NRA Guide Basics of Rifle Shooting ,2014-05-09

Automatic Pistol Shooting Walter Winans,1915

The Modern Pistol and How to Shoot It Walter Winans,2011-01-01 There is now no use learning revolver shooting That form of pistol is obsolete except in the few instances where it survives for target shooting or is carried for self defence just as flintlock muskets even now survive in out of the way parts of the world If a man tries to defend himself with a revolver against another armed with an automatic pistol he is at a great disadvantage The automatic is more accurate than a revolver as the blow back does not vary as much as does the escape of gas past the cylinder in a revolver The bullet in the revolver has to jump into the cylinder whereas in the automatic it is already fitted up against the rifling before being fired The single shot pistol is the most accurate of any there being no escape of gas The automatic has not only a much longer range than the revolver although the popular idea that it can be shot accurately at a thousand yards or more is nonsense but it cocks itself instead of having to be cocked by the thumb or trigger finger Cocking by trigger pull is such a strain on not only the trigger finger but the whole hand that after a few shots good shooting cannot be made I won all my rapid firing revolver competitions using the single action and cocking with the thumb as this rested my trigger finger With the automatic cocking is unnecessary and with its lighter recoil good scores in rapid firing are very much easier to make The penetration of the nickel coated automatic bullet propelled by its big charge of nitro powder is very great A man brought me a pistol proof cuirass to test I put a bullet at twelve yards clean through it and then through two bullet proof ones placed one behind the other I used a regulation U S 45 Automatic pistol This was before the war The inventor was disappointed He had experimented only with revolvers shooting soft leaden bullets and these his cuirass had stopped Unfortunately in its present comparatively imperfect development the automatic is the most dangerous firearm of all pistols for a novice to handle The long barrel of a rifle can be struck aside if a beginner swings it round and points it at the instructor or a nearby spectator but the short barrel of a pistol is easily pointed at and with difficulty brushed aside by the unfortunate person standing near a brandishing and flourishing man who is learning to shoot In spite of all warnings even those who ought to know better do this swinging about In fact it is the recognized way of handling a pistol according to reporters they always say So and So was brandishing a pistol if he happens to be armed

The A B C of Rifle, Revolver and Pistol Shooting Ira Louis Reeves,1913

Pistol and Revolver Shooting Abraham Lincoln Artman Himmelwright,1915

American Pistol Shooting William David Frazer,1929

The Basics of Pistol Shooting, a Publication of the Ntional Rifle Association of America ,1991

ATF - National Firearms Act Handbook U.S. Department of Justice,2019-03-17 This handbook is primarily for the use of persons in the business of importing manufacturing and dealing in firearms defined by the National Firearms Act NFA or persons intending to go into an NFA firearms business It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA This publication is not a law book Rather it is intended as a user friendly reference book enabling the user to quickly find answers to questions concerning the NFA Nevertheless it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF The book s Table of Contents will be helpful to the user in locating needed information Although the principal focus of the handbook is the NFA the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors

NRA Guide to the Basics of Personal Protection in the Home ,2000

Firearm Safety Certificate - Manual for California Firearms Dealers and DOJ Certified Instructors California Department of Justice,2016-12 The growing concern over the number of accidental firearm shootings especially those involving children prompted passage of the initial handgun safety law which went into effect in 1994 The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms including but not limited to the safe handling and storage of those firearms The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700 These statutes mandate DOJ to develop implement and maintain the FSC Program Pursuant to Penal Code section 26840 a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC which is obtained by passing a written test on firearm safety Prior to taking delivery of a firearm from a licensed firearms dealer the purchaser recipient must also successfully perform a safe handling demonstration with that firearm
