Letters to a Young Scientist Feb 05 2022 Pulitzer Prize-winning biologist Edward O. Wilson imparts the wisdom of his storied career to the next generation. Edward O. Wilson has distilled sixty years of teaching into a book for students, young and old. Reflecting on his coming-of-age in the South as a Boy Scout and a lover of ants and butterflies, Wilson threads these twenty-one letters, each richly illustrated, with autobiographical anecdotes that illuminate his career—both his successes and his failures—and his motivations for becoming a biologist. At a time in human history when our survival is more than ever linked to our understanding of science, Wilson insists that success in the sciences does not depend on mathematical skill, but rather a passion for finding a problem and solving it. From the collapse of stars to the exploration of rain forests and the oceans' depths, Wilson instills a love of the innate creativity of science and a respect for the human being's modest place in the planet's ecosystem in his readers.

Dear Mark Twain Apr 02 2024 A voracious pack-rat, Mark Twain hoarded his readers' letters as did few of his contemporaries. Dear Mark Twain collects 200 of these letters written by a diverse cross-section of correspondents from around the world—children, farmers, schoolteachers, businessmen, preachers, railroad clerks, inmates of mental institutions, con artists, and even a former president. It is a unique and groundbreaking book—the first published collection of reader letters to any writer of Mark Twain's time. Its contents afford a rare and exhilarating glimpse into the sensibilities of nineteenth-century people while revealing the impact Samuel L. Clemens had on his readers. Clemens's own and often startling comments and replies are also included. R. Kent Rasmussen's extensive research provides fascinating profiles of the correspondents, whose personal stories are often as interesting as their letters. Ranging from gushing fan appreciations and requests for help and advice to suggestions for writing projects and stinging criticisms, the letters are filled with perceptive insights, pathos, and unintentional but often riotous humor. Many are deeply moving, more than a few are hilarious, some may be shocking, but none are dull.

Addressing Each Other Jul 13 2022 My dissertation explores how Mark Twain, Edward Bok, Willa Cather, and their respective readers use fan letter correspondence to test and shape their perceived ideas of who is writing and who is listening. I describe fan letters as a genre that creates a middle ground on which each individual trades the position of reader and writer. By writing such letters, readers fashion their personal narratives for an author whose writings have led them to believe he or she is predisposed to understanding them. By seeking a reply from the author, readers risk replacing their imagined connection to an author with an actual one. Although readers often shared similar motivations for writing, Twain, Bok, and Cather each had different reasons for responding to fan letters. Twain imagined his fan letter correspondence as a means of circumnavigating the power of the editor. Bok codified, popularized, and commodified fan letters as a way of imbuing himself with authority both as the editor of the Ladies' Home Journal and of his own Pulitzer Prize-winning autobiography, *The Americanization of Edward Bok*. Cather used fan letters as a way to privatize and individualize the wider discourse on her writing. These authors used fan letters, then, to either undercut or buttress a broader conversation taking place in public print culture about who could write literature, how it should be produced, and the nature of the relationship between reader, author, and editor. By placing Twain, Bok, and Cather together, I build case studies of each individual author, as well as a narrative arc that focuses on the shifting historical context of magazine publishing and editorial intervention as factors influencing changes in author-reader relationships. In Chapter 1, "Fan Letter Frameworks," I argue that fan mail should be defined as a relational genre: by trading positions as reader and writer, both parties replace an imagined or generalized sense of each other with the specificity of an actual

one-on-one correspondence. Fan letters across the archives use remarkably similar rhetoric, as well as the desire to test the vexed sensation of knowing an author who is actually a stranger. Rather than using fan letters as a location in which common readers find their voice, I emphasize that the fan letter provides a venue through which many kinds of readers approach authors through an informal, enthusiastic, and private mode. A relational definition of fan mail highlights the power of a genre that entices even professional readers to abandon or supplement their spheres of influence in the classroom or reading room in order to address the author in a mode often associated with the amateur. Thus, fan letters expand scholarship on the history of reading created thus far by scholars like Janice Radway and Robert Darnton. Unlike the self-discursive writings that appear in book marginalia and diary entries, or brief treatments in letters circulated among friends, these letters offer readers' sustained depictions of their own reading efforts to the very individuals who have inspired them. The subsequent author-specific chapters explore the implications of the fan letter correspondence sustained by Twain, Bok, and Cather. Each author spent a substantial amount of time on such letter writing, often sacrificing time that could have been spent on major works. Yet even as the authors devoted their energy and time to addressing individual readers, they also displayed various kinds of ambivalence toward fan letters that both invite and invade epistolary relationships with his readers. Chapter 2 focuses on a segment of Mark Twain's vigorous, career-long fan-letter exchange. In 1878, Mark Twain explains to his mother one reason for traveling to Europe to work on a book: "It comes [from the need to escape] the persecutions of kindly letters from well-meaning strangers--to whom I must be rudely silent or else put in the biggest half of my time bothering over answers." His public discourse, such as his editorial contributions to the *Galaxy* magazine and public interviews, often lament the time and expense of fan-letter exchange, though often he undercuts his own claims by including gestures that welcome additional correspondence. Although Twain was publicly and privately ambivalent about these letters, he also viewed them as a duty, an opportunity, an indicator of his fame, and a prompt to explore themes that appear frequently in his literature, such as the figure of the mysterious stranger. The third chapter focuses on fan letters from the perspective of the fan. In both in his autobiography and in magazine pieces, Edward Bok depicts his own fan-letter writing as a formative practice of self-education. Although previous scholars often note the ways in which Bok used the literary and political connections from his fan letters to bootstrap his editorial career, my own argument focuses on how Bok translated the practices of fan-letter writing into a revolutionary persona for the figure of the editor for the *Ladies' Home Journal* (LHJ), the first magazine to reach over one million subscribers.

