Studs Terkel Alan Wieder,2016-08-26 Wieder draws from over one hundred interviews of people who knew and worked with Studs to create a multidimensional portrait of a run of the mill guy from Chicago who in public life became an acclaimed author and storyteller while managing in his private life to remain a mensch From publisher description [Transforming Retirement](#) Janis Clark Johnston,2023-05-05 People are naturally worried about transitions at any stage of their lives and retirement transitioning presents unique challenges because you realize that your life clock is ticking faster with each passing year Beyond financial concerns your true wealth is determined by how you spend your time and how you care for your health Retirement represents a rich psychological growth time and successful aging is characterized by cultivating a growth mindset alongside a healthy dose of grit or passion plus persistence This book shares insights from a survey of 125 participants all of whom are 55 or older on retirement beliefs and time management The author encourages retirees to embrace the concept of rewiring their brains in a psychological reboot applying to both work and non work scenarios Each chapter presents rewiring exercises that prepare space for new possibilities to germinate immediately and possibility time exercises that foster digging deeper into legacy roots for shaping days where you can flourish Seasoned citizen years have the possibility of becoming your greatest life plots when you rewire your personality and ability skillset **Religion, Spirituality, and Aging** Harry R Moody,2012-12-06 Learn how to make a more positive impact with your social work with the aged Religion is an important coping mechanism for many aging adults Religion Spirituality and Aging A Social Work

Perspective presents the latest research that shows how religion and spirituality can improve quality of life for elders. Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves. The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint. Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging person's life may have on their physical and mental welfare. Organized social work in the early twentieth century actively tried to distance itself from its roots as a form of religious charity in favor of becoming a scientific and professional endeavor. Religion, Spirituality, and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discuss the issues of the aging soul while examining ways to improve care. Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question. The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas. Religion, Spirituality, and Aging discusses the latest social work trends and attitudes toward spirituality, prayer, meditation, and acts of altruism as interventions; an empirical study of how social workers use religion and spirituality as an intervention; ethical considerations and best practices; religion and spirituality during long-term care; the Postcards to God project; dreams and their relationship to the search for meaning in later life; a spiritual approach to positive aging through autobiography; dementia and spirituality; creating new rituals for sacred aging; spiritual master Henri Nouwen's principles of aging and his approaches to caring for older people; an interview study on elders' spirituality and the changes manifested in their views of religion. Religion, Spirituality, and Aging is a remarkable reminder that elders are our future selves. This erudite, well-reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers, human service professionals who work with the aged, and gerontology scholars.

The Injustices of Rape Catherine O. Jacquet, 2019-09-17 From 1950 to 1980 activists in the black freedom and women s liberation movements mounted significant campaigns in response to the injustices of rape These activists challenged the dominant legal and social discourses of the day and redefined the political agenda on sexual violence for over three decades How activists framed sexual violence as either racial injustice gender injustice or both was based in their respective frameworks of oppression The dominant discourse of the black freedom movement constructed rape primarily as the product of racism and white supremacy whereas the dominant discourse of women s liberation constructed rape as the result of sexism and male supremacy In The Injustices of Rape Catherine O Jacquet is the first to examine these two movement responses together explaining when and why they were in conflict when and why they converged and how activists both upheld and challenged them Throughout she uses the history of antirape activism to reveal the difficulty of challenging deeply ingrained racist and sexist ideologies the unevenness of reform and the necessity of an intersectional analysis to combat social injustice
