The fourth Canadian edition of Children: A Chronological Approach is an effective textbook for college students studying child development in a course with a chronological framework. Its attractive, heavily illustrated, modular format helps students understand the evolution of child development research, theory, and applications, without overwhelming them. It provides students with a book written in an accessible, consistent style and at an appropriate level for new college students. A new "What would an educator/health professional/counsellor/parent do?" feature highlights the applied nature of the curriculum, enhancing student learning and engagement. For visual learners, the fourth Canadian edition also includes a new "Developmental Milestones" chart that maps physical, cognitive, and psychosocial developments at each stage of childhood, from the prenatal period to adolescence. Helping Students Build a Solid Financial Accounting Foundation This text is designed to provide students with the best tools and resources to

understand accounting. Financial Accounting introduces the financial statements and the conceptual framework that underlies them in Chapter 1, and builds on this foundation throughout the remaining 12 chapters. The concepts and procedures that form the accounting cycle are also described and illustrated early in the text (chapters 2 and 3) and are then applied consistently in the chapters that follow. By introducing financial accounting's most critical concepts and procedures early in the book and then repeatedly applying them in the context of new material in later chapters, students will finish the textbook with a sound grasp of introductory financial accounting principles.
