Primarily for a one-semester survey course in general economics. The Economic Way of Thinking develops the basic principles of micro- and macroeconomic analysis, and employs them as tools rather than ends unto themselves. This text introduces students to a method of reasoning; to think like an economist through example and application. It even teaches by showing students how not to think, by exposing them to the errors implicit in much popular reasoning about economic events. For courses in Sales and Personal Selling. *Selling Today: Partnering to Create Value* helps students understand the value of developing their personal selling skills by exposing them to a careful integration of personal selling academic theory and real-world applications. And with the largest number of learn by doing materials available in any personal selling text, Manning/Ahearne/Reece offers instructors a variety of teaching tools to strengthen the learning process. As the developed nations of the world transition from a production focus to a sales-and-service focus, this edition prepares students to succeed as members of a new generation of businesspeople. The 13th edition, while retaining materials that have stood the test of time, represents a major overhaul of the text, with significant changes to every chapter. The changes are meant not only to update the text but to give the entire book a fresh, new feel. It is designed to give students a strong sense both that much of the law of evidence reflects enduring principles and that it continues to respond to contemporary situations and problems. This edition retains what has made this book so distinctive for decades, classic problems and materials, some of them from non-legal sources. Teachers who have used prior editions will still find here their favorites. But this edition replaces many old materials that have a tired feel with new ones from the last few years. The new edition adds three important new Supreme Court cases, one on the right to confrontation and two on impeachment of jury verdicts, and numerous significant and interesting cases from state courts and lower federal courts. The authors have continued the practice of choosing cases and other materials on the basis of teachability, and the additions promise to be fun to teach. At the same time, the authors have tightened up on the entire text, so that this edition is significantly shorter than the last one. Everything you need to prepare for the GMAT exam with one click!
