

Training Needs Assessment

Samples Questions

NWCPHP is available to develop training needs assessments to help public health agencies and partners identify workforce training needs. We have extensive experience working with state and local public health organizations to create training needs assessments, and we can customize our evaluation tools to answer questions of interest. The results of this assessment can be used by public health agencies to strategically develop an effective public health workforce and increase engagement between employees and leadership. Findings can also be used to provide data in support of accreditation requirements.

If you are interested in working with us to develop a training needs assessment, please complete our [evaluation request form](#) or contact [Luann D'Ambrosio](#), NWCPHP Associate Director.

The following is a sample of questions from the 2013 Regional Training Needs Assessment..

I. Public Health Core Competencies

1.1 Analytic/Assessment

	No training need	Low need for training	Moderate need for training	High need for training	Not applicable to job
Assessing population health status					
Identifying gaps in data sources					
Selecting methods for data collection					
Analyzing qualitative data (interviews, focus groups)					
Analyzing quantitative data (surveys/questionnaires, data sets)					
Identifying evidence-based public health interventions					
Using information technology to collect, store, and retrieve data					
Assessing environments (HIAs, GIS, conducting surveillance)					

1.2 Please specify any additional training needs related to workforce development that you may have.