Whereas previous editors had been distant, third-person voices, Bok created a personal, warm editor who not only solicited frequent letters from readers, but also structured his staff around replying to readers in ways that mimicked fan letter correspondence. The chapter traces Bok's shifting fan letter practices--from his youthful days to his days as prominent magazine editor--by focusing on his epistolary relationship with Mark Twain. Bok first appears in the Twain archive as an over-eager teenager who sent Twain many requests for an autographed reply (on the annotation on an envelope, Twain calls Bok a "persistent puppy"). As Bok began his editorial career, he unsuccessfully negotiated with Twain to publish some of his fiction. Finally, as editor of the LHJ, he printed not Twain's fiction but material that reflected fannish engagement with Twain. Instead of stories or essays, Bok published pictorial essays on Twain's domestic life well as a feature on Twain's fan letter correspondence with his Angelfish fan club. Bok's publication choices were informed by recognizing readers' desires to have such private access to authors. By the time Willa Cather ended her managing career at McClure's magazine in 1911, she had been exposed to the taxing nature of fan-letter-influenced correspondence. She recognized the value of readers' voices when she incorporated fan letters into her ghostwritten biography of S.S. McClure, but she continually resisted the threat that fan letters from her own readers might circulate into publication. Although Cather maintained the boundaries between the public and private nature of her correspondence with readers, Chapter 4 overturns scholars' assumptions that fan letters are the creation of "real" readers, as opposed to the professional readers who held sway in the classroom or on the printed page. Since professional and general readers appear in her archive, it is incorrect to claim that the archives represent only the common, unheard reader. Instead, fan letters are more accurately and constructively read as a genre used by many kinds of readers. Throughout her career, Cather retained fan letters that demonstrated her preferred reading methods, an author-reader relationship based on repeated readings and affective responses to the text as well as personal familiarity with its locations and characters. Moreover, while those who study fan cultures often imagine fans poaching the professionals, I demonstrate the ways in which professionals such as reviewer Dorothy Canfield and publisher Alfred Knopf publicly appropriate fan letter methods when supporting Cather's work. This chapter delineates Cather's resistance to professional reading methods, and the alternatives she suggests not only in essays and speeches but also in letter-by-letter replies to her fans. Ultimately, fan letters offer a corrective to the critical habit of opposing the figure of the general reader with professional and trained readers and shows the ways both kinds of readers use fan letters and the rhetoric of fan letters to engage with Cather's work as an object of pleasure and beauty.

Letters from the Editor Feb 25 2021 These exhilarating letters—selected and introduced by Thomas Kunkel, who wrote *Genius in Disguise*, the distinguished Ross biography—tell the dramatic story of the birth of *The New Yorker* and its precarious early days and years. Ross worries about everything from keeping track of office typewriters to the magazine's role in wartime to the exact questions to be asked for a "Talk of the Town" piece on the song "Happy Birthday." We find Ross, in Kunkel's words, "scolding Henry Luce, lecturing Orson Welles, baiting J. Edgar Hoover, inviting Noel Coward and Ginger Rogers to the circus, wheedling Ernest Hemingway— offering to sell Harpo Marx a used car and James Cagney a used tractor, and explaining to restaurateur-to-the-stars Dave Chasen, step by step, how to smoke a turkey." These letters from a supreme editor tell in his own words the story of the fierce, lively man who launched the world's most prestigious magazine.

