**Nancy Caroline's Emergency Care in the Streets** Oct 18 2022 Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity. Throughout her life, Dr. Caroline brought a sense of excitement, joy, and humor to her work. The American Academy of Orthopaedic Surgeons is proud to continue Dr. Caroline's legacy. Her sense of excitement and humor live on in this text, which is dedicated to her. The Sixth Edition honors Dr. Caroline's work with a clear, fun, understandable writing style for which she was known. Welcome back a familiar training companion to your classroom! Say hello to Sidney Sinus, AV Abe, and a cast of memorable characters and amusing anecdotes. Make learning for your students more fun!

**Legal Essentials of Health Care Administration** Jul 27 2023 Using the same approach, this text provides a distillation of the widely popular *Legal Aspects of Health Care Administration*. It presents an overview of health law topics in an interesting and understandable format, leading the reader through the complicated maze of the legal system. The topics presented in this book create a strong foundation in health law. This book is a sound reference for those who wish to become more informed about how the law, ethics, and health care intersect. Features: A historical perspective on the development of hospitals, illustrating both their progress and failures through the centuries. Actual court cases, state and federal statutes, and common-law principles are examined. A broad discussion of the legal system, including the sources of law and government organization. A basic review of tort law, criminal issues, contracts, civil procedure and trial

practice, and a wide range of real life legal and ethical dilemmas that caregivers have faced as they wound their way through the courts. An overview of various ways to improve the quality and delivery of health care.
