Self-study exercises reinforce your understanding with matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions, as well as critical thinking assignments. Key terms and abbreviations at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Study outlines focus your review by listing the key points for each chapter. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Critical Thinking assignments are based on short, real-world vignettes, preparing you to work in a real medical office and allowing you to apply theory learned from the textbook. Updated mock fee schedules present the latest information available, for use in completing forms and activities. Expanded coverage of inpatient insurance billing includes ICD-10 coding and CMS coding, ensuring that you are prepared to work in healthcare facility settings as well as the physician's office and outpatient settings. Updated information on general compliance issues, HIPAA, the Affordable Care Act, and coding reflects changes to the Fordney's Medical Insurance and Billing, 16th Edition text. Ambulatory Surgery Center chapter provides the foundation and skills needed for billing in this outpatient setting. NEW! Additional procedures provide more practice, helping you remember the material. Understanding Health Insurance, Eleventh Edition, is the essential

learning tool your students need when preparing for a career in medical insurance billing. This comprehensive and easy-to-understand text is fully-updated with the latest code sets and guidelines, and covers important topics in the field like managed care, legal and regulatory issues, coding systems, reimbursement methods, medical necessity, and common health insurance plans. The eleventh edition has been updated to include new legislation that affects healthcare, ICD-10-CM coding, implementing the electronic health record, the Medical Integrity Program (MIP), medical review process, and more. The practice exercises in each chapter provide plenty of review, and the accompanying workbook provides even more application-based assignments and additional case studies for reinforcement. Includes free online StudyWARETM software that allows students to test their knowledge, free online SimClaim CMS-1500 claims completion software, and free-trial access to Ingenix's EncoderPro.com Expert encoder software. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Corresponding to the chapters in Health Insurance Today, 6th Edition, this workbook lets you practice the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and learning activities and exercises challenge you to apply your knowledge to real-world situations. This new edition incorporates the latest information surrounding ICD-10, the Patient Protection and Affordable Care Act, and other timely federal influencers. Additionally, application exercises, critical thinking activities, and case studies allow you to apply critical thinking skills to solve a problem or answer a question. Performance objectives include hands-on, application-based learning activities with practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out "Release to Return to Work" forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Includes Stop and Think exercises which allow you to apply critical thinking skills to problem solving. Defining Chapter Terms activities help you review and understand key terms in each chapter. Chapter assessments test your knowledge of text content with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem solving/collaborative (group) activities emphasize the importance of teamwork in the health care field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. NEW! Up-to-date information on all topics including key coverage of Medicare, Electronic Health Records, and Version 5010. NEW! Expanded ICD-10 coverage and removal of all ICD-9 content other than as reference material ensures you stay up-to-date on these significant healthcare system changes. Get hands-on practice in medical insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance and Billing, 16th Edition, this workbook provides realistic exercises that help you apply concepts and develop the critical thinking skills needed by insurance billing specialists. Review questions reinforce your understanding of your role and responsibilities, and assignments ask you to complete claim forms by extracting information from patient records and properly selecting procedural and diagnostic codes. Not only will you master the CMS-1500 and 837P claim forms, but you will understand each stage of an insurance claim. Self-study exercises reinforce your understanding with matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions, as well as critical thinking assignments. Key terms and abbreviations at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Study outlines focus your review by listing the key points for each chapter. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Critical Thinking assignments are based on short, real-world vignettes, preparing you to work in a real medical office and allowing you to apply theory

learned from the textbook. Updated mock fee schedules present the latest information available, for use in completing forms and activities. Expanded coverage of inpatient insurance billing includes ICD-10 coding and CMS coding, ensuring that you are prepared to work in healthcare facility settings as well as the physician's office and outpatient settings. Updated information on general compliance issues, HIPAA, the Affordable Care Act, and coding reflects changes to the Fordney's Medical Insurance and Billing, 16th Edition text. Ambulatory Surgery Center chapter provides the foundation and skills needed for billing in this outpatient setting. NEW! Additional procedures provide more practice, helping you remember the material. Many countries that subscribe to the Millennium Development Goals (MDGs) have committed to ensuring access to basic health services for their citizens. Health insurance has been considered and promoted as the major financing mechanism to improve access to health services, as well to provide financial risk protection. Corresponding to the chapters in Health Insurance Today, 7th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. This edition expands its focus on case studies and the use of practice management software, adding more opportunities for application in the medical office. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations, with Stop and Think exercises allowing you to apply critical thinking skills to solve a problem or answer a question. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Up-to-date information is included on all topics, including key topics like Medicare. NEW and expanded case studies and Internet Exploration activities are added. NEW! Additional performance objectives are included, using practice management software. NEW! Updated charts and forms are included. Understanding Health Insurance: A Guide to Professional Billing, 7th edition, utilizes a step-by-step approach to provide instruction about the completion of health insurance claims. The objectives of this edition are to 1) introduce information about major third party payers, 2) provide up-to-date information about federal health care regulations, 3) clarify coding guidelines and provide application exercises for each coding system, 4) introduce reimbursement issues, 5) emphasize the importance of coding for medical necessity, and 6) help users develop the skill to complete claims accurately.. Case studies and review exercises provide users with numerous opportunities to apply knowledge and develop skills in completing CMS-1500 claims accurately. The textbook CD-ROM and accompanying workbook provide additional exercises and practice in completing CMS-1500 claims electronically. Current information is provided on CPT-5 and ICD-10-CM coding systems. The appendices include information about processing the UB-92 (CMS-1450) and dental claims. Practice the skills you'll need to succeed in health insurance billing! Corresponding to the chapters in Health Insurance Today, 3rd Edition, by Janet I. Beik, this workbook offers preparation for the tasks you'll encounter on the job. Practical assignments reinforce the information in the textbook, and learning activities and exercises ask you to apply your knowledge to real-world situations. Defining Chapter Terms ask you to define the key terms in each chapter. Chapter

