Considering the fact that the academic essay continues to be widely used as an assessment tool within education, there is a need for students to develop their skills in this area. However, it is often the case that students perceive instruction in academic writing, if it is offered at all, as boring. This book addresses these two issues. First, the book can be used by students themselves, even in the absence of academic writing classes, as a self-help guide, from

which they can develop their knowledge of academic writing and subsequent proficiency. Second, by discussing the components of academic writing in terms—such as film—which are familiar to today's generation, students are enabled to relate to the material better and see what might have been perceived as dull from a brand new perspective. Visual learners in particular will enjoy the analogous link between films and essays, and students today are arguably more visually literate than previous generations, being exposed to visuals on a daily basis

through text message iconography, computer games and the Internet. The visual instruction provided in turn helps to facilitate mental visuals in students' minds, from which their knowledge of essay writing can start to develop. Dr. Stobaugh weaves biblical concepts, readings, and applications throughout the curriculum to help equip students to stand firm in their faith and become the light of Christ in a deteriorating culture. Essential Actions for Academic Writers is a writing textbook for all novice academic students, undergraduate or graduate, to help them understand how to write

effectively throughout their academic and professional careers. While these novice writers may use English as a second or additional language, this book is also intended for students who have done little writing in their prior education or who are not yet confident in their academic writing. Essential Actions combines genre research, proven pedagogical practices, and short readings to help students develop their rhetorical flexibility by exploring and practicing the key actions that will appear in academic assignments, such as explaining, summarizing,

synthesizing, and arguing. Part I introduces students to rhetorical situation, genre, register, source use, and a framework for understanding how to approach any new writing task. The genre approach recognizes that all writing responds to a context that includes the writer's identity, the reader's expectations, the purpose of the text, and the conventions that shape it. Part II explores each essential action and provides examples of the genres and language that support it. Part III leads students in combining the actions in different genres and contexts, culminating in the

project of writing a personal statement for a university or scholarship application. Dr Jekyll is a well-respected, curious scientist who tries to separate his good characteristics from his evil impulses. Dr Jekyll uses science to explore his alter ego Mr Hyde and attempts to control Mr Hyde's evil urges, even as they grow in intensity. An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing. There seems to be widespread agreement that—when it comes to the writing skills of college

students—we are in the midst of a crisis. In *Why They Can't Write*, John Warner, who taught writing at the college level for two decades, argues that the problem isn't caused by a lack of rigor, or smartphones, or some generational character defect. Instead, he asserts, we're teaching writing wrong. Warner blames this on decades of educational reform rooted in standardization, assessments, and accountability. We have done no more, Warner argues, than conditioned students to perform "writing-related simulations," which pass temporary muster but do little to help students develop their

writing abilities. This style of teaching has made students passive and disengaged. Worse yet, it hasn't prepared them for writing in the college classroom. Rather than making choices and thinking critically, as writers must, undergraduates simply follow the rules—such as the five-paragraph essay—designed to help them pass these high-stakes assessments. In *Why They Can't Write*, Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system. Combining current knowledge of what works in teaching and learning with the most enduring philosophies of

classical education, this book challenges readers to develop the skills, attitudes, knowledge, and habits of mind of strong writers. Rhetoric is the ancient skill of persuasive speech used by teachers, preachers, politicians, and others to influence, incite, and instruct. This course includes basic grammar and writing composition, and mastering this time-honored skill will set your students apart with distinguished written and oral abilities. This Teacher's Guide accompanies James Stobaugh's Skills for Rhetoric student book. It provides an instruction guide,

daily concept builders, and weekly essay questions and tests.

Additionally, it describes the language of advanced academic writing with more than 300 real examples from successful graduate students and from published texts, including corpora. Author Steve Sharp tells his students that the thesis statement is the sun around which EVERYTHING in their paper orbits. Every sentence must fall within its gravitational pull and obey rational orbital laws. Otherwise chaos ensues. If you really want to succeed in the academic world,

you simply can't afford to leave your readers scratching their heads after they've read your paper, wondering, "What's the point of this? Why was this written?"

MASTERING THE THESIS

STATEMENT teaches you just about everything you need to know to write an effective thesis statement and improve the quality of your academic writing. Because writing is such hard work, you may have to revise your thesis many, many times before you discover the gem that shines brightest - a thesis that not only suits the content and purpose of your paper but also truly reflects what you're trying to say. This

textbook is suitable for self-study. It takes students through a step-by-step process of writing expository, argumentative, and compare and contrast essays.

Includes information on structuring an essay, enhancing introductions, judging the quality of sources, citing information and improving the academic tone of language. Despite being highly debated in applied linguistics and L2 teaching literature, the controversial issue of (non)nativeness still remains unresolved.

Contemporary critical research has questioned the theoretical foundations of the

nativeness paradigm, which still exerts a strong influence in the language teaching profession. Written by well-known researchers and teacher educators from all over the world, both NSs and NNSs, the selected contributions of this volume cover a great variety of aspects related to the professional role and status of both NS and NNS teachers in terms of both perceived differences and professional concerns and challenges. The strongest aspects of this volume are the global perspectives and the implications for future research and teacher education. It is precisely this

international perspective which makes this volume illustrative of different realities with a similar objective in mind: the improvement of second language teaching and teacher education. In today's world, being a NS or NNS should not really matter but rather teachers' professional competences. This publication thus provides a forum of reflection and discussion for all L2 educators who need to be aware of how much they might offer to their future students. Grammar and Beyond is a four-level North American grammar course informed by a collection of over one billion words of authentic language,

ensuring that students learn grammar the way it is used in real spoken and written English. The series places special emphasis on grammar for writing. CEF: B2-C1. -65 Solved Issue and Argument topics solved using simple methods and expert strategies - New Essays included -Topics sorted by categories -Online access to printable Answer sheets A First Nations former hockey star looks back on his life as he undergoes treatment for alcoholism in this novel from the author of Dream Wheels. Saul Indian Horse is a child when his family retreats into the woods. Among the

lakes and the cedars, they attempt to reconnect with half-forgotten traditions and hide from the authorities who have been kidnapping Ojibway youth. But when winter approaches, Saul loses everything: his brother, his parents, his beloved grandmother—and then his home itself. Alone in the world and placed in a horrific boarding school, Saul is surrounded by violence and cruelty. At the urging of a priest, he finds a tentative salvation in hockey. Rising at dawn to practice alone, Saul proves determined and undeniably gifted. His intuition and vision are unmatched. His

speed is remarkable. Together they open doors for him: away from the school, into an all-Ojibway amateur circuit, and finally within grasp of a professional career. Yet as Saul's victories mount, so do the indignities and the taunts, the racism and the hatred—the harshness of a world that will never welcome him, tied inexorably to the sport he loves. Spare and compact yet undeniably rich, *Indian Horse* is at once a heartbreaking account of a dark chapter in our history and a moving coming-of-age story. “Shocking and alien, valuable and true... A master of

empathy.”—Jane Smiley, Pulitzer Prize-winning author of *Golden Age* “A severe yet beautiful novel... *Indian Horse* finds the granite solidity of Wagamese's prose polished to a lustrous sheen; brisk, brief, sharp chapters propel the reader forward.”—Donna Bailey Nurse, *National Post* (Toronto) This textbook guides students through rhetorical and assignment analysis, the writing process, researching, citing, rhetorical modes, and critical reading.
