Arab Television Today Naomi Sakr, 2007-10-24 There is a great deal at stake for everyone in the future of Arab television Political and social upheavals in this central but unsettled region are increasingly played out on television screens and in the tussles over programming that take place behind them Al Jazeera is of course only one player among a still growing throng of satellite channels which now include private terrestrial stations in some Arab states It is an industry urgently needing to be made sense of this book does exactly this in a very readable and authoritative way through exploring and explaining the evolving structures and content choices in both entertainment and news of contemporary Arab television It shows how owners investors journalists presenters production companies advertisers regulators and media freedom advocates influence each other in a geolinguistic marketplace that encompasses the Arab region itself and communities abroad Probing internal and external interventions in the Arab television landscape the book offers a timely and compelling sequel to Naomi Sakr's *Satellite Realms Transnational Television Globalization and the Middle East* which won the Middle Eastern Studies Book Prize in 2003

The TV Arab Jack G. Shaheen, 1984 Dr Shaheen studying over 100 different popular entertainment programs cartoons and major documentaries telecast on network independent and public channels totaling nearly 200 episodes that relate to Arabs has thrown new and revealing light on the stereotypes of people from the Middle East

Arab Television Industries Joe F. Khalil, Marwan M. Kraidy, 2017-10-14 In recent years Arab television has undergone a dramatic and profound transformation from terrestrial government owned national channels to satellite privately owned transnational networks The latter is the Arab television that matters today economically socially and politically The resulting pan Arab industry is vibrant diverse and fluid very different the authors of this major new study argue from the prevailing view in the West which focuses only on the al Jazeera network Based on a wealth of primary Arabic language sources interviews with Arab television executives and the authors personal and professional experience with the industry *Arab Television Industries* tells the story of that transformation featuring compelling portraits of major players and institutions and captures dominant trends in the industry Readers learn how the transformation of Arab television came to be the different kinds of channels how programs are made and promoted and how they are regulated Throughout the analysis focuses on the interaction of the television industry with Arab politics business societies and cultures

Battle for Our Minds Michael Widlanski, 2012-03-06 From political communications expert Dr Michael Widlanski comes a rich and detailed portrayal of how intellectual arrogance and complacency in our government has led to a failure to effectively use counter terrorism intelligence When 3 000 people were murdered in simultaneous terror attacks on September 11 2001 The New York Times said the attacks came out of the blue Nothing could be further from the truth Arab Islamic terrorists had been

attacking the West for a decade in Arabia and Africa but the attacks began to focus on America itself with the World Trade Center strike in 1993 Dr Michael Widlanski describes other attacks and plots that were largely forgiven ignored or botched by academia media and government in this provocative book He paints a chilling portrait of how our top analytical institutions were unaware as terrorists bragged about their plans in mosques in New York and New Jersey while professors the media the FBI the CIA and CNN all dropped the ball Terrorists want to get into our head not into our house Their goal is not seizing territory but rather controlling the mind including manipulating communication and public opinion Combating terror means fighting on the battlefield of the mind Battle for Our Minds confronts this battle and shows how the West has been defeating itself Timely informative and thoroughly researched this is an eye opening portrayal of the top echelons of our country's counter terrorism system *The Lingering Conflict* Itamar Rabinovich,2013 A detailed history and analysis of Arab Israeli relations and the conflict between two peoples claiming the same land exploring through firsthand experience how these relations have been shaped over the years and assessing the prospects for a peaceful future Provided by publisher

Arab Media Noha Mellor,2011-05-16 This book provides a clear and authoritative introduction to the emerging Arab media industries in the context of globalization and its impacts with a focus on publishing press broadcasting cinema and new media Through detailed discussions of the regulation and economics of these industries the authors argue that the political technological and cultural changes on the global media scene have resulted in the reorganization of the Arab media field They provide striking examples of this through the particular effects on media policies media technology and the content and genres developed for the new generation of media consumers As part of the book's overview of the contemporary characteristics of Arab media the authors outline the development of the role of modern Arab media from a tool of mobilizing the public to a tool of commercial and symbolic profit Overall the volume illustrates how the Arab region represents a unique case where the commercialization and liberalization of selected media industries has gone hand in hand with continuous state intervention and an increasing self censorship Written for students without prior knowledge of the

