With a spirit of exploration rarely seen in modern times, Ben Long and his wife, Karen Nichols, quit their jobs, sold their house, and set out to follow in the footsteps of Meriwether Lewis

and William Clark. Their quest: To look at the plants and animals encountered during the Corps of Discovery's great endeavor and report on how nature is doing after two centuries of "civilization." Long's voice is appealing, and readers will have no trouble imagining themselves traveling along with the couple in their fully loaded Subaru. Long and Nichols drove from Montana to the Pacific, checking on Lewis and Clark's natural "discoveries" along the way: prairie dogs, cutthroat trout, sharptail grouse, coyotes, beavers, bison, grizzlies, whitebark pine, even a dinosaur fossil. Everywhere, they encounter another persistent force of nature -- human nature. This highly readable travelogue is informed by humor, history, the sacred journals of Lewis and Clark, and the vivid experience of discovery. Few cars in modern times have caused as much of a stir as the turbocharged Subaru Impreza. It came from nowhere at the start of the 1990s to claim three successive World Rally Championships for its makers in the middle of that decade, and went on to become an enthusiasts' car thanks to its affordability, high performance - and, of course, the glorious exhaust note of its unusual flat-four 'boxer' engine. This book examines the three generations of Subaru Impreza WRX and WRX STI from 1992 - 2012, including how the roadgoing cars were developed from the successful rally models, production history and specification details. Topics covered include: History of the Impreza, and early days in competition with the Leone and the Legacy models. Construction and derivatives of the distinctive flat-four engine. Innovations in the Impreza's four-wheel-drive system. Design and specifications for special editions. Includes material from Prodrive on their limited edition models. Examines both rally and roadgoing cars.
