

Summary and Response Essay Sample

Summary:

In Laurie Ouelette and Susan Murray's piece "Reality TV: Remaking Television Culture," the elements of this new medium of entertainment are explored. Much of the exploration seems to analyze and reiterate how much this type of entertainment is new and yet it has been around since 1950. The writers examine the structure of reality programming and how it has adapted to contemporary viewing habits. The commercial implications are also examined in that these shows make a large amount of profit for a small investment. The sum of the total parts leads the reader to question not the role of television reality, but really why does it draw in so many viewers.

The concept of reality television can be seen in early television programming in the quiz shows of the 1950's. The core elements involved in reality television were: the hiring of non-actors, or "contestants", who are not in any way scripted, there is also an "unpredictable outcome" (Silverman, Rader 160), and this is what viewers tuned in for. In the case of the quiz shows there were prizes as there are in many of the current shows, but this is not a core element for reality television. The continued history of reality television's conception and growth can be seen in programs like *Star Search* which established the talent search genre of reality television. The same core elements of unscripted non-actors who performed in a capacity to win a prize with outcomes being unpredictable can be seen shows like in *Star Search*. One only needs to point to contemporary television programming to see the correlation, or perhaps the template set by *Star Search*, shows like *American Idol*, *The Voice* and *The X Factor* contain all the same core elements. Other television shows

Why They Can't Write John Warner,2018-12-03 An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing There seems to be widespread agreement that when it comes to the writing skills of college students we are in the midst of a crisis In *Why They Can t Write* John Warner who taught writing at the college level for two decades argues that the problem isn t caused by a lack of rigor or smartphones or some generational character defect Instead he asserts we re teaching writing wrong Warner blames this on decades of educational reform rooted in standardization assessments and accountability We have done no more Warner argues than conditioned students to perform writing related simulations which pass temporary muster but do little to help students develop their writing abilities This style of teaching has made students passive and disengaged

Worse yet it hasn't prepared them for writing in the college classroom. Rather than making choices and thinking critically as writers, must undergraduates simply follow the rules such as the five paragraph essay designed to help them pass these high stakes assessments. In *Why They Can't Write* Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system. Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education, this book challenges readers to develop the skills, attitudes, knowledge, and habits of mind of strong writers.

"They Say" Gerald Graff, Cathy Birkenstein, 2016. THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATE. The New York Times best selling book on academic writing in use at more than 1,500 schools.

You Just Don't Understand Deborah Tannen, 2013-04-23. From the author of New York Times bestseller *You're Wearing That*, this bestselling classic work draws upon groundbreaking research by an acclaimed sociolinguist to show that women and men live in different worlds made of different words. Women and men live in different worlds made of different words. Spending nearly four years on the New York Times bestseller list, including eight months at number one, *You Just Don't Understand* is a true cultural and intellectual phenomenon. This is the book that brought gender differences in ways of speaking to the forefront of public awareness. With a rare combination of scientific insight and delightful, humorous writing, Tannen shows why women and men can walk away from the same conversation with completely different impressions of what was said. Studded with lively and entertaining examples of real conversations, this book gives you the tools to understand what went wrong and to find a common language in which to strengthen relationships at work and at home. A classic in the field of interpersonal relations, this book will change forever the way you approach conversations.

Genealogies: Writing Instruction for Success in College and in the Workplace Charles A. MacArthur, Zoi A. Philippakos, 2023-12. This book describes an innovative, evidence-based method for preparing students for the demands of college writing called Supporting Strategic Writers (SSW). The goal of SSW is to help students become independent learners who understand the value of strategies and can apply them flexibly in future courses and the workplace. The text provides genre-based strategies for rhetorical analysis, planning, evaluation, and revision; critical reading of sources; and synthesis of sources that are part of college composition and applicable across contexts and course assignments. Equally important to the SSW approach is that students learn metacognitive strategies for goal setting, task management, progress monitoring, and reflection. Instructional methods include discussion of model essays, think-aloud modeling of

strategies collaborative writing peer review and self evaluation and reflective journaling Book Features Integrates three critical components strategies for critical reading and writing metacognitive strategies to help students take control of their learning and pedagogical strategies Provides research based approaches for teaching developmental writing courses first year composition summer bridge programs and first year seminars Offers thorough explanations of the strategies and instructional methods with practical examples and support materials for instructors Based on two years of design research and three experimental studies which found significant positive effects on writing quality and motivation with college students in developmental writing courses [The Federalist Papers](#) Alexander Hamilton, John Jay, James
