Book Associated General Contractors of Illinois,1963 **More Than a Motorcycle** Rich Teerlink,Lee Ozley,2000-09-18 In the late 1980s Harley Davidson beat back an assault by Japanese competitors and engineered a remarkable financial turnaround But it subsequently faced an even more formidable challenge maintaining and improving on its success in the absence of an external crisis To answer this challenge then CEO Rich Teerlink partnering with organizational consultant Lee Ozley threw out the top down strategies that had just saved the company and began building a different Harley one that would be driven not by top management but by employees at every level What happened next is the stuff of turnaround legend More Than a Motorcycle is the story behind the story of the purposeful transformation of an American icon as told by the two individuals most deeply involved in that decade long process The book chronicles the victories and setbacks along

Harley's difficult journey from a traditional command and control culture to an open participative learning environment. Teerlink and Ozley deliver three fundamental messages: people are a company's only sustainable competitive advantage; there is no quick fix to effect lasting beneficial organizational change; and leadership is not a person but a process to which everyone must contribute. They provide practical, reality-tested prescriptions for critical tasks like developing employee alignment, building structures that support participation, and implementing effective reward programs. Finally, they draw lessons from the Harley experience: lessons about values, trust, and community that apply broadly to any business. An against-the-odds story of a business road less traveled, this book encourages today's leaders to look around the next bend and to give every employee a view of the road from the driver's seat.
