imperial calendar (title varies), Covers receipts and expenditures of appropriations and other funds. Electrical Load-Curve Coverage covers the proceedings of the Symposium on Load-Curve Coverage in Future Electric Power Generating Systems, organized by the Committee on Electric Power, United Nations Economic Commission for Europe, Rome, Italy, on October 24-28, 1977. This symposium considers the opportunity for an international exchange of economic and technical information on problems connected with the coverage of the full load curve. This book is composed of five parts encompassing 48 chapters, and begins with the optimum composition of the generating system. The first part considers the use of mathematical models for optimization of energy sources in some countries. The succeeding parts deal with the means of electricity generation for the variable part of the load curve. This part examines the electric consumption of steam and gas turbines and the concept of peak-power load. Other parts discuss the means of storage at user level. The final parts consider natural characteristics of the energy demand (load curves). This book will prove useful electrical engineers and researchers. Evidence suggests that the MoJ did not have a sufficient understanding of the complexities of court interpreting work. Significant concern was revealed that quality standards could be diminished by the imposition of a tiered system to enable a wider pool of interpreters, and by the introduction of lower levels of pay. However, the Department pushed ahead with the contract and failed to properly anticipate or address the potential for problems with Applied Language Solutions' (ALS) capacity to deliver on its promises. ALS, and more recently Capita, has been unable to recruit qualified and experienced interpreters in sufficient numbers. Professional interpreters have largely boycotted the new arrangements and Capita-ALS clearly needed significantly more resources than it had at its disposal. It also only paid lip service to the regulatory duties accepted under the Framework Agreement, yet did not have the capacity to cope with complaints or to implement basic vetting procedures. The MoJ has had to monitor Capita-ALS very closely to secure the level of improvement necessary to make the Agreement workable, and continues to do so. The existing arrangements may not be financially sustainable as Capita is propping up the continuation of the Agreement, which mean that the Department's savings, originally projected to be £15million, are effectively being secured at the company's expense. Actions taken by MoJ also had

the effect of hampering the inquiry when HMCTS issued an edict to its staff instructing them not to participate in the Committee's online consultation, established to invite direct observations from frontline staff of the performance of ALS Includes: The British or imperial almanac, A Companion to the British imperial calendar, and An Alphabetical index to the imperial calendar (title varies), The Military Balance 2013 is the annual assessment of the military capabilities and defence economics of 171 countries world-wide.
