By Rust of Nail & Prick of Thorn Althaea Sebastiani, 2017-09-11 Warding is a practical means of magickal protection using physical objects as anchor points for energy. It is a preventative measure that uses your skill as a witch to tap into wild and ancient forces in order to take very ordinary objects and render them powerful wards. In this book you will explore the theory behind warding with an in-depth look at the three things generally warded against, those things that cannot be warded against, and the surprising benefits warding affords to your witchcraft practice. You will then put that information into practice with simple yet powerful wards you can easily make to guard your home, as well as techniques for warding your home when you don't have access to tools but need immediate magickal protection. You will learn why blanket protection spells are generally ineffective at providing the protection you need, how to make your magick stronger by identifying what you can and cannot ward against, how to transform your home into a spiritual safe haven with a powerful hands-on approach to witchcraft, how to simply yet effectively protect yourself from curses and unwanted energy, how to quickly ward your home without any tools in the event of a spiritual threat, how to rely more strongly on yourself and make fewer excuses about why you can't do the witchcraft. With an emphasis on common sense practicality and a hands-on approach to witchcraft, this book will help you to look at your spiritual protection needs for your home more objectively and to devise an immediate plan of action using materials you already have on hand.

Storytelling Organizational Practices David M. Boje, 2014-06-20 Once upon a time the practice of storytelling was about collecting interesting stories about the past and converting them into soundbite pitches. Now it is more about foretelling the ways the future is approaching the present, prompting a re-storying of the past. Storytelling has progressed and is about a diversity of voices, not just one teller of one past; it is how a group or organization of people negotiates the telling of history and the telling of what future is arriving in the present. With the changes in storytelling practices and theory, there is a growing need to look at new and different methodologies. Within this exciting new book, David M. Boje develops new ways to ask questions in interviews and make observations of practice that are about storytelling the future. This, after all, is where management practice concentrates its storytelling, while much of the theory and method work is all about how the past might recur in the future. *Storytelling Organizational Practices* takes the reader on a journey from looking at narratives of past experience through looking at living stories of emergence in the present to looking at how the future is arriving in ways that prompt a re-storying of the past.
