The volume authored by specialists based both inside and outside of Iran is divided into sections covering prehistory, the Chalcolithic, the Bronze Age, the Iron Age, the Achaemenid period, the Seleucid and Arsacid periods, the Sasanian period and the Arab conquest. In addition, more specialized chapters are included which treat numismatics, religion, languages, political ideology, calendrics, the use of color, textiles, Sasanian silver and reliefs, and political relations with Rome and Byzantium. No other single volume covers as much of Iran's archaeology and history with the same degree of authority.
