**The Thank You Economy (Enhanced Edition)** Gary Vaynerchuk, 2011-03-08 If this were 1923 this book would have been called *Why Radio Is Going to Change the Game* If it were 1995 it would be *Why Amazon Is Going to Take Over the Retailing World* The Thank You Economy is about something big something greater than any single revolutionary platform It isn't some abstract concept or wacky business strategy it's real and every one of us is doing business in it every day whether we choose to recognize it or not It's the way we communicate the way we buy and sell the way businesses and consumers interact online and offline The Internet where the Thank You Economy was born has given consumers back their voice and the tremendous power of their opinions via social media means that companies and brands have to compete on a whole different level than they used to Gone are the days when a blizzard of marketing dollars could be used to overwhelm the airwaves shut out the competition and grab customer awareness Now customers demands for authenticity originality creativity honesty and good intent have made it necessary for companies and brands to revert to a level of customer service rarely seen since our great grandparents day when business owners often knew their customers personally and gave them individual attention Here renowned entrepreneur Gary Vaynerchuk reveals how companies big and small can scale that kind of personal one on one attention to their entire customer base no matter how large using the same social media platforms that carry consumer word of mouth The Thank You Economy offers compelling data driven evidence that we have entered into an entirely new business era one in which the companies that see the biggest returns won't be the ones that can throw the most money at an advertising campaign but will be those that can prove they care about their customers more than anyone else The businesses and brands that harness the word of mouth power from social media those that can shift their culture to be more customer aware and fan friendly will pull away from the pack and profit in today's markets Filled with Vaynerchuk's irrepressible candor and wit as well as real world examples of companies that are profiting by putting Thank You Economy principles into practice The Thank You Economy reveals how businesses can harness all the changes and challenges inherent in social media and turn them into tremendous opportunities for profit and growth

**Youtility** Jay Baer, 2013-06-27 The difference between helping and selling is just two letters If you're wondering how to make your products seem more exciting online you're asking the wrong question You're not competing for attention only against other similar products You're competing against your customers friends and family and viral videos and cute puppies To win attention these days you must ask a different question How can we help Jay Baer's Youtility offers a new approach that cuts through the clutter marketing that is truly inherently useful If you sell something you make a customer today but if you genuinely help someone you create a customer for life

**Twelve and a Half** Gary Vaynerchuk, 2021-11-30 USA Today Bestseller In his sixth business book bestselling author entrepreneur and investor Gary Vaynerchuk explores the twelve essential emotional skills that are integral to his life and business success and provides today's and tomorrow's leaders with

critical tools to acquire and develop these traits For decades leaders have relied on hard skills to make smart decisions while dismissing the importance of emotional intelligence Soft skills like self awareness and curiosity aren t quantifiable they can t be measured on a spreadsheet and aren t taught in B schools or emphasized in institutions We ve been taught that emotional intelligence is a nice to have in business not a requirement But soft skills can actually accelerate business success Gary Vaynerchuk argues For analytical minds it s challenging to understand how to get better at being self aware curious or empathetic or even why it s important to try In this wise and practical book Gary explores the 12 human ingredients that have led to his success and happiness and provides exercises to help you develop these traits yourself He also shares what the half is that emotional ingredient of leadership he s weakest at and makes the most effort to improve Working through the ideas and exercises in the book he teaches you how to discover your own halves and offers insight on how to strengthen them Gary s secret to success is using these twelve traits in varying mixtures depending on the situation But how do we know when to balance patience with ambition Humility with conviction Gary provides real life examples involving common business scenarios to show you how to use them together for optimum results This iconoclastic book will help you refine your ingredients and improve your leadership capabilities When implemented in the proper situation these ingredients can help leaders land promotions retain core employees move faster than competitors win the loyalty of customers and build successful organizations that last
