Stories of blind people who use creativity and determination to live the life of their dreams. Also includes lists of resources for advocacy, rehabilitation, recreation, and support systems for the blind. Since the eighteenth century, European administrators and officers, military men, soldiers, missionaries, doctors, wives, and servants moved back and forth between Britain and its growing imperial territories. The introduction of steam-powered vessels, and deep-docks to accommodate them at London ports, significantly reduced travel time for colonists and imperial servants traveling home to see their families, enjoy a period of study leave, or recuperate from the tropical climate. With their minds enervated by the sun, livers disrupted by the heat, and blood teeming with parasites, these patients brought the empire home and, in doing so, transformed medicine in Britain. With *Imperial Bodies in London*, Kristin D. Hussey offers a postcolonial history of medicine in London. Following mobile tropical bodies, her book challenges the idea of a uniquely domestic medical practice, arguing instead that British medicine was imperial medicine in the late Victorian era. Using the analytic tools of geography, she interrogates sites of encounter across the imperial metropolis to explore how medical research and practice were transformed and remade at the crossroads of empire. David Bordwell and Kristin Thompson are two of America’s preeminent film scholars. You would be hard pressed to find a serious student of the cinema who hasn’t spent at least a few hours huddled with their seminal introduction to the field—*Film Art*, now in its ninth edition—or a cable television junkie unaware that the Independent Film Channel sagely christened them the “Critics of the Naughts.” Since launching their blog *Observations on Film Art* in 2006, the two have added web virtuosos to their growing list of accolades, pitching unconventional long-form pieces engaged with film artistry that have helped to redefine cinematic storytelling for a new age and audience. *Minding Movies* presents a selection from over three hundred essays on genre movies, art films, animation, and the business of Hollywood that have graced Bordwell and Thompson’s blog. Informal pieces, conversational in tone but grounded in three decades of authoritative research, the essays gathered here range from in-depth analyses of individual films such as *Slumdog Millionaire* and *Inglourious Basterds* to adjustments of Hollywood media claims and forays into cinematic humor. For Bordwell and Thompson, the most fruitful place to begin is how movies are made, how they work, and how they work on us. Written for film lovers, these essays—on topics ranging from *Borat* to blockbusters and back again—will delight current fans and gain new enthusiasts. Serious but not solemn, vibrantly informative without condescension, and above all illuminating reading, *Minding Movies* offers ideas sure to set film lovers thinking—and keep them returning to the silver screen. Drawing on a wide range of films from the 1920s to the 1990s—from *Keaton’s Our Hospitality* to *Casablanca* to *Terminator 2*, Kristin Thompson offers the first in-depth analysis of Hollywood’s storytelling techniques and how they are used to make complex, easily comprehensible, entertaining films. “Classical works have for us become covered with the glassy armor of familiarity,” wrote Victor Shklovsky in 1914. Here Kristin Thompson “defamiliarizes” the reader with eleven different films. Developing the technique formulated in her *Eisenstein’s Ivan the Terrible* (Princeton, 1981), she clearly demonstrates the flexibility of the neoformalist approach. She argues that critics often use cut-and-dried methods and choose films that easily fit those methods. Neoformalism, on the other hand, encourages the critic to deal with each film differently and to modify his or her analytical assumptions continually. Thompson’s analyses are thus refreshingly varied and revealing, ranging from an ordinary Hollywood film, *Terror by Night*, to such masterpieces as *Late Spring* and *Lancelot du Lac*. She proposes a formal historical way of dealing with realism, using *Bicycle Thieves* and *The Rules of the Game* as examples. *Stage Fright* and *Laura* provide cases in which the classical cinema defamiliarizes its own conventions by playing with audience expectations. Other chapters deal with *Tati’s Les Vacances de Monsieur Hulot* and *Play Time* and *Godard’s Tout va bien* and *Sauve qui peut* (la vie). Although neoformalist analysis is a rigorous, distinctive approach, it avoids extensive specialized vocabulary and esoteric concepts: the essays here can be read separately by those interested in the individual films. The book’s overall purpose, however, goes beyond making these particular films more accessible and intriguing to propose new ways of looking at cinema as a whole. *Film Analysis* offers concise analyses of fifty diverse and historically significant films—each written exclusively for the text by a leading scholar. Written with the undergraduate