Queen of the Pulps Aug 02 2021 Daisy Bacon, the opinionated, autocratic and complex editor of *Love Story Magazine* from 1928 to 1947, chose the stories that would be read by hundreds of thousands of readers each week. The first weekly periodical devoted to romance fiction and the biggest-selling pulp fiction magazine in the early days of the Great Depression, *Love Story* sparked a wave of imitators that dominated newsstands for more than twenty years. Disparaged as a "love pulp," the magazine actually championed the "modern girl," bringing its heroines out of the shadows of Victorian poverty and into the 20th century. With *Love Story*'s success, Bacon became a national spokesperson, declaring that the modern woman could have it all—in love, in marriage and in the business world. Yet Bacon herself struggled to achieve that ideal, especially in her own romantic life, built around a long-term affair with a married man. Drawing on exclusive access to her personal papers, this first-ever biography tells the story behind the woman who influenced millions of others to pursue independence in their careers and in their relationships.

Last Letter to a Reader Jun 23 2023 Final work by internationally acclaimed Australian author Gerald Murnane, reflecting on his career as a writer, and the fifteen books which have led critics to praise him as 'a genius on the level of Beckett'. A book which will appeal equally to Murnane's legion of fans, and to those new to his work, attracted by his reputation as a truly original Australian writer. In the first days of spring in his eighty-second year,

Gerald Murnane began a project which would round off his career as a writer – he would read all of his books in turn and prepare a report on each. His original intention was to lodge the reports in two of his legendary archives, the Chronological Archive, which documents his life as a whole, and the Literary Archive, which is devoted to everything he has written. But as the reports grew, they themselves took on the form of a book, *Last Letter to a Reader*. The essays on each of his works travel through the capacious territory Murnane refers to as his mind: they dwell on the circumstances which gave rise to the writing, images, associations, reflections on the theory of fiction, and memories of a deeply personal kind. The final essay is on *Last Letter to a Reader* itself: it considers the elation and exhilaration which accompany the act of writing, and offers a moving ending to what must surely be his last work as death approaches. 'Help me, dear one, to endure patiently my going back to my own sort of heaven.' 'No living Australian writer, not even Les Murray, has higher claims to permanence or a richer sense of distinction' — Sydney Morning Herald 'The emotional conviction...is so intense, the somber lyricism so moving, the intelligence behind the chiseled sentences so undeniable, that we suspend all disbelief.' — J.M. Coetzee

Feminist Media Mar 21 2023 Feminist Media: From the Second Wave to the Digital Age analyses the relationship between second wave feminist media production and capitalism, as well as identifying the tradition that can be drawn between second wave feminism, Riot Grrrl and feminist blogging today. There has been a recent re-evaluation of the importance of second wave feminist media, demonstrated by the digitization of Spare Rib by the British Library in 2015. However, up until now, research on the magazine has been limited. This book analyses the relationship between Spare Rib and the capitalist publishing industry, comparing it to American feminist magazine Ms. The book argues that it is important to understand the cultural economies of the magazines as this had an impact on the assumed readership of the magazines, therefore having an impact on the issues that were privileged. The second half of the book charts a crucial and often overlooked link between feminist media production in the 'second wave' and more contemporary forms of feminist media activism.

As If Dec 06 2021 Many people throughout the world "inhabit" imaginary worlds communally and persistently, parsing Harry Potter and exploring online universes. These activities might seem irresponsibly escapist, but history tells another story. Beginning in the late nineteenth century, when Sherlock Holmes became the world's first "virtual reality" character, readers began to colonize imaginary worlds, debating serious issues and viewing reality in provisional, "as if" terms rather than through essentialist, "just so"

perspectives. From Lovecraft's Cthulhu Mythos and Tolkien's Middle-earth to the World of Warcraft and *Second Life*, *As If* provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine.

Letters of E. B. White, Revised Edition May 11 2022 Originally edited by Dorothy Lobrano Guth, and revised and updated by Martha White. With a foreword by John Updike. These letters are, of course, beautifully written but above all personal, precise, and honest. They evoke E.B. White's life in New York and in Maine at every stage of his life. They are full of memorable characters: White's family, the New Yorker staff and contributors, literary types and show business people, farmers from Maine and sophisticates from New York-Katherine S. White, Harold Ross, James Thurber, Alexander Woolcott, Groucho Marx, John Updike, and many, many more. Each decade has its own look and taste and feel. Places, too—from Belgrade (Maine) to Turtle Bay (NYC) to the S.S. Buford, Alaska-bound in 1923—are brought to life in White's descriptions. There is no other book of letters to compare with this; it is a book to treasure and savor at one's leisure. As White wrote in this book, "A man who publishes his letters becomes nudist—nothing shields him from the world's gaze except his bare skin....a man who has written a letter is stuck with it for all time."

