Achieving a Safe and Reliable Product Aug 15 2021 This book is designed to be an easily read, high-level guide to inform the executive management and staff support functions of an organization how critical it is to develop a Product Liability Prevention System and the steps needed to establish an effective Product Safety Plan. It was created to inspire the reader to be aware that the product safety criteria must be a subset of the organization's structure and built into the operation's strategic plan. Internationally known quality consultant and lecturer Bud Gookins walks the reader through a series of product systems and design concepts that will enable the manufacturer and service organizations to establish a product safety and product liability prevention process that can be integrated into an existing structure. It discusses the key elements of a sound operational process, quality assurance, and reliability system approach to product safety. It will address product liability prevention

initiatives, the salient points involved in justifying a product recall, and how to navigate through the recall of a defective product that reaches the field.

A Manual for Cleaning Women Aug 07 2023 "I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be-their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." - Lydia Davis *A MANUAL FOR CLEANING WOMEN* compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.
