It's Figuration, Groundly John McGreal, 2017-02-21 John McGreal's three new books *It's Abstraction* *Concretely* *It's Figuration* *Groundly* and *It's Representation* Really continue the *It Series* published by Matador since 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago Emerging out of the first books on the *Bibliograph* published in 2016 initiated with *It's Nothing* *Seriously* these new texts retain some of the same structural features The *Bibliographs* contain the same focus on repetition and variation in meaning of their dominant motifs of representation abstraction and figuration which have framed philosophical discourse on epistemology and ontology in aesthetics their chance placement in each *Bibliograph* interspersed with one another displaying and enhancing similarities and differences At the same time these works constitute a development in the aesthetic form of the *Bibliograph* In earlier works on *Nothing* *Absence* and *Silence* it was just a question of finding and transferring given textual references from their source to construct their *Bibliographs* with the focus being on the strategic position of the latter within each book In these new works the concern has been with working on the line and shape of the references themselves with their enhanced spacial form as well as that of each *Bibliograph* as a whole In shaping and spacing the referential images the place of words and letters became as important as their semantic to read in a new way on diverse contemporary issues across conventional boundaries in the arts and sciences at several levels of physical psychical and social reproduction
