*Consumer Health and Integrative Medicine: A Holistic View of Complementary and Alternative Medicine Practices* Second Edition was written to expand upon the many alternative modalities that many other consumer health texts overlook. It includes chapters on the major alternative medicine systems and healing modalities including Ayurvedic medicine, traditional Chinese medicine, naturopathy, homeopathic medicine, chiropractic medicine, massage, reflexology, and herbals or botanicals. [Consumer Survival \[2 volumes\]](#) Wendy Reiboldt, Melanie Horn Mellers, 2013-11-26. Designed to empower readers to advocate for themselves and others, this wide-ranging encyclopedia reveals a surprising range of resources and options that consumers have at their disposal. The only book of its kind, this two-volume alphabetically arranged reference covers a broad array of topics related to consumer rights, including those of interest to often overlooked populations such as older adults, veterans, and the homeless. Specific entries address critical areas including food and product safety, housing, health care, the financial industry, the automobile industry, and telecommunications. The encyclopedia reviews the historical development of the consumer movement, examines beliefs and values that drive the movement, and identifies agencies and laws intended to safeguard consumers. Expert contributors discuss key current issues as well as those likely to arise in the future. Vignettes and case studies are used throughout, and various, sometimes contrasting, viewpoints are shared to help readers better understand the content. Related topics are easily discovered through a "see also" list, and additional readings are provided at the end of each entry.
