Wiggins,Pearson Education, Inc,2011 Prentice Hall Literature ,2007 **Teaching and Learning English Literature** Ellie Chambers,Marshall Gregory,2006-03-14 It is scarcely possible to imagine a truly educated person who cannot read well Yet it is not clear how or even if courses in literature actually work How can teachers of English help students in their developmental journey toward becoming skillful readers and educated persons This is the complex question that Chambers and Gregory address in Teaching and Learning English Literature The authors consider practical matters such as course design and student assessment but do not shirk larger historical and theoretical issues In a lucid and non polemical fashion and occasionally with welcome humor Chambers and Gregory describe the what why and how of doing literature often demonstrating the techniques they advocate Veteran teachers will find the book rejuvenating a stimulus to examining purposes and methods beginning teachers may well find it indispensable Professor William Monroe University of Houston The transatlantic cooperation of Ellie Chambers and Marshall Gregory has produced an outstanding book that ought to be on the shelves of anyone involved in the teaching of English Literature as well as anyone engaged in the scholarship of teaching and learning in general or in any discipline As they say the teaching of English Literature plays a central role in human beings search for meaning although others in other disciplines may make this claim for theirs too If so they will still learn a great deal from this book anyone looking for no more than a means of satisfying the demands of governments that look for simplistic quality measures and economic relevance let them look elsewhere This is a book for now and for all times Professor Lewis Elton Visiting Professor University of Manchester Honorary Professor University College London This is the third in the series Teaching and Learning the Humanities in Higher Education The book is for beginning and experienced teachers of literature in higher education The authors present a comprehensive overview of teaching English literature from setting teaching goals and syllabus planning through to a range of student assessment strategies and methods of course or teacher evaluation and improvement Particular attention is paid to different teaching methods from the traditional classroom to newer collaborative work distance education and uses of electronic technologies All this is set in the context of present day circumstances and agendas to help academics and those in training become more informed and better teachers of their subject The book includes how literature as a discipline is currently understood and constituted what it means to study and learn the subject what good teaching is with fewer resources for teaching larger student numbers an emphasis on user pay principles and

vocationalism This is an essential text for teachers of English Literature in universities and colleges worldwide The Teaching Learning in the Humanities series edited by Ellie Chambers and Jan Parker is for beginning and experienced lecturers It deals with all aspects of teaching individual arts and humanities subjects in higher education Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline specific practices British Literature Bob Jones University,2004-03-01

Why Do I Have to Learn This Stuff? Kyle Stevens,2003 One of the most common questions asked by high school students is Why do I have to learn this stuff High school English textbooks answer this question with regard to what is taught in English class anyway and the answer is what students have always suspected There is no good reason to know much of what they are being taught English textbooks are full of such egregious errors that their publication demonstrates that one needs no more than a superficial knowledge of their subject matter to edit or write for them If those who are responsible for introducing students to literary studies do not need to know the subject indifferent adolescents have a right to wonder why they should bother to do their schoolwork Indeed if teachers are passing on the information that is being provided by textbook companies students may be better off ignoring their reading assignments

Excerpt The examination of the lives of Desiderius Erasmus and Thomas More is particularly revealing of the kind of ignorance that a book publisher will accept from its employees After briefly reviewing his life and interests the text notes that Erasmus was friends with More and points out that the two friends had much in common 199 This is true enough but having stumbled upon the fact that Erasmus and More had much in common the text proceeds to explain what they had in common and error egregious as well as obvious raises its ugly head To determine the commonalities between these two thinkers the person working on the text must have decided that what was true of Erasmus must also have been true of More Both thinkers the person thus concludes must have been dedicated churchmen 199 Erasmus was a churchman He was a monk More by contrast was a lawyer who became Lord Chancellor of England something mentioned in the text He was in other words a layman not a churchman despite his refusing to acknowledge that Henry VIII was Supreme Head of the Church of England and losing his head for his intransigence A churchman as Catholics understand the term is one who has taken religious vows and become a member of the clergy as More considered doing before he settled into his career as a lawyer The word churchman it is true began to mean a member of a Church in the late seventeenth century but when it is used in this sense the word is only applied to the members of Anglican state churches throughout the world that is The Church of England The Church of Ireland and so on OED Neither Erasmus nor More were churchman in this sense both being Catholics and anyone in possession of a decent dictionary could have found that out Catalogue Information THE TEACHING PROBLEMS OF ENGLISH POETRY IN THE ENGLISH DEPARTMENTS Najat Ismaeel Sayakhan,2014-07-08 Teachers often complain that students find poetry difficult and intimidating Some undergraduate students arrive at university with little or no interest in poetry They confess that they do not know how to read it and therefore cannot understand or appreciate it The distinctive

features of poetry create some problems for the learner of English language yet if taught properly poetry can be an effective tool in urging students to learn the language

Teaching Literature and Language Through Multimodal Texts Domínguez Romero, Elena, Bobkina, Jelena, Stefanova, Svetlana, 2018-08-17 In the past few decades there has been a growing interest in the benefits of linking the learning of a foreign language to the study of its literature However the incorporation of literary texts into language curriculum is not easy to tackle As a result it is vital to explore the latest developments in text based teaching in which language culture and literature are taught as a continuum Teaching Literature and Language Through Multimodal Texts provides innovative insights into multiple language teaching modalities for the teaching of language through literature in the context of primary secondary and higher education It covers a wide range of good practice and innovative ideas and offers insights on the impact of such practice on learners with the intention to inspire other teachers to reconsider their own teaching practices It is a vital reference source for educators professionals school administrators researchers and practitioners interested in teaching literature and language through multimodal texts
