exciting project Paul McAuley's balanced grasp of science and literature always a rare attribute in the writer of prose fiction is combined with the equally rare ability to look at today's problems and know which are really problems and what can be done about them William Gibson Readers are captivated by Austral Austral feels very timely as it confronts questions about borders climate change geoengineering biodiversity racism and xenophobia An excellent climate change novel Goodreads reviewer Devastating humane extraordinarily harsh and beautiful Goodreads

reviewer The world building is very nicely done with a strong sense of place and landscape And the tale is infused with thoughtful reflection on climate change wilding and genetic modifications Goodreads reviewer A gorgeous haunting novel brimming with fractal stories within stories about a fugitive on the run through the backcountry of the new nation established on a greening Antarctica Goodreads reviewer Genius I love the intersection of gene editing and anarchy Imagining a world drastically changed by global warming but still crumpling under the dire weight of capitalism Goodreads reviewer **Cowboy Angels** Paul McAuley,2011-01-05 The first Turing gate a mere hundred nanometers across is forced open in 1963 at the high energy physics laboratory in Brookhaven three years later the first man to travel to an alternate history takes his momentous step and an empire is born For fifteen years the version of America that calls itself the Real has used its Turing gate technology to infiltrate a wide variety of alternate Americas rebuilding those wrecked by nuclear war fomenting revolutions and waging war to free others from communist or fascist rule and establishing a Pan American Alliance Then a nation exhausted by endless strife elects Jimmy Carter on a reconstruction and reconciliation ticket the CIA s covert operations are wound down and the Real begins to wage peace rather than war But some people believe that it is the Real s manifest destiny to impose its idea of truth justice and the American way in every known alternate history and they re prepared to do anything to reverse Carter s peacenik doctrine When Adam Stone a former CIA field officer one of the Cowboy Angels who worked covertly in other histories volunteers for reactivation after an old friend begins a killing spree across alternate histories his mission uncovers a startling secret about the operation of the Turing gates and leads him into the heart of an audacious conspiracy to change the history of every America in the multiverse including our own This book is a vivid helter skelter thriller in which one version of America discovers the true cost of empire building and one man discovers that an individual really can make a difference From the Trade Paperback edition Secret Harmonies Paul McAuley,2022-06-09 The planet Elysium should be a paradise Like Earth before the Age of Waste it is both beautiful and bountiful inhabited by peaceful aboriginals and human colonists But in its chief city Port of Plenty the first colonists have kept the superior technology sent from Earth for themselves governing the outlying settlements with an iron fist As unrest grows two unlikely allies Richard Florey an employee of the city s university and Miguel Lucas a settler who has gone dingo are caught up in a revolution that could awaken the alien aboriginals and change the balance of power on Elysium forever **The New Space Opera 2** Gardner Dozois,Jonathan Strahan,2010-03-30 Some of the most beloved names in science fiction spin all new tales of interstellar adventure and wonder Neal Asher John Barnes Cory Doctorow John Kessel Jay Lake John Meaney Elizabeth Moon Garth Nix Mike Resnick Justina Robson Kristine Kathryn Rusch John Scalzi Bruce Sterling Peter Watts Sean Williams Tad Williams Bill Willingham Robert Charles Wilson John C Wright *The Mind's Eye* Paul Fleischman,2013-12-17 Eighty eight year old Elva and Courtney an attractive sixteen year old with a severed spinal cord lie in adjacent beds in a grim Bismarck North Dakota convalescent home Ignored by the world the only resource they have left is

their imagination As Elva and Courtney go on a fantasy trip to Italy accompanied by Elva's long dead husband and guided by a 1910 travel book Elva shows Courtney a new way to envision love But to accept it and the gift of the imagination Courtney must make the trip her own even if she destroys the art Elva holds most dear Written entirely in dialogue The Mind's Eye can be performed as reader's theater but it is a fully satisfying novel In this extraordinarily innovative profound and yet readable book Paul Fleischman makes us all feel what a powerful and dangerous tool the imagination can be
