The Omnivore's Dilemma Michael Pollan,2015-08-04 This acclaimed bestseller and modern classic has changed America's relationship with food. It's essential reading for kids who care about the environment and climate change. What's for dinner seemed like a simple question until journalist and supermarket detective Michael Pollan delved behind the scenes. From fast food and big organic to small farms and old-fashioned hunting and gathering, this young reader's adaptation of Pollan's famous food chain exploration encourages kids to consider the personal and global implications of their food choices. With plenty of photos, graphs, and visuals, *The Omnivore's Dilemma* serves up a bold message to the generation most impacted by climate change: It's time to take charge of our national eating habits, and it starts with you. [Animal Defenses](#) Christina Wilsdon,2014-05-14 Insects that look like leaves, snakes that play dead, fish that fly, and toads with poisonous skin—these creatures are among many that defend themselves in fascinating ways. *Animal Defenses* presents the wide variety of physical and behavioral adaptations used by animals and insects in their struggle to survive and shows how scientists continue to make new discoveries about the age-old maneuvering between predator and prey. **A Mighty Long Way** Carlotta Walls LaNier, Lisa Frazier Page,2010-07-27 A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation. Professor Charles Ogletree, Harvard Law School, provides important context for an important moment in America's history. Associated Press. When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the Little Rock Nine, as they came to be known, would lead the nation on an even longer and much more turbulent path—one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history. [The Most Beautiful Roof in the World](#) Kathryn Lasky,1997 From Newbery Honor author Kathryn Lasky comes a fascinating journey through the rainforest canopy that's perfect for budding environmentalists. **Leaders of Their Own Learning** Ron Berger, Leah Rugen, Libby Woodfin, EL Education,2014-01-07 From EL Education comes a proven approach to student assessment. *Leaders of Their Own Learning* offers a new way of thinking about assessment based on the celebrated work of EL Education schools across the country.
