## Human Rights And The Ethics Of Globalization

*Human Rights and the Ethics of Globalization* Daniel E. Lee, Elizabeth J. Lee, 2010-09-13 Human Rights and the Ethics of Globalization provides a balanced thoughtful discussion of the globalization of the economy and the ethical considerations inherent in the many changes it has prompted The book s introduction maps out the philosophical foundations for constructing an ethic of globalization taking into account both traditional and contemporary sources These ideals are applied to four specific test cases the ethics of investing in China the case study of the Firestone company s presence in Liberia free trade and fair trade issues pertaining to the coffee trade with Ethiopia and the use of low wage factories in Mexico to serve the US market The book concludes with a comprehensive discussion of how to enforce global compliance with basic human rights standards with particular attention to stopping abuses by multinational corporations through litigation under the Alien Tort Claims Act

Globalization and Human Rights in the Developing World Derrick M. Nault, Shawn L. England, 2011-07-12 Focusing on world regions where human rights abuses are the most serious extensive and sustained this book fills a crucial gap in our knowledge of the difficulties and promise of promoting human rights in our global age

One World Now Peter Singer, 2016-09-27 One World Now seamlessly integrates major developments of the past decade into Peter Singer s classic text on the ethics of globalization One World Singer often described as the world s most influential philosopher here addresses such essential concerns as climate change economic globalization foreign aid human rights immigration and the responsibility to protect people from genocide and crimes against humanity whatever country they may be in Every issue is considered from an ethical perspective This thoughtful and important study poses bold challenges to narrow nationalistic views and offers valuable alternatives to the state centric approach that continues to dominate ethics and international theory Singer argues powerfully that we cannot solve the world s problems at a national level and shows how we should build on developments that are already transcending national differences This is an instructive and necessary work that confronts head on both the perils and the potentials inherent in globalization

*Human Rights Ethics* Clark Butler, 2008 Human Rights Ethics makes an important contribution to contemporary philosophical and political debates concerning the advancement of global justice and human rights Butler s book also lays claim to a significant place in both normative ethics and human rights studies in as much as it seeks to vindicate a universalistic rational approach to human rights ethics Butler s innovative approach is not based on murky claims to natural rights that supposedly hold wherever human beings exist nor does it succumb to the traditional problems of justification associated with utilitarianism Kantianism and other procedural approaches to human rights studies Instead Butler proposes a dialectical justification of human rights by indirect proof that claims not to be question begging Very much in the spirit of Hegel and Habermas Butler proposes to vindicate a totally rational account of human rights but one that depends concretely and historically on a dialectically constructed right to freedom of thought in its universal modes

**The Globalization of Human Rights** Jean-Marc Coicaud, Michael W. Doyle, Anne-Marie Gardner, 2003 International efforts to construct a set of standardised human rights guidelines are based upon the identification of agreed key values regarding the relationships between individuals and the institutions governing them which are viewed as critical to the well being of humanity and the character of being human This publication considers these issues of justice at the national regional and international levels by analysing civil political economic and social rights aspects

*Global Responsibilities* Andrew Kuper, 2012-11-12 In *Global Responsibilities* some of the world's leading theorists of ethics politics international relations and economics including Nobel Prize winner Amartya Sen and philosopher Peter Singer ask and answer the question Who must deliver on human rights

**Human Rights and Capitalism** Janet Dine, A. Fagan, 2006-01-01 *Human Rights and Capitalism* brings together two important facets of the globalization debate and examines the complex relationship between human rights property rights and capitalist economies Human rights issues have become increasingly important in this debate and their place as harbingers of justice or as an instrument of oppression is fiercely contended Both sides of this issue are considered in the contributions to this book and the complex relationships between human rights human dignity and capitalist economies are the themes running throughout the work Appearing at a time when these issues are a subject of extreme controversy this book is distinguished by its balanced and academic approach

**One World** Peter Singer, 2002-01-01 Written by a religious historian this is an introduction to early Christian thought Focusing on major figures such as St Augustine and Gregory of Nyssa as well as a host of less well known thinkers Robert Wilken chronicles the emergence of a specifically Christian intellectual tradition In chapters on topics including early Christian worship Christian poetry and the spiritual life the Trinity Christ the Bible and icons Wilken shows that the energy and vitality of early Christianity arose from within the life of the Church While early Christian thinkers drew on the philosophical and rhetorical traditions of the ancient world it was the versatile vocabulary of the Bible that loosened their tongues and minds and allowed them to construct the world anew intellectually and spiritually These thinkers were not seeking to invent a world of ideas Wilken shows but rather to win the hearts of men and women and to change their lives Early Christian thinkers set in place a foundation that has endured Their writings are an irreplaceable inheritance and Wilken shows that they can still be heard as living voices within contemporary culture

