Most social science studies on automobility have focused on the production, usage, identity construction and aesthetic improvements of personal means of transportation. What happens if we shift the focus to the labour, knowledge and social relations that go into the unavoidable moments of maintenance and repair? Taking motorcycling in Romania as an ethnographic entry point, this book documents how bikers handle the inevitable moment of malfunction and breakdown. Using both mobile and sedentary research methods, the book describes the joys and troubles experienced by amateur mechanics, professional mechanics and untechnical male and females when fixing bikes.

**World History as the History of Foundations, 3000 BCE to 1500 CE** Nov 13 2022 In *World History as the History of Foundations, 3000 BCE to 1500 CE*, Michael Borgolte investigates the origins and development of foundations from Antiquity to the end of the Middle Ages. In his survey foundations emerge not as mere legal institutions, but rather as “total social phenomena” which touch upon manifold

aspects, including politics, the economy, art and religion of the cultures in which they emerged. Cross-cultural in its approach and the result of decades of research, this work represents by far the most comprehensive account of the history of foundations that has hitherto been published.

**Developing Applications with IBM FileNet P8 APIs** Mar

30 2024 This IBM® Redbooks® publication can help you develop content and process management applications with IBM FileNet® APIs. The IBM FileNet P8 suite of products contains a set of robust APIs that range from core platform APIs to supporting application APIs. This book focuses specifically on Content Engine and Process Engine APIs. Content Engine API topics that we discuss include creating, retrieving, updating, and deleting objects; querying and viewing documents; and batching and batch execution. We also explore more complex topics, including permissions and authorization, versioning, relationships, annotations, workflow subscriptions and event actions, metadata discovery, and dynamic security inheritance. Process Engine API topics that we discuss include launching a workflow, searching for and processing work items, and working with process status. The more complex topics we cover include, Component Integrator application space, role, workbasket, resource navigation in Process Engine REST API, ECM

Widgets, and building a custom Get Next In-basket widget. To help you better understand programming with IBM FileNet APIs, we provide a sample application implemented for a fictional company. We include the data model, security model, workflows, and various applications developed for the sample. You can download them for your reference. This book is intended for IBM FileNet P8 application developers. We recommend using this book in conjunction with the online ECM help.

**Catechism of the Catholic Church** Feb 14 2023 Over 3 million copies sold! Essential reading for Catholics of all walks of life. Here it is - the first new Catechism of the Catholic Church in more than 400 years, a complete summary of what Catholics around the world commonly believe. The Catechism draws on the Bible, the Mass, the Sacraments, Church tradition and teaching, and the lives of saints. It comes with a complete index, footnotes and cross-references for a fuller understanding of every subject. The word catechism means "instruction" - this book will serve as the standard for all future catechisms. Using the tradition of explaining what the Church believes (the Creed), what she celebrates (the Sacraments), what she lives (the Commandments), and what she prays (the Lord's Prayer), the Catechism of the Catholic Church offers challenges for believers and answers for all those interested in learning about the mystery of the Catholic faith. The Catechism of the Catholic Church is a positive, coherent and contemporary map for our spiritual journey toward transformation.

*Sanctuaries in Roman Dacia* May 20 2023 This book focuses on lived ancient religious communication in Roman Dacia. Testing for the first time the 'Lived Ancient Religion' approach in terms of a peripheral province from the Danubian area, this work looks at the role of 'sacralised' spaces, known commonly as sanctuaries in the religious communication of the province.

A Little History of the World Oct 25 2023 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich

was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

A History of the Roman Equestrian Order Oct 01 2021

In the Roman social hierarchy, the equestrian order stood second only to the senatorial aristocracy in status and prestige. Throughout more than a thousand years of Roman history, equestrians played prominent roles in the Roman government, army, and society as cavalymen, officers, businessmen, tax collectors, jurors, administrators, and writers. This book offers the first comprehensive history of the equestrian order, covering the period from the eighth century BC to the fifth century AD. It examines how Rome's cavalry became the equestrian order during the Republican

period, before analysing how imperial rule transformed the role of equestrians in government. Using literary and documentary evidence, the book demonstrates the vital social function which the equestrian order filled in the Roman world, and how this was shaped by the transformation of the Roman state itself.

Feb 22 2021 "The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries.

These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten - except by the historians, scholars"-- The Guardian,

Truth Triumphant Oct 13 2022 A much neglected field of study has been opened by the research of the author into the

history of the Christian church from its apostolic origins to the close of the eighteenth century. Taking as his thesis the prominence given to the Church in the Wilderness in Bible prophecy, and the fact that “‘the Church in the Wilderness,’ and not the proud hierarchy enthroned in the world’s great capital, was the true church of Christ,” he has spent years developing this subject. In its present form, *Truth Triumphant* represents much arduous research in the libraries of Europe as well as in America. Excellent ancient sources are most difficult to obtain, but the author has been successful in gaining access to many of them. To crystallize the subject matter and make the historical facts live in modern times, the author also made extensive travels throughout Europe and Asia. The doctrines of the primitive Christian church spread to Ireland, Scotland, and Wales. As grains of a mustard seed they lodged in the hearts of many Godly souls in southern France and northern Italy — people known as the Albigenses and the Waldenses. The faith of Jesus was valiantly upheld by the Church of the East. This term, as used by the author, not only includes the Syrian and Assyrian Churches, but is also the term applied to the development of apostolic Christianity throughout the lands of the East. The spirit of Christ, burning in the hearts of loyal men who would not compromise with paganism, sent them forth as missionaries to lands afar. Patrick, Columbanus, Marcos, and a host of others were missionaries to distant lands. They braved the ignorance of the barbarian, the intolerance of the apostate church leaders, and the persecution of the state in order that they might win souls to God. To unfold the dangers that were ever present in the

conflict of the true church against error, to reveal the sinister working of evil and the divine strength by which men of God made truth triumphant, to challenge the Remnant Church today in its final controversy against the powers of evil, and to show the holy, unchanging message of the Bible as it has been preserved for those who will “fear God, and keep His commandments” — these are the sincere aims of the author as he presents this book to those who know the truth.
