The Integrity Advantage Adrian Robert Gostick, Dana Telford, 2003 With *The Integrity Advantage* Adrian Gostick and Dana Telford establish a burning platform that personal integrity is a proven competitive advantage in business. Prominent business leaders from some of North America's most respected companies including Don Graham of the Washington Post, former Johnson & Johnson CEO James Burke, and Hank Paulson Jr of Goldman Sachs discuss the role integrity has played in their successes and offer examples of the importance of integrity in business today. Not merely a collection of essays, the authors also share an effective system of decision making designed to help anyone implement integrity into every action. The importance of trust and credibility within business relationships is examined and discussed as Telford and Gostick illustrate how to juggle wealth, power, and responsibility and be a person of character. Given the recent uncertainty fostered by questionable corporate tactics, however, now is the time to examine what role integrity actually plays in business today and whether employees are naturally compelled to practice these values, particularly when the leaders they follow lack integrity in their own professional behavior. Dana Telford holds an MBA from Harvard University and has advised business leaders in the consumer banking, healthcare, publishing, retail, manufacturing, and real estate industries. He has developed and implemented strategies for client companies based all over the world. He lives in Morgan Utah. Adrian Gostick is director of marketing and corporate communications with the O C Tanner Recognition Company. His previous books include *Managing with Carrots* and *The 24 Carrot Manager*, co-authored with Chester Elton. He lives in Salt Lake City.

Morality, Competition, and the Firm Joseph Heath, 2014-08-01 In this collection of provocative essays, Joseph Heath provides a compelling new framework for thinking about the moral obligations that private actors in a market economy have toward each other and to society. In a sharp break with traditional approaches to business ethics, Heath argues that the basic principles of corporate social responsibility are already implicit in the institutional norms that structure both marketplace competition and the modern business corporation. In four new and nine previously published essays, Heath articulates the foundations of a market failures approach to business ethics. Rather than bringing moral concerns to bear upon economic activity as a set of foreign or externally imposed constraints, this approach seeks to articulate a robust conception of business ethics derived solely from the basic normative justification for capitalism. The result is a unified theory of business ethics, corporate law, economic regulation, and the welfare state, which offers a reconstruction of the central normative preoccupations in each area that is consistent across all four domains. Beyond the core theory, Heath offers new insights on a wide range of topics in economics and philosophy, from agency theory and risk management to social cooperation and the transaction cost theory of the firm.

Cambridge Handbook of Research Approaches to Business Ethics and Corporate Responsibility Patricia H. Werhane, R. Edward Freeman, Sergiy Dmytriyev, 2017-11-16 While there is a large and ever-expanding body of work on the fields of business ethics and corporate social responsibility (CSR), there is a noted absence of a single source on the methodology and research approaches to these fields. In this book, the first of its kind, leading scholars in the fields gather to analyse a range of philosophical and empirical approaches to research in business ethics and CSR. It covers such sections as historical approaches, normative and behavioural methodologies, quantitative, qualitative, and experimental perspectives, grounded theory, and case methodologies, and finally a section on the role of the researcher in research projects. This book is a valuable and essential read for all researchers in business ethics and CSR, not only for those starting out in the fields but also for seasoned scholars and academics.