in mind, the essays are clear, readable, and great models for students to follow in helping them to hone their own writing. The Second Edition includes six new essays, a new, detailed guide to writing film analysis, and an extensive, up-to-date glossary of critical film terms. This comprehensive survey not only acknowledges the contributions of Hollywood and films from other US sources, but broadens its scope to examine film-making internationally. From the *New York Times* bestselling author Kristin Hannah comes a powerful novel of love, loss, and the magic of friendship. . . . now a #1 Netflix series! In the turbulent summer of 1974, Kate Mularkey has accepted her place at the bottom of the eighth-grade social food chain. Then, to her amazement, the “coolest girl in the world” moves in across the street and wants to be her friend. Tully Hart seems to have it all---beauty, brains, ambition. On the surface they are as opposite as two people can be: Kate, doomed to be forever uncool, with a loving family who mortifies her at every turn. Tully, steeped in glamour and mystery, but with a secret that is destroying her. They make a pact to be best friends forever; by summer’s end they’ve become TullyandKate. Inseparable. So begins Kristin Hannah’s magnificent new novel. Spanning more than three decades and playing out across the ever-changing face of the Pacific Northwest, *Firefly Lane* is the poignant, powerful story of two women and the friendship that becomes the bulkhead of their lives. From the beginning, Tully is desperate to prove her worth to the world. Abandoned by her mother at an early age, she longs to be loved unconditionally. In the glittering, big-hair era of the eighties, she looks to men to fill the void in her soul. But in the buttoned-down nineties, it is television news that captivates her. She will follow her own blind ambition to New York and around the globe, finding fame and success . . . and loneliness. Kate knows early on that her life will be nothing special. Throughout college, she pretends to be driven by a need for success, but all she really wants is to fall in love and have children and live an ordinary life. In her own quiet way, Kate is as driven as Tully. What she doesn’t know is how being a wife and mother will change her . . . how she’ll lose sight of who she once was, and what she once wanted. And how much she’ll envy her famous best friend. . . . For thirty years, Tully and Kate buoy each other through life, weathering the storms of friendship---jealously, anger, hurt, resentment. They think they’ve survived it all until a single act of betrayal tears them apart . . . and puts their courage and friendship to the ultimate test. *Firefly Lane* is for anyone who ever drank Boone’s Farm apple wine while listening to *Abba* or *Fleetwood Mac*. More than a coming-of-age novel, it’s the story of a generation of women who were both blessed and cursed by choices. It’s about promises and secrets and betrayals. And ultimately, about the one person who really, truly knows you---and knows what has the power to hurt you . . . and heal you. *Firefly Lane* is a story you’ll never forget . . . one you’ll want to pass on to your best friend. *Film* is an art form with a language and an aesthetic all its own. This edition has been re-designed in colour greatly enhancing the text’s visual appeal and overall accessibility to today’s students. The text is supported by a CD-ROM with video clips, and text-specific website. *Film* is an art form with a language and an aesthetic all its own, and since 1979 David Bordwell and Kristin Thompson’s *Film Art* has been the most respected introduction to the art and analysis of cinema. In the new seventh edition, *Film Art* continues its commitment to providing the best introduction to the fundamentals of serious film study - images throughout the book are collected from actual film frames, not from production stills or advertising photos - but the book has been extensively re-designed to improve readability and teachability. Additionally, the text can be packaged with the award-winning *Film, Form, and Culture* CD-ROM, and is supported by an extensive Instructor’s Manual and text-specific website. Alex, whose birthday it is, hijacks a story about *Birthday Bunny* on his special day and turns it into a battle between a supervillain and his enemies in the forest--who, in the original story, are simply planning a surprise party. Challenging long-held theories of scientific rationality and remoteness, Kristin Shrader-Frechette argues that research cannot be ‘value free.’ Rather, any research will raise important moral issues for those involved, issues not only of truthfulness but of risk to research subjects, third parties, and the general public. Sustainable Literature Committee’s 2018 Green Prize Winner •One of Bustle’s “17 Best Nonfiction Books Coming Out In June 2018” • One of The Revelator’s “16 New Environmental Books for June” • One of *Equinox’s* “5 Books High Performers Should Read in June” • One of *Foodtank’s* “18 Books Making a Splash This Summer” •One of *CivilEats’* “22 Noteworthy Food and Farming Books for Summer Reading—and Beyond” From the voice of a new generation of food activists, a passionate and deeply-researched call for a new food movement. If you think buying organic from Whole Foods is protecting you, you’re wrong. Our food—even what we’re told is good for us—has changed for the worse in the past 100 years, its nutritional content deteriorating due to industrial farming and its composition altered due to the addition of thousands of chemicals from pesticides to packaging. We simply no longer know what we’re eating. In *Formerly Known as Food*, Kristin Lawless argues that, because of the degradation of our diet, our bodies are literally changing from the inside out. The billion-dollar food industry is reshaping our food preferences, altering our brains, changing the composition of our microbiota, and even affecting the expression of our genes. Lawless chronicles how this is happening and what it means for our bodies, health, and survival. An independent journalist and nutrition expert, Lawless is emerging as the voice of a new generation of food thinkers. After years of “eat this, not that” advice from doctors, journalists, and food faddists, she offers something completely different. Lawless presents a comprehensive explanation of the problem—going beyond nutrition to issues of food choice, class, race, and gender—and provides a sound and simple philosophy of eating, which she calls the “Whole Egg Theory.” Destined to set the debate over food politics for the next decade, *Formerly Known as Food* speaks to a new generation looking for a different conversation about the food on our plates. Naomi Klein, author of *No Is Not Enough* and *This Changes Everything*:“In this revelatory survey of the dangers of the industrial food system, Lawless offers crucial tools for navigating it safely. The best ones have nothing to do with shopping advice: she asks us to think holistically about food, why it can’t be separated from other struggles for justice, and what it means to demand transformative change.” Mark Bittman, author of *How to Cook Everything*: “A stirring call to action. Lawless has done a thorough job of describing how so much of what we eat doesn’t qualify as ‘food’” Laurie David, Academy Award winning producer of *An Inconvenient Truth* and *Fed Up*: “You better read this book before you put another bite of food in your or your kids’ mouths!” Mary Esther Malloy, MA, *Mindful Birth* NY: “Groundbreaking... will get you thinking differently about how you nourish yourself and your family.” The cast-offs of modern urban society are driven out onto the edges of the city and left to make a “The Bestselling Hardcover Novel of the Year.”--Publishers Weekly From the number-one bestselling author of *The Nightingale* and *The Great Alone* comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. “My land tells its story if you listen. The story of our family.” Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman’s only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa’s tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa—like so many of her neighbors—must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. *The Four Winds* is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it—the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, *The Four Winds* is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation. In this study of Peter Jacksons film adaptation of J.R.R. Tolkiens "The Lord of the Rings" trilogy, Kristin Thompson demonstrates the impact the trilogy has had on the companies that made it, on the fantasy genre, on New Zealand, and on independent cinema, and looks at how the trilogy is regarded as one the most important films ever made. LINGUISTICS FOR EVERYONE, 2E, International Edition connects the study of linguistics to the language you use every day. The text is very user-friendly: casual writing style, logical presentation of material, balance of theoretical and practical, entertaining information, and lots of ideas and activities to put what you learn to use right away. The first chapter gives you the basics such as how to define language, new ways to look at grammar, your innate knowledge about language. Later chapters address core linguistics areas in depth (phonetics and phonology, morphology, syntax, and semantics). Many innovative and varied activities help you review and practice the content and apply the knowledge immediately. Special features throughout the book demystify common curiosities about how language works. *Film* is an art form with a language and an aesthetic all its own. Since 1979, David Bordwell and Kristin Thompson’s *Film Art* has been the best-selling and most widely respected introduction to the analysis of cinema. Taking a skills-centered approach supported by examples from many periods and countries, the authors help students develop a core set of analytical skills that will enrich their understanding of any film, in any genre. In-depth examples deepen students’ appreciation for how creative choices by filmmakers affect what viewers experience and how they respond. *Film Art* is generously illustrated with more than 1,000 frame enlargements taken directly from completed films, providing concrete illustrations of key concepts. In Kristin Hannah’s *The Great Alone*, a desperate family seeks a new beginning in the near-isolated wilderness of Alaska only to find that their unpredictable environment is less threatening than the erratic behavior found in human nature. #1 *New York Times* Instant Bestseller (February 2018) *A People “Book of the Week” Buzzfeed’s “Most Anticipated Women’s Fiction Reads of 2018” Seattle Times’s “Books to Look Forward to in 2018” Alaska, 1974.