Pauses in Production Mar 01 2024 "The responses of historical readers and their engagement in print culture remains a mystery in literary study. By recovering readers' letters to the editor in magazine culture, my dissertation recovers readers' efforts to evaluate and critique art, and thereby participate in the formation of taste. I argue that the social and cultural consequences of twentieth century literature cannot be fully understood without also considering the imbricated relationships of authors, editors, and readers within serialized print culture. I develop a hybrid methodology that draws from distant and close reading practices to explain readers' reactions to cultural production and to model the infectiousness of ideas within literature. This method makes a new intervention in literary debates about aesthetics and politics by ascertaining the ways readers evaluated style and, in doing so, energized literary taste with social, cultural, and political valences.

Drawing from interdisciplinary fields, such as social and data sciences, I examine the roles of these letters from various magazines, such as the NAACP's *The Crisis*, the avant-garde *Little Review*, the more broadly read *Poetry*, and the socialist magazine, *The Masses*. The interactions between readers, editors, and authors provide historical parallels to our contemporary moment in which ideologies circulate and compete online"--Author's abstract.

[Writing Themselves Into the Text](#) Jan 31 2024 This thesis examines the important and oft-neglected role of the Letter to the Editor in women's magazine culture. It does so through a textual analysis of letters and editorials in *Ms .*, an American feminist magazine which has, since its inception in 1972, set itself up as an alternative to "traditional" and "glossy" women's magazines. Informed by existing studies on historical and contemporary women's magazines, this thesis demonstrates how *Ms .*, with its unique way of addressing the reader and soliciting reader response, encourages its readers to become active participants in both the making and shaping of the text, and in the political process beyond the magazine. It shows how readers, through their letters, contribute to the on-going dialogue that is feminism, and forge connections to other readers. Paying close attention to how readers negotiate belonging to *Ms .* and build a sense of solidarity with others within this textually based medium, this thesis posits that it is through epistolarity, not the shared act of reading, that community is constituted. In drawing attention to the centrality of the Letter to the Editor in *Ms .*, this thesis raises our awareness of the non-participatory reality of most women's magazines.

Kurt Vonnegut Jul 25 2023 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Newsweek/The Daily Beast □ The Huffington Post □ Kansas City Star □ Time Out New York □ Kirkus Reviews This extraordinary collection of personal correspondence has all the hallmarks of Kurt Vonnegut's fiction. Written over a sixty-year period, these letters, the vast majority of them never before published, are funny, moving, and full of the same uncanny wisdom that has endeared his work to readers worldwide. Included in this comprehensive volume: the letter a twenty-two-year-old Vonnegut wrote home immediately upon being freed from a German POW camp, recounting the ghastly firebombing of Dresden that would be the subject of his masterpiece *Slaughterhouse-Five*; wry dispatches from Vonnegut's years as a struggling writer slowly finding an audience and then dealing with sudden international fame in middle age; righteously angry letters of protest to local school boards that tried to ban his work; intimate remembrances penned to high school classmates, fellow veterans, friends, and family; and letters of commiseration and encouragement to such contemporaries as Gail Godwin, Günter Grass, and Bernard Malamud. Vonnegut's unmediated observations on science, art, and commerce prove to be just as inventive as any found in his novels—from a crackpot scheme for manufacturing "atomic" bow ties to a tongue-in-cheek proposal that publishers be allowed to trade authors like baseball players. ("Knopf, for example, might give John Updike's contract to Simon and Schuster, and receive Joan Didion's contract in return.") Taken together, these letters add considerable depth to our understanding of this one-of-a-kind literary icon, in both his public and private lives. Each letter brims with the mordant humor and openhearted humanism upon which he built his legend. And virtually every page contains a quotable nugget that will make its way into the permanent Vonnegut lexicon. □ On a job he had as a young man: "Hell is running an elevator throughout eternity in a building with only six floors." □ To a relative who calls him a "great literary figure": "I am an American fad—of a slightly higher order than the hula hoop." □ To his daughter Nanny: "Most letters from a parent contain a parent's own lost dreams disguised as good advice." □ To Norman Mailer: "I am cuter than you are." Sometimes biting and ironical, sometimes achingly sweet, and always alive with the unique point of view that made him the true cultural heir to Mark Twain, these letters comprise the autobiography Kurt Vonnegut never wrote. Praise for Kurt Vonnegut: Letters "Splendidly assembled . . . familiar, funny, cranky . . . chronicling [Vonnegut's] life in real time."—Kurt Andersen, *The New York Times Book Review* "[This collection is] by turns hilarious, heartbreaking and mundane. . . . Vonnegut himself is a near-perfect example of the same flawed, wonderful humanity that he loved and despaired over his entire life."—NPR "Congenial, whimsical and often insightful missives . . . one of [Vonnegut's] very best."—*Newsday* "These

letters display all the hallmarks of Vonnegut's fiction—smart, hilarious and heartbreaking.”—The New York Times Book Review