**Economic Globalisation and Human Rights** Wolfgang Benedek, Koen De Feyter, Fabrizio Marrella, 2007-04-19 *Economic globalisation* is one of the guiding paradigms of the twenty first century The challenge it implies for human rights is fundamental and key questions have up to now received no satisfying answers How can human rights protect human dignity when economic globalisation has an adverse impact on local living conditions How should human rights evolve in response to a global economy in which non statal actors are decisive forces *Economic Globalisation and Human Rights* was originally published in 2007 and sets out to assess these and other questions to ensure that as economic globalisation intensifies human rights take up the central and crucial position that they deserve Using a multidisciplinary methodology leading scholars reflect on issues such as the need for global ethics the localisation of human rights the role of human rights in WTO law and efforts to make international economic organisations more accountable and multinational corporations more socially responsible

*One World: Ethics Of Globalisation (2Nd Edn.)* Peter Singer, 2004 Peter Singer one of the World's most influential philosophers here considers the ethical issues surrounding globalization showing how a global ethic rather than a nationalistic approach can provide illuminating answers to important problems In a new preface he discusses how the recent Iraq war and its aftermath have changed the prospects for the ethical approach he advocates *One World* encompasses four main global issues climate change the role of the World Trade Organization human rights and humanitarian intervention and foreign aid Singer addresses each vital issue from an ethical perspective and offers alternatives to the state centric approach that characterizes international theory and relations today Posing a bold challenge to the narrow or nationalistic views of policymakers politicians and leaders in the United States and elsewhere Singer presents a detailed practical way of looking at contemporary global issues through the prism of ethics

**Ethics and Human Rights in a Globalized World** Klaus Hoffmann-Holland, 2009 In a globalized world an interdisciplinary dialogue on ethics and human rights is possible necessary and fruitful for jurisprudence Human rights can be understood as formalized ethics and ethics can thus serve as a foundation for human rights They are the framework for a communication of rights and this communication is the context in which wrongs can be transformed into rights Ethics do however also shape existing recognized human rights Human rights are ethics in action The enforcement of human rights especially in international criminal law as well as the implementation structures bring the ideas and principles of rights to life in a globalized world Thus it is advisable to take an interdisciplinary approach to participation rights social rights and human rights in general in private and in public life This work contains articles that were presented at an international and interdisciplinary conference on Ethics and Human Rights in a Globalized World in Jerusalem in the fall of 2008 Young researchers from Israel and Germany who work in the fields of law philosophy political science and theology deal with the foundation of human rights the conflict between varying human rights and effective implementation structures The part played by the World Bank in implementing human rights is highlighted as is the significance of local cultural backgrounds Other articles deal with the correlation of international criminal law and human rights The book also contains an article by Aharon Barak former Chief Justice of the Israel Supreme Court

Ethics in an Era of Globalization Ronald Commers, Wim Vandekerckhove, An Verlinden, 2008 Presenting new developments in the field of global ethics this volume focuses specifically on how to re-conceive ethics in order to come to grips with ethical and political life today It sets out an agenda for the field of global ethics addresses the critiques and illustrates the rapprochement of global ethics

*Global Health and International Community* John Coggon, Swati Gola, 2013-09-12 Global health arguably represents the most pressing issues facing humanity Trends in international migration and transnational commerce render state boundaries increasingly porous Human activity in one part of the world can lead to health impacts elsewhere Animals viruses and bacteria as well as pandemics and environmental disasters do not recognize or respect political borders It is now widely accepted that a global perspective on the understanding of threats to health and how to respond to them is required but there are many practical problems in establishing such an approach This book offers a foundational study of these urgent and challenging problems combining critical analysis with practically focused policy contributions The contributors span the fields of ethics human rights international relations law philosophy and global politics They address normative questions relating to justice equity and inequality and practical questions regarding multi-organizational cooperation global governance and international relations Moving from the theoretical to the practical *Global Health and International Community* is an essential resource for scholars students activists and policy makers across the globe

*Global Ethics and Global Common Goods* Patrick Riordan, 2014-12-18 Patrick Riordan takes a different approach to the questions of global ethics by following the direction of questioning initially pioneered by Aristotle for him the most basic question of ethics is what is the good life So in the context of contemporary global ethics the Aristotelian questioner wonders about the good life on a global scale *Global Ethics and Global Common Goods* fills the gap in existing literature caused by the neglect of the topic of the good in global ethics Beginning by outlining answers to questions such as what is good and is there a highest good Riordan demonstrates the value of a common good perspective in matters of universal human rights and their institutions and practices the study of international relations and the construction of global institutions and debates about global justice between cosmopolitanism nationalism and economic globalization Philosophical questions provoked by these debates are identified and pursued such as the question of a common human nature which seems presupposed by the language of universal rights For experienced students of political philosophy and international relations this is a crucial text in the literature exploring the possibilities for politics on a world scale while the perspective of the common good adds a new and distinctive dimension to current debates on global security and the challenges of managing conflict