* Ernt Allbright came home from the Vietnam War a changed and volatile man. When he loses yet another job, he makes the impulsive decision to move his wife and daughter north where they will live off the grid in America’s last true frontier. Cora will do anything for the man she loves, even if means following him into the unknown. Thirteen-year-old Leni, caught in the riptide of her parents’ passionate, stormy relationship, has little choice but to go along, daring to hope this new land promises her family a better future. In a wild, remote corner of Alaska, the Allbrights find a fiercely independent community of strong men and even stronger women. The long, sunlit days and the generosity of the locals make up for the newcomers’ lack of preparation and dwindling resources. But as winter approaches and darkness descends, Ernt’s fragile mental state deteriorates. Soon the perils outside pale in comparison to threats from within. In their small cabin, covered in snow, blanketed in eighteen hours of night, Leni and her mother learn the terrible truth: they are on their own. In love we find out who we want to be. In war we find out who we are. FRANCE, 1939 In the quiet village of Carrievau, Vianne Mauriac says goodbye to her husband, Antoine, as he heads for the Front. She doesn’t believe that the Nazis will invade France...but invade they do, in droves of marching soldiers, in caravans of trucks and tanks, in planes that fill the skies and drop bombs upon the innocent. When a German captain requisitions Vianne’s home, she and her daughter must live with the enemy or lose everything. Without food or money or hope, as danger escalates all around them, she is forced to make one impossible choice after another to keep her family alive. Vianne’s sister, Isabelle, is a rebellious eighteen-year-old girl, searching for purpose with all the reckless passion of youth. While thousands of Parisians march into the unknown terrors of war, she meets Gwëtan, a partisan who believes the French can fight the Nazis from within France, and she falls in love as only the young can...completely. But when he betrays her, Isabelle joins the Resistance and never looks back, risking her life time and again to save others. With courage, grace and powerful insight, bestselling author Kristin Hannah captures the epic panorama of WWII and illuminates an intimate part of history seldom seen: the women’s war. *The Nightingale* tells the stories of two sisters, separated by years and experience, by ideals, passion and circumstance, each embarking on her own dangerous path toward survival, love, and freedom in German-occupied, war-torn France--a heartbreakingly beautiful novel that celebrates the resilience of the human spirit and the durability of women. The first study by an acclaimed American scholar of the artistic interdependencies between the German and the Hollywood cinema in the 1920s. Hollywood moviemaking is one of the constants of American life, but how much has it changed since the glory days of the big studios? David Bordwell argues that the principles of visual storytelling created in the studio era are alive and well, even in today’s bloated blockbusters. American filmmakers have created a durable tradition—one that we should not be ashamed to call artistic, and one that survives in both mainstream entertainment and niche-marketed indie cinema. Bordwell traces the continuity of this tradition in a wide array of films made since 1960, from romantic comedies like *Jerry Maguire* and *Love Actually* to more imposing efforts like *A Beautiful Mind*. He also draws upon testimony from writers, directors, and editors who are acutely conscious of employing proven principles of plot and visual style. Within the limits of the “classical” approach, innovation can flourish. Bordwell examines how imaginative filmmakers have pushed the premises of the system in films such as *JFK*, *Memento*, and *Magnolia*. He discusses generational, technological, and economic factors leading to stability and change in Hollywood cinema and includes close analyses of selected shots and sequences. As it ranges across four decades, examining classics like *American Graffiti* and *The Godfather* as well as recent success like *The Lord of the Rings: The Two Towers*, this book provides a vivid and engaging interpretation of how Hollywood moviemakers have created a vigorous, resourceful tradition of cinematic storytelling that