assessments test your knowledge of textbook content with multiple choice, true/false, short answer, and fill-in-the-blank questions. More than 60 case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Critical Thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Group problem solving activities emphasize the importance of teamwork in the health care field. Internet Exploration exercises in each chapter introduce valuable health insurance resources available online. Performance objectives include hands-on, application-based learning activities with practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out "Release to Return to Work" forms, and filling out Medicare appeals. Application exercises ask you to apply your knowledge and skills to real-world situations. Additional coding exercises offer more practice with coding from the ICD-9-CM and CPT manuals. Self-evaluations include a checklist of what you should have completed for each chapter. Performance evaluations in each chapter track your progress and your overall performance in the course. Updated Conquering Medicare's Challenges chapter reflects the latest changes to Medicare. Coverage of the Electronic Health Record has been added to The Role of Computers in Health Insurance chapter. ICD-10-CM and ICD-10-PCS content has been expanded to address medical coding's transition from ICD-9. Information on the latest standards for HIPAA Transaction 5010 is included. On the companion Evolve website: Medisoft version 16 exercises let you apply skills using standard medical office software (Medisoft sold separately). Electronic forms make it easy to complete workbook exercises on the computer and turn in clean claim forms to your instructor. Guided Completion software gives direction and corrects your work as you complete a CMS-1500 form block-by-block. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve real-world problems related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform and evaluate research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Additional content on cybersecurity emphasizes the importance of keeping digital information private and secure. NEW! Information on crowdfunding for medical bills discusses how this practice affects billing. NEW! Interactive VST eBook provides a seamless digital experience. NEW! Coverage of COVID-19 explores its impact on billing, reimbursement, and employment. Gain real-world practice in insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance, 15th Edition, this workbook provides realistic, hands-on exercises that help you apply concepts and develop critical thinking skills. Study tools include chapter overviews, key terms, chapter review exercises, and case study assignments. Additionally, this workbook helps you develop a better understanding of the differences among the insurance programs when completing and electronically transmitting the 837 P or the CMS-1500 paper claim. Key terms and abbreviations lists at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Performance objectives make learning easy by highlighting what you need to accomplish in each chapter. Study outlines focus review by listing key points for each chapter. Self-study exercises – including matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions – help you practice important concepts. Critical Thinking Assignments in the form of short, real-world vignettes prepare you for working in a real medical office and allow you to apply theory learned from the textbook. NEW! Expanded coverage of inpatient insurance billing, including ICD-10 coding and CMS provides you with the foundation and skills needed to work in the physician office, outpatient, and inpatient setting. NEW! Ambulatory Surgical Center (ASC) billing chapter provides you with the foundation and skills needed to work in this outpatient setting. NEW! Updated information on general compliance issues, HIPAA, Affordable Care Act and coding reflects changes to the main text. The restructured chapter content of the workbook offers application-based assignments with more critical thinking components. The assignments require learners to demonstrate an understanding of the content rather than simple recall of facts. Chapter 1 provides guidelines for professional development as well as initiating a job search, with numerous resources identified. Chapters 2-17 offer an in-depth review of health insurance billing and reimbursement concepts. The student workbook (available separately) is designed to help you retain key chapter content. Included within this resource are chapter objective questions; key-term definition queries; and multiple-choice, fill-in-the-blank, and true-or-false problems. The workbook also contains a revised CMRS and CPC-P Mock Exam and a CPB Mock Exam that is new to this edition. Gain real-world practice in insurance billing and coding!
