New Jersey Governor Brendan Byrne Dec 30 2023 Known by mobsters as “the man who couldn’t be bought,” Brendan Byrne led New Jersey into a new era when he won the state’s gubernatorial election by a landslide in the wake of political corruption scandals. A former prosecutor and judge, Byrne was soon condemned as “one-term Byrne,” the inept politician who few thought would risk the humiliation of standing for a second term. Yet Byrne surprised both friend and foe alike by pulling off the state’s most remarkable political comeback, winning re-election and leaving a legacy of preserving the vast resources of the Pinelands, enacting the state’s first income tax and comprehensive school financing reform, developing the Meadowlands, approving casino gambling in Atlantic City, and initiating strong environmental controls to combat pollution.

In the Godfather Garden Apr 02 2024 In the Godfather Garden is the true story of the life of Richie “the Boot” Boiardo, one of the most powerful and feared men in the New Jersey underworld. The Boot cut his teeth battling the Jewish gang lord Abner Longy Zwillman on the streets of Newark during Prohibition and endured to become one of the East Coast’s top mobsters, his reign lasting six decades. To the press and the police, this secretive Don insisted he was nothing more than a simple man who enjoyed puttering about in his beloved vegetable garden on his Livingston, New Jersey, estate. In reality, the Boot was a confidante and kingmaker of politicians, a friend of such celebrities as Joe DiMaggio and George Raft, an acquaintance of Joseph Valachi—who informed on the Boot in 1963—and a sworn enemy of J. Edgar Hoover. The Boot prospered for more than half a century, remaining an active boss until the day he died at the age of ninety-three. Although he operated in the shadow of bigger Mafia names across the Hudson River (think Charles “Lucky” Luciano and Louis “Lepke” Buchalter, a cofounder of the Mafia killer squad Murder Inc. with Jacob “Gurrah” Shapiro), the Boot was equally as brutal and efficient. In fact, there was a mysterious place in the gloomy woods behind his lovely garden—a furnace where many thought the Boot took certain people who were never seen again. Richard Linnett provides an intimate look inside the Boot’s once-powerful Mafia crew, based on the recollections of a grandson of the Boot himself and complemented by never-before-published family photos. Chronicled here are the Prohibition gang wars in New Jersey as well as the murder of Dutch Schultz, a Mafia conspiracy to assassinate Newark mayor Kenneth Gibson, and the mob connections to several prominent state politicians. Although the Boot never saw the 1972 release of *The Godfather*, he appreciated the similarities between the character of Vito Corleone and himself, so much so that he hung a sign in his beloved vegetable garden that read “The Godfather Garden.” There’s no doubt he would have relished David Chase’s admission that his muse in creating the HBO series *The Sopranos* was none other than “Newark’s erstwhile Boiardo crew.”

Metropolitan Desegregation Jan 31 2024 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University. From 1976 to 1981, the team observed the progress of school desegregation in metropolitan Wilmington, Delaware, which encompasses New Castle County. The project was made possible by a grant from the Rockefeller Foundation, Division of Social Sciences. Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities. Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas. In a 1977 statement, the U. S. Commission on Civil Rights called metropolitan school desegregation "the last frontier to be crossed in the long judicial effort to make equal educational opportunity . . . a living reality. " Moreover, the National Task Force on Desegregation Strategies concluded in 1979, The simple demographic fact is that many large city school districts cannot desegregate by themselves. For children in such districts, the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies--i. e. , desegregation plans which do not stop at the city line, but rather encompass at least some of the surrounding suburban areas. (p. 1) The Michigan State University research team began its investigation in New Castle County, Delaware, after a three-judge federal district court ruled that area schools were illegally segregated between districts.

David Fincher: Mind Games Jul 25 2023 David Fincher: Mind Games is the definitive critical and visual survey of the Academy Award– and Golden Globe–nominated works of director David Fincher. From feature films *Alien 3*, *Seven*, *The Game*, *Fight Club*, *Panic Room*, *Zodiac*, *The Curious Case of Benjamin Button*, *The Social Network*, *The Girl With the Dragon Tattoo*, *Gone Girl*, and *Mank* through his MTV clips for Madonna and the Rolling Stones and the Netflix series *House of Cards* and *Mindhunter*, each chapter weaves production history with original critical analysis, as well as with behind the scenes photography, still-frames, and original illustrations from Little White Lies' international team of artists and graphic designers. Mind Games also features interviews with Fincher's frequent collaborators, including Jeff Cronenweth, Angus Wall, Laray Mayfield, Holt McCallany, Howard Shore and Erik Messerschmidt. Grouping Fincher's work around themes of procedure, imprisonment, paranoia, prestige and relationship dynamics, Mind Games is styled as an investigation into a filmmaker obsessed with investigation, and the design will shift to echo case files within a larger psychological profile.

Chaucer and Italian Culture Feb 17 2023 Chaucerian scholarship has long been intrigued by the nature and consequences of Chaucer's exposure to Italian culture during his professional visits to Italy in the 1370s. In this volume, leading scholars take a new and more holistic view of Chaucer's engagement with Italian cultural practice, moving beyond the traditional 'sources and analogues' approach to reveal the varied strands of Italian literature, art, politics and intellectual life that permeate Chaucer's work. Each chapter examines from different angles links between Chaucerian texts and Italian intellectual models, including poetics, chorography, visual art, classicism, diplomacy and prophecy. Echoes of Petrarch, Dante and Boccaccio reverberate throughout the book,

across a rich and diverse landscape of Italian cultural legacies. Together, the chapters cover a wide range of theory and reference, while sharing a united understanding of the rich impact of Italian culture on Chaucer's narrative art.

Ninth Symposium (International) on Combustion Jan 07 2022 Ninth Symposium (International) on Combustion covers the proceedings of the Ninth Symposium (International) on Combustion, held at Cornell University in Ithaca, New York on August 27 to September 1, 1962, under the auspices of the Combustion Institute. The book focuses on the processes and reactions involved in combustion. The selection first offers information on flame strength of propane-oxygen flames at low pressures in turbulent flow and mixing and flow in ducted turbulent jets. Topics include radial profile of the jetting velocity, radial growth of the jet, and mixing zones of a ducted jet. The text then elaborates on turbulent flame studies in two-dimensional open burners; turbulent mass transfer and rates of combustion in confined turbulent flames; and flame stabilization in a boundary layer. The publication examines the theoretical study of properties of laminar steady state flames as a function of properties of their chemical components and spectra of alkali metal-organic halide flames. The text then takes a look at the thermal radiation theory for plane flame propagation in coal dust clouds; flame characteristics of the diborane-hydrazine system; and studies of the combustion of dimethyl hydrazine and related compounds. The selection is a dependable reference for readers interested in the processes and reactions involved in combustion.