continues to engage audiences around the world. “In *Living Through Pain*, Kristin Swenson charts the multifaceted personal and social problems caused by chronic pain. This book also surveys professional efforts to mitigate and manage pain. Because the experience of pain involves all aspects of a person - body, mind, spirit, and community - Swenson consults an ancient resource for wisdom, perspective, and insight. Her close reading of selected psalms from the Hebrew Bible demonstrates that the challenge of living through pain is timeless. *Living Through Pain* chronicles how these ancient texts offer a vocabulary and grammar for understanding and expressing the contemporary experience of pain. Pain is a universal experience, and this book invites readers to consider more fully what is involved in the process of healing.”--BOOK JACKET. Documents the first year spent by the Harvard-graduate author with her new husband on their sustainable farm in the Adirondacks, describing how she withdrew from big-city life to be married in their barn loft, the difficult obstacles they faced attempting to provide a whole diet for one hundred locals, and the rewards of a physical-labor lifestyle. *Film Feminisms* offers a global and updated overview of the history, present-day concerns, and future of feminist film and theory. It introduces frameworks from phenomenology, affect theory, and psychoanalysis to reception studies, new media theories, and critical historiography, as well as engaging with key issues in documentary ethics, genre theory, and star studies. This new textbook situates feminist film theory within the larger framework of transnational scholarly approaches, as well as decolonial, queer, disability studies, and critical race theories. It offers a much-needed update on pedagogical approaches to feminist film studies, providing discussions of filmmakers and films that have been overlooked in the field, or that are overdue for further analysis. Each chapter is supported by a variety of pedagogical features including activities, key terms, and case studies. Many of the activities draw on contemporary digital media, such as social media and streaming platforms, to update the field to today’s changing media landscape. Angels occupy a significant space in contemporary popular spirituality. Yet, today more than ever, the belief in the existence of intermediary spirits between the human and divine realms needs to be evangelized and Christianized. *Angels and Demons* offers a detailed synthesis of the givens of the Christian tradition concerning the angels and demons, as systematized in its essential principles by St. Thomas Aquinas. Certainly, the doctrine of angels and demons is not at the heart of Christian faith, but its place is far from negligible. On the one hand, as part of faith seeking understanding, angelology has been and can continue to be a source of enrichment for philosophy. Thus, reflection on the ontological constitution of the angel, on the modes of angelic knowledge, and on the nature of the sin of Satan can engage and shed light on the most fundamental areas of metaphysics, epistemology, and ethics. On the other hand, angelology, insofar as it is inseparable from the ensemble of the Christian mystery (from the doctrine of creation to the Christian understanding of the spiritual life), can be envisioned from an original and fruitful perspective. Kristin Neff, Ph.D., says that it’s time to “stop beating yourself up and leave insecurity behind.” *Self-Compassion: Stop Beating Yourself Up and Leave Insecurity Behind* offers expert advice on how to limit self-criticism and offset its negative effects, enabling you to achieve your highest potential and a more contented, fulfilled life. More and more, psychologists are turning away from an emphasis on self-esteem and moving toward self-compassion in the treatment of their patients—and Dr. Neff’s extraordinary book offers exercises and action plans for dealing with every emotionally debilitating struggle, be it parenting, weight loss, or any of the numerous trials of everyday living. "You cannot read *Night Road* and not be affected by the story and the characters. The total impact of the book will stay with you for days to come after it is finished." —The Huffington Post This book introduce the history of film as it is presently conceived, written, and taught by its most accomplished scholars. However, this book is not a distillation of everything that is known about film history. Pauline Kael, Andrew Sarris, and Roger Ebert were three of America's most revered and widely read film critics, more famous than many of the movies they wrote about. But their remarkable contributions to the burgeoning American film criticism of the 1960s and beyond were deeply influenced by four earlier critics: Otis Ferguson, James Agee, Manny Farber, and Parker Tyler. Film scholar and critic David Bordwell restores to a wider audience the work of Ferguson, Agee, Farber, and Tyler, critics he calls the 'Rhapsodes' for the passionate and deliberately offbeat nature of their vernacular prose.
