The tactics of Egypt's democratic dictator

- Morsi's strongman push to cleanse judiciary may be democracy's only chance
- Opposition forces cannot be described as model of democratic principles either

BY OMAR KHORRAM

Mohamed Morsi, Egypt's first president, recently granted himself sweeping emergency powers in order, he claims, to ensure the independence of the judiciary. On the face of it, such a move appears to be a laudable attempt to ensure the independence of the judiciary. But Morsi's move is not so simple as it seems. It will, in fact, have a profound impact on the country's future.

Morsi has also been accused of the odd habit of trying to defend his decision against charges of corruption while demanding that other members of parliament be held accountable for their actions. In other words, Morsi is trying to hold others accountable for their actions while exempting himself from the same. This is a clear sign of a dictator's tactics. Morsi's move is not so simple as it seems. It will, in fact, have a profound impact on the country's future.

Language Change in English Newspaper Editorials Ingrid Westin, 2016-08-09 This work is a corpus based study of the language of English up market quality newspaper editorials covering the period 1900 1993 CENE the Corpus of English Newspaper Editorials was compiled for the purposes of this study and comprises editorials from the Daily Telegraph the Guardian and The Times chosen to represent periods at ten year intervals The language of the editorials was investigated with regard to features that previous research had proved to be markers of such types of discourse as might be of interest to an investigation of the development of the language of newspaper editorials To begin with sets of features associated with the empirically defined

dimensions of linguistic variation presented in Biber 1988 were compared across decades and newspapers these dimensions included personal involvement and information density narrative discourse argumentative discourse abstract discourse and explicit reference However since the study showed that the features within each set often developed in diverging directions the old sets were broken up and new ones formed on the basis of change and continuity as well as of shared linguistic stylistic functions specific for newspaper editorials among the features involved It then became apparent that during the 20th century the language of the editorials developed towards greater information density and lexical specificity and diversity but at the same time towards greater informality in so far as the use of conversational features increased The narrative quality of the editorials at the beginning of the century gradually decreased whereas their reporting and argumentative functions remained the same over the years When the features were compared across the newspapers analyzed a clear distinction was noticed between The Times and the Guardian The language of the Guardian was the most informal and the most narrative while that of The Times was the least so The information density was the highest in The Times and the lowest in the Guardian In these respects the Daily Telegraph took an intermediate position The editorials of the Guardian were more argumentative than those of both the Daily Telegraph and The Times As regards lexical specificity and diversity as well as sentence complexity the Daily Telegraph scored the highest and The Times the lowest while the results obtained for the Guardian were in between the two

Editorial and Opinion Steven M. Hallock, 2006-11-30 In 1930 there were 288 competitive major newspaper markets in the United States Today there are fewer than 30 The diminishing diversity of opinion and voices in newspapers editorials is taking place even as technological advances seemingly provide more sources of the same information As Hallock shows the concentration of media ownership in fewer and fewer hands allows those individuals and entities an inordinate amount of influence In this intriguing book he examines 18 newspaper markets to show us exactly how and where this troubling trend is occurring what it means for the political landscape and ultimately how it can affect us all Newspaper editorials say a lot about the society in which we live They are not just an indication and reflection of the issues of the day and of which way the political wind is blowing They are also a part of the political climate that sets the agenda for politicians and helps them discern which are the hot button issues and which side people are on Journalists and politicians enjoy a level of symbiosis in their relationships they influence each other indirectly It therefore follows that when fewer ideas and a narrower range of opinions are expressed in the nation's newspapers there is a real danger that our thinking can become more simplistic as well

Nelson Flint,1928 **What's the Matter with Kansas?** Thomas Frank,2007-04-01 One of our most insightful social observers cracks the great political mystery of our time how conservatism once a marker of class privilege became the creed of millions of ordinary Americans With his acclaimed wit and acuity Thomas Frank turns his eye on what he calls the thirty year backlash the populist revolt against a supposedly liberal establishment The high point of that backlash is the Republican Party's success in building the most unnatural of alliances between blue collar Midwesterners and Wall Street business interests workers and bosses populists and right wingers In asking what's the matter with Kansas how a place famous for its radicalism became one of the most conservative states in the union Frank a native Kansan and onetime Republican seeks to answer some broader American riddles Why do so many of us vote against our economic interests Where's the outrage at corporate manipulators And whatever happened to middle American progressivism The questions are urgent as well as provocative Frank answers them by examining pop conservatism the bestsellers the radio talk shows the vicious political combat and showing how our long culture wars have left us with an electorate far more concerned with their leaders' values and down home qualities than with their stands on hard questions of policy A brilliant analysis and funny to boot What's the Matter with Kansas presents a critical assessment of who we are while telling a remarkable story of how a group of frat boys lawyers and CEOs came to convince a nation that they spoke on behalf of the People Los Angeles Times 1946-1962

Editorial Opinion on Desegregation Virginia Dee Linguist,1956 **The Complete Idiot's Guide to Journalism** Christopher K. Passante,2007 Never has the world of journalism been so explosive so global and so competitive Forget hourly news flashes we live in a world of 24 hour breaking news with radio and TV stations and Internet sites updating stories by the minute and newspapers adjusting to stay fresh in depth and relevant While the number of newspapers and TV and radio stations has dropped over the last half century in the United States instant free access Internet news portals have grown precipitously to not only fill any gaps in coverage but to force Big Media to change its game plans or risk losing readership But in no way does this suggest any aspect of journalism is heading for the garbage heap especially newspapers Never before have Americans been so engaged in their world and many mediums are needed to satiate that collective appetite for knowledge The Gods of Antenna Bruce Herschensohn,2000-11 If the new generation is not told accurate information then not only will the new generation and the generations that follow be misguided but more importantly the policy makers of the future will be making decisions based on mis assessments There are three areas in which the truth of the past has been tragically misrepresented The actions of the President the role of the media and the buried legacy of the South Vietnamese the Laotians the Cambodians and of course the Americans who gave their lives for the liberty of others There is no higher morality than dying for the well being of a stranger and that is what they did Their enemies were not only on the battlefield many of their enemies are still revising the history of those days either to justify their past actions or to cloak their

consciences or they simply don't know the truth because they have been bombarded by those who rejected it Their recorded words and fictionalized images are at best what they think is true and at worst are meant to deceive you The Complete Editor James Glen Stovall, Edward Mullins, 2015-10-05 Filled with abundant exercises The Complete Editor provides readers with many resources actively learn about copyediting headline writing decision making relationships with writers graphic presentations photo editing and layout and design It also contains a separate chapter on legal principles that an editor needs to understand This efficient and well written text gives readers basic information about the essential topics at hand