and the Region is an expanded and updated version of Itamar Rabinovich's *The Lingering Conflict* published by Brookings in 2012. This new book offers a unique narrative of the Arab-Israeli conflict and peace process by a senior academic historian who has served as Israel's ambassador to the United States and as a peace negotiator with Syria. Rabinovich places the Arab-Israeli relationship in the larger context of Middle Eastern regional and international politics. He also examines Iran's and Turkey's new roles in the region. An equally important place is given to the U.S. policy in the Middle East and to the U.S. special relationship with Israel. This revised new edition covers the signing of the Abraham Accords, the new policies pursued by the Trump and Biden administrations, the full-fledged Syrian civil war, the heyday of the Islamic State, Russia's military intervention in Syria, the Iranian nuclear drive, and the lengthy domestic political crisis in Israel.

News from Abroad Donald R. Shanor, 2003-07-30

Over the last two decades following major conflicts in Kuwait, Kosovo, Afghanistan, and Iraq, Americans began to participate more actively than ever before in the world's numerous nationalist, religious, and ethnic conflicts. During this time, however, American news organizations drastically reduced the resources devoted to in-depth coverage of international affairs. Viewing foreign bureaus as an expensive luxury, major news providers closed overseas offices and cut the number of full-time correspondents working abroad, relying instead upon improvised news crews flown in on short notice to cover the latest crisis. In this insightful and hard-hitting investigation, former international news correspondent Donald R. Shanor follows the deterioration of international reporting and assesses the dangers that arise when U.S. citizens and policymakers are uninformed about foreign events until local problems erupt into international crises. Shanor also considers three major factors: technology, immigration, and globalization, that are influencing and complicating the debate over whether quality or profit should prevail in foreign reporting. In only a decade, the Internet has become a primary source of information

for millions of Americans particularly for younger generations At the same time a surge in America s immigrant population is rapidly changing the country s ethic and cultural landscape making news from abroad local news in many cities while global business practices are broadening the range of issues directly affecting the average citizen News from Abroad provides a comprehensive portrait of the contemporary state of international news coverage and argues for the importance of maintaining networks of experienced journalists who can cover difficult subjects keep Americans informed about the global economy deliver early warnings of impending disasters and threats to national security and prevent the United States from falling into cultural isolation

The Fog of Peace Gabrielle Rifkind,Giandomenico Picco,2013-12-17 Institutions do not decide whom to destroy or to kill whether to make peace or war those decisions are the responsibility of individuals This book argues that the most important aspect of conflict resolution is for antagonists to understand their opponents as individuals their ambitions their pains the resentments that condition their thinking and the traumas they do not fully themselves grasp Gabrielle Rifkind and Giandomenico Pico here present two very different experiences of international relations Rifkind as a psychotherapist now immersed in the politics of the Middle East and Picco as a career diplomat with a long and successful record as a negotiator at the UN Should we talk to the enemy What happens if the protagonists are nasty and brutish tempting policy makers to retaliate How do nations find the capacity not to hit back trapping themselves in endless cycles of violence Presenting a unique combination of psychological theories geopolitical realities and first hand peace making experience this book sheds new light on some of the worst conflicts in the modern world and demonstrates above all how empathy can often be far more persuasive than the most fearsome weapons By exploring the question of intervention versus non intervention and examining how the changing nature of warfare and technology has both armed the warmonger whilst empowering the individual through social media this is a highly topical comprehensive overview on international diplomacy and the complexities of peace making

HateSpeak in Contemporary Arabic Discourse Bahaa-eddin M. Mazid,2012-01-17 HateSpeak in Contemporary Arabic Discourse fills in an obvious gap in discourse studies on Arabic After a detailed semantic and metaphorical account of hate in English and its

equivalents in Arabic and an exploration of the causes of hate the book illustrates major cases of hate and HateSpeak in contemporary Arabic discourse Arabs vs Israel Sunnis vs Shi ites Ahly vs Zamalek Egypt vs Algeria Men vs Women Rebel vs Mainstream and Sa idi vs Cairene There is a separate section on HateSpeak in Arabic in the context of the revolutions in many Arab countries the Arab Spring with a focus on Egypt The book contains a number of apt and interesting digressions on hate in general and hate in Arabic in particular and a discussion of the issues involved in translating HateSpeak in Arabic The ultimate goal is not to celebrate hate and HateSpeak not to side with any party at the expense of another but to provide a diagnosis followed by a number of remedies that may help convert HateSpeak into HeartSpeak *Infantry* ,2007
