A Theology of Liberation Gustavo Guti errez, 1988-01-01 This is the credo and seminal text of the movement which was later characterized as liberation theology The book burst upon the scene in the early seventies and was swiftly acknowledged as a pioneering and prophetic approach to theology which famously made an option for the poor placing the exploited the alienated and the economically wretched at the centre of a programme where the oppressed and maimed and blind and lame were prioritized at the expense of those who either maintained the status quo or who abused the structures of power for their own ends This powerful compassionate and radical book attracted criticism for daring to mix politics and religion in so explicit a manner but was also welcomed by those who had the capacity to see that its agenda was nothing more nor less than to give good news to the poor and redeem God's people from bondage

Messengers in Denim Parnell Donahue,2010-09 Forty years of pediatric experience have taught Dr Parnell Donahue that the unique perspective of teens is an invaluable resource for parents who want their children to become men and women of character His often frank discussions with teenagers cover topics familiar to parents drugs sex suicide medical care financial responsibility self image religion even the importance of being nice but with the added benefit of revealing how teens feel about these and other subjects and what teens perceive their parents feel about those same issues Each teen s true story reminds us that despite appearances our children carefully watch everything we as parents say and do and they usually follow our lead Dr Donahue further reminds us that children want parents to teach good behavior at all times but use words only when necessary He complements his discussions with medical insight that helps parents fully comprehend the issues facing their teens The result is a poignant and oftentimes humorous discussion that challenges and usually changes parents perceptions of modern teenagers
