5 pages | 1085 words

I tried to be circumspect in my deeds since was child. Maybe, I took after my father this feature because he is a businessman and should be proactive in making decisions. I wasn't that type of a child who didn't want to go to school and study, I liked doing homework, studying, and even writing various essays. When I was 14, I made my serious choice. I decided to get an academic education and become a businessman in the future. Since that time I tried to be specific in my goals and plans trying to get the best of possible opportunities.

My Career Goals During University

Many students perceive university life as a sort of fun. And it is no wonder because it is the time when you meet new people who become your soul mates forever. It is when you have serious relationships, break-ups, quarrels, even make a family. I understood that university life is valuable because we learn the basics of how to effectively communicate with people, work in teams, groups, solve problems, work with time management, make realistic plans. All this help you achieve success in an adult life. Once I attended a lecture lead by the CEO of one the top well known local private equity fund. He told that he received his education in Columbia business school. Unfortunately, that education wasn't enough to launch his own business. This man said that our university goals should be in learning more than what university can ever give us. It was something that amazed me. His words made me look at my long term goals even in a more perseverant way. I understood that in such a volatile modern world, the university education was not enough. I tried never to miss a chance to enroll in extra curricular activities. For instance, I attended open lectures in local business schools, additional lessons in management teams, sales team, Saturday discussions about the global economy, psychology courses, a center for entrepreneurship. I tried to absorb all information connected with the business world, market, innovations because as a future businessman I had to be well-rounded. It was the most significant part of my university goals in term of getting a theoretical education. I didn't stop only on studying the material because business is connected with practice. When I was a senior student at the University of Economics in Prague at the Faculty of Business Administration, I became more involved in family business. My father owns a company which does in-depth research on innovations, cooperates and searches competitive start-ups. When I was free from studying my father explained to me how his business works, gave me professional advice. He offered me a part-time job as a junior business development manager. I worked on weekends learning about market research, networking with other companies, negotiating with potential clients. By doing this, I wanted to discover target companies which could be useful in my future private business. I wanted to continue my father's business. My target towards career was to expand his company to other countries, and this will help reach my personal career goal. I've...

How To Set And Achieve Goals James David Rockefeller, Have you lately wondered what you have achieved in the last year or even in your life Do you feel like a lost ship that doesn't know where it is going or why is it moving at all Does it feel like you are living your life without any goals in sight If yes you probably need to focus on setting goals Having a goal in life gives you focus and direction It gives you control over where your life is heading It also provides a benchmark to determine your success in specific areas of your life Goal setting is important for achieving success and it doesn't matter which area of your life you want to succeed in If you want to succeed in the work arena you need to have goals to achieve If you need success in the relationships arena you need to set goals there too Whether it is your health relationships career or anything for success you need to set goals Your goals could be for the day such as I will complete a chapter of my book today Or it could be for a month such as I will showcase my products to five clients by the end of this month Or it could be for a year such as I will spend a hundred hours this year helping the needy It could also be for your life such as I want a house of my own In other words your goals are the dreams you have for yourself your life your family or for your career But a simple I want will not work It is not going to happen by saying I want and just sitting on the couch watching TV Your I want statements could get you started on what goals you would like to achieve But that's only the first step in goal setting So how can you set goals and achieve success What are the steps involved in setting and achieving your goals Read this guide and find out

Student Goals and Satisfaction with College Carolyn Sue Hofstrand, 1975 [Finish](#) Jon Acuff, 2018-12-04 1 Wall Street Journal bestseller Jon Acuff New York

Times best selling author of *Do Over* Quitter and *Start* offers strategies for anyone who's ever wondered Why can't I finish what I started According to studies 92 percent of New Year's resolutions fail You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals For years I thought my problem was that I didn't try hard enough So I started getting up earlier I drank enough energy drinks to kill a horse I hired a life coach and ate more superfoods Nothing worked although I did develop a pretty nice eyelid tremor from all the caffeine It was like my eye was waving at you very very quickly Then while leading a thirty day online course to help people work on their goals I learned something surprising The most effective exercises were not those that pushed people to work harder The ones that got people to the finish line did just the opposite they took the pressure off Why Because the sneakiest obstacle to meeting your goals is not laziness but perfectionism We're our own worst critics and if it looks like we're not going to do something right we prefer not to do it at all That's why we're most likely to quit on day two the day after perfect when our results almost always underperform our aspirations The strategies in this book are counterintuitive and might feel like cheating But they're based on studies conducted by a university researcher with hundreds of participants You might not guess that having more fun eliminating your secret rules and choosing something to bomb intentionally works But the data says otherwise People who have fun are 43 percent more successful Imagine if your diet guitar playing or small business was 43 percent more successful just by following a few simple principles If you're tired of being a chronic starter and want to become a consistent finisher you have two options You can continue to beat yourself up and try harder since this time that will work Or you can give yourself the gift of done
