the best practices are but they aren't using them or reinforcing them consistently He asserts that our schools are protected by a buffer a protective barrier that prevents scrutiny of instruction by outsiders The buffer exists within the school as well Teachers often know only what is going on in their classrooms and they may be completely in the dark about what other teachers in the school are doing Even principals says Schmoker don't have a clear view of the daily practices of teaching and learning in their schools Schmoker suggests that we need to get beyond this buffer to confront the truth about what is happening in classrooms and to allow teachers to learn from each other and to be supervised properly He outlines a plan that focuses on the importance of consistent curriculum authentic literacy education and professional learning communities for teachers What will students get out of this new approach Learning for life Schmoker argues passionately that students become learners for life when they have more opportunities to engage in strategic reading writing with explicit guidance and argument and discussion Through strong teamwork true leadership and authentic learning schools and their students can reach new heights Results Now is a rally cry for educators to focus on what counts If they do Schmoker promises the entire school community can count on unprecedented achievements Lots and Lots of Zebra Stripes Stephen R.

Early Learning Thematic Lesson Plans, Grades PK - 1 Sherrill B. Flora, M.S.,2005-01-02 Includes over 600 activities Reproducibles **You Can't Say You Can't Play** Vivian Gussin Paley,1993-07-16 Who of us cannot remember the pain and humiliation of being rejected by our classmates However thick skinned or immune to such assaults we may become as adults the memory of those early exclusions is as palpable to each of us today as it is common to human experience We remember the uncertainty of separating from our home and entering school as strangers and more than the relief of making friends we recall the cruel moments of our own isolation as well as those children we knew were destined to remain strangers In this book Vivian Paley employs a unique strategy to probe the moral dimensions of the classroom She departs from her previous work by extending her analysis to children through the fifth grade all the while weaving remarkable fairy tale into her narrative description Paley introduces a new rule You can't say you can't play to her kindergarten classroom and solicits the

opinions of older children regarding the fairness of such a rule We hear from those who are rejected as well as those who do the rejecting One child objecting to the rule says It will be fairer but how are we going to have any fun Another child defends the principle of classroom bosses as a more benign way of excluding the unwanted In a brilliant twist Paley mixes fantasy and reality and introduces a new voice into the debate Magpie a magical bird who brings lonely people to a place where a full share of the sun is rightfully theirs Myth and morality begin to proclaim the same message and the schoolhouse will be the crucible in which the new order is tried A struggle ensues and even the Magpie stories cannot avoid the scrutiny of this merciless pack of social philosophers who will not be easily caught in a morality tale You Can t Say You Can t Play speaks to some of our most deeply held beliefs Is exclusivity part of human nature Can we legislate fairness and still nurture creativity and individuality Can children be freed from the habit of rejection These are some of the questions The answers are to be found in the words of Paley s schoolchildren and in the wisdom of their teacher who respectfully listens to them
