With the tables turned, this Bat Pack of kids must reveal their own secret origins to their masked captor! Serena Mitchell, very unlike her free-spirited sister played by the rules. Poised, polite and polished, she observed the world behind square frames and a guarded heart. But then she met Landon West and she learned some rules were highly overrated. Fast forward three months: Serena Mitchell has changed. She was in love. With her boss. With her father's best friend. A father who is dangerously close to finding out their secret. This wasn't supposed to happen. She wasn't prepared to lose anything at the end of the school year except mind numbing orgasms. Not her father. Not the love of her life. And certainly not her heart. For those still in college or high school, this is a chance to get a head-start on peers and an independent life. The Missing Semester is based on the principle of ownership—ownership of your financial future. It begins with the premise that your financial future is your responsibility, and that you cannot plan for or expect help. The book shows how to build a strong financial foundation, prepare for the unexpected, and confront challenges.
