Judges on Judging Mar 03 2024 Thoroughly revised and updated for this Fifth Edition, *Judges on Judging* offers insights into the judicial philosophies and political views of those on the bench. Broad in scope, this one-of-a-kind book features "off-the-bench" writings and speeches in which Supreme Court justices, as well as lower federal and state court judges, discuss the judicial process, constitutional interpretation, judicial federalism, and the role of the judiciary. Engaging introductory material provides students with necessary thematic and historical context making this book the perfect supplement to present a nuanced view of the judiciary. "*Judges on Judging* is consistently rated by my students as their favorite book in my class. No other single volume provides them with such a clear and accessible sense of what judges do, what courts do, and the way judges think about their roles and their courts." —Douglas Edlin, Dickinson College

Liber Amicorum Judge Shigeru Oda (2 vols) Apr 04 2024 Judge Shigeru Oda, having served since 1976 in three successive nine-year terms on the International Court of Justice, has helped to shape the Court's jurisprudence for over a quarter century. His influence on the law of the sea spans an even longer period, beginning with his doctoral dissertation at Yale Law school in the 1950s and continuing with his involvement in the First, Second and Third UN Conferences on the Law of the Sea. In a tribute to Judge Oda's significant contributions to international law, leading scholars on the law of the sea, international dispute settlement and the ICJ itself have produced a Festschrift in his honour that promises to be a standard reference work on these topics for years to come. This two volume work, containing over 95 articles, begins by examining the role of the international judge and the jurisdiction of international tribunals (including reservations to jurisdiction, the Optional Clause, the Special Agreement, and the power to indicate special measures). It contains a particularly lively debate regarding the proliferation of international tribunals and whether the potential for conflicting decisions is problematic or productive. Other areas of focus include the history and current development of the law of the sea; the first in-depth examination of the establishment and first decisions of the International Tribunal for the Law of the Sea; and the ICJ's treatment of the development, doctrines and sources of international law. Further sections are devoted to International Litigation as analysed by leading practitioners; Land and Maritime Boundaries, International Watercourses and Other Waters; and Defence, the Use of Force and the Law of Armed Conflict. The composition of the editorial team - Nisuke Ando of Kyoto, Edward McWhinney of Ottawa and Rüdiger Wolfrum of Heidelberg - reflects Judge Oda's truly international career and the extent to which his work has drawn from and contributed to diverse legal traditions.