**Defending Human Rights and Democracy in the Era of Globalization** Akrivopoulou, Christina, 2016-09-21 The era of technology in which we reside has ushered in a more globalized and connected world While many benefits are gained from this connectivity possible disadvantages to issues of human rights are developed as well *Defending Human Rights and Democracy in the Era of Globalization* is a pivotal resource for the latest research on the effects of a globalized society regarding issues relating to social ethics and civil rights Highlighting relevant concepts on political autonomy migration and asylum this book is ideally designed for academicians professionals practitioners and upper level students interested in the ongoing concerns of human rights

**Economic Globalisation and Human Rights** Wolfgang Benedek, Koen Feyter, Fabrizio Marrella, 2007 Economic globalisation is one of the guiding paradigms of the twenty first century The challenge it implies for human rights is fundamental and key questions have up to now received no satisfying answers How can human rights protect human dignity when economic globalisation has an adverse impact on local living conditions How should human rights evolve in response to a global economy in which non statal actors are decisive forces *Economic Globalisation and Human Rights* sets out to assess these and other questions to ensure that as economic globalization intensifies human rights take up the central and crucial position that they deserve Using a multidisciplinary methodology leading scholars reflect on issues such as the need for global ethics the localisation of human rights the role of human rights in WTO law and efforts to make international economic organisations more accountable and multinational corporations more socially responsible

**Global Ethics and Moral Responsibility** John-Stewart Gordon, Holger Burckhart, 2017-05-15 The philosophy of Hans Jonas was widely influential in the late twentieth century warning of the potential dangers of technological progress and its negative effect on humanity and nature Jonas advocated greater moral responsibility and taking this as a starting point this volume explores current ethical issues within the context of his philosophy It considers the vital intersection between law and global ethics covering issues related to technology and ethics medical ethics religion and environmental ethics Examining different aspects of Hans Jonas philosophy and applying it to contemporary issues leading international scholars and experts on his work suggest original and promising solutions to topical problems This collection of articles revives interest in Hans Jonas ethical reasoning and his notion of responsibility The book covers a wide range of areas and is useful to those interested in philosophy and theory of law human rights ethics bioethics environmental law philosophy and theology as well as political theory and philosophy

**Globalization and Human Rights** Jesús Ballesteros, Encarnación Fernández Ruiz-Gálvez, Pedro Talavera, 2012-04-14 Globalisation turns out to be untenable because it does not guarantee minimum social equity peace and respect for the environment and therefore does not guarantee the effective accomplishment of human rights This book analyzes this issue and raises proposals for a new perspective The first part describes the soft threats to human rights derived from the devaluation of the politics and the productive economy with regard to the finance It entails the concealment of the reality in the shape of exploitation as the tax havens and in the shape of marginalization of the persons with different abilities The second part include a study of hard threats to human rights and examines two cases of failed states Afghanistan and Somalia in which the violence has supplanted the politics and the economy In view of these situations it is necessary to rethink the force of classic *ius gentium* and the humanitarian right The third part presents the European Union as a legal and political space in which conditions of a worthy life are better defended by means of the Primacy of Practical Reason and Social State of Law and by the requirement of peace as the main rule of international relations

*The Ethics of Interdependence* William F. Felice, 2016 This powerful book explores new global human rights duties through four case studies mass incarceration in the United States LGBT rights in Africa women s rights in Saudi Arabia and environmental rights in China William F Felice presents a human rights threshold to identify unacceptable levels of human suffering that require urgent action

*Health, Rights and Globalisation* Belinda Bennett, 2017-03-02 This volume draws together essays from leading scholars on the challenges that arise for health law policy and ethics at the intersections of health rights and globalization The papers in this volume address global issues in public health globalization and bioethics and globalization and biotechnology This volume will be invaluable to all those interested in global issues in health

## Whispering the Techniques of Language: An Mental Quest through **Human Rights And The Ethics Of Globalization**

In a digitally-driven earth wherever screens reign supreme and immediate connection drowns out the subtleties of language, the profound secrets and emotional subtleties hidden within words often move unheard. However, nestled within the pages of **Human Rights And The Ethics Of Globalization** a charming fictional prize sporting with raw feelings, lies an exceptional quest waiting to be undertaken. Written by a skilled wordsmith, that marvelous opus encourages readers on an introspective trip, softly unraveling the veiled truths and profound impact resonating within the very fabric of each and every word. Within the emotional depths with this touching evaluation, we will embark upon a sincere exploration of the book is key subjects, dissect their charming publishing design, and succumb to the powerful resonance it evokes deep within the recesses of readers hearts.

### **Human Rights And The Ethics Of Globalization Introduction**

In today's digital age, the availability of Human Rights And The Ethics Of Globalization books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Human Rights And The Ethics Of Globalization books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Human Rights And The Ethics Of Globalization books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Human Rights And The Ethics Of Globalization versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Human Rights And The Ethics Of Globalization books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Human Rights And The Ethics Of Globalization books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for

Human Rights And The Ethics Of Globalization books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Human Rights And The Ethics Of Globalization books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Human Rights And The Ethics Of Globalization books and manuals for download and embark on your journey of knowledge?

### **FAQs About Human Rights And The Ethics Of Globalization Books**

1. Where can I buy Human Rights And The Ethics Of Globalization books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
