Lanahan Readings in the American Polity Ann Serow, Everett Ladd, 2023-05-15 This is a 700 page collection of essays designed for the introductory college course on American government

The American Senate Neil MacNeil, Richard A. Baker, 2013-05-31 Winner of the Society for History in the Federal Government's George Pendleton Prize for 2013 The United States Senate has fallen on hard times Once known as the greatest deliberative body in the world it now has a reputation as a partisan dysfunctional chamber What happened to the house that forged American history's great compromises In this groundbreaking work a distinguished journalist and an eminent historian provide an insider's history of the United States Senate Richard A Baker historian emeritus of the Senate and Neil MacNeil former chief congressional correspondent for Time magazine integrate nearly a century of combined experience on Capitol Hill with deep research and state of the art scholarship They explore the Senate's historical evolution with one eye on persistent structural pressures and the other on recent transformations Here for example are the Senate's struggles with the presidency from George Washington's first disastrous visit to the chamber on August 22 1789 through now forgotten conflicts with Presidents Garfield and Cleveland to current war powers disputes The authors also explore the Senate's potent investigative power and show how it began with an inquiry into John Brown's raid on Harpers Ferry in 1859 It took flight with committees on the conduct of the Civil War Reconstruction and World War II and it gained a high profile with Joseph McCarthy's rampage against communism Estes Kefauver's organized crime hearings the first to be broadcast and its Watergate investigation Within the book are surprises as well For example the office of majority leader first acquired real power in 1952 not with Lyndon Johnson but with Republican Robert Taft Johnson accelerated the trend tampering with the sacred principle of seniority in order to control issues such as committee assignments Rampant filibustering the authors find was the ironic result of the passage of 1960s civil rights legislation No longer stigmatized as a white supremacist tool its use became routine especially as the Senate became more partisan in the 1970s Thoughtful and incisive *The American Senate An Insider's History* transforms our understanding of Congress's upper house

Honoring God in Red or Blue Dr. Amy E. Black, 2012-05-25 Politics isn't a four letter word Everyone's been at that dinner party The conversation takes a political turn The arguments start the atmosphere grows tense and all that remains is a hopeless stalemate and an awkward silence Makes you wonder is thoughtful and productive dialogue about politics even possible In Honoring God in the Red or Blue Dr Amy Black addresses the debaters as well as those intimidated or annoyed by the debaters political junkies and the contented uninformed She explains the purposes and limitations of our system and helps readers create realistic expectations for government While God's truth is perfect human application of it is not a reality that shouldn't deter us from engaging in debate and staying informed Rather it should challenge us to raise our standards for how we speak about the issues and those in office It's time to approach political divides with an extra measure of grace Success begins with seeking God's honor first and foremost regardless of where we fall on the political spectrum Don't limit yourself to chatting about the weather

The Phantom Public Walter Lippmann, 1925

A Short History of the United States Robert V. Remini, 2008-09-24 From a National Book Award winner A Short History of the United States may be brief but it is wise eloquent and authoritative Jon Meacham Pulitzer Prize winner and New York Times bestselling author of And There Was Light Abraham Lincoln and the American Struggle Readers of all political stripes will appreciate this concise history of the United States Publishers Weekly an accessible and lively volume containing the essential facts about the discovery settlement growth and development of the American nation and its institutions including the arrival and migration of Native Americans the founding of a republic under the Constitution the emergence of the United States as a world power the outbreak of terrorism here and abroad the Obama presidency and everything in between Masterful a perfect history for our times Robert Dallek Pulitzer Prize finalist and author of Nixon and Kissinger Everything a casual or bewildered reader needs to know An objective narrative of this nation's history Publishers Weekly

Enchanted America J. Eric Oliver, Thomas J. Wood, 2018-09-18 America is in civic chaos its politics rife with conspiracy theories and false information Nationalism and authoritarianism are on the rise while scientists universities and news organizations are viewed with increasing mistrust Its citizens reject scientific evidence on climate change and vaccinations while embracing myths of impending apocalypse And then there is Donald Trump a presidential candidate who won the support of millions of conservative Christians despite having no moral or political convictions What is going on The answer according to J Eric Oliver and Thomas J Wood can be found in the most important force shaping American politics today human intuition Much of what seems to be irrational in American politics arises from the growing divide in how its citizens make sense of the world On one side are rationalists They use science and reason to understand reality On the other side are intuitionists They rely on gut feelings and instincts as their guide to the world Intuitionists believe in ghosts and End Times prophecies They embrace conspiracy theories disbelieve experts and distrust the media They are stridently nationalistic and deeply authoritarian in their outlook And they are the most enthusiastic supporters of Donald Trump The primary reason why Trump captured the presidency was that he spoke about politics in a way that resonated with how Intuitionists perceive the world The Intuitionist divide has also become a threat to the American way of life A generation ago intuitionists were dispersed across the political spectrum when most Americans believed in both God and science Today intuitionism is ideologically tilted toward the political right Modern conservatism has become an Intuitionist movement defined by conspiracy theories strident nationalism and hostility to basic civic norms Enchanted America is a clarion call to rationalists of all political persuasions to reach beyond the minority and speak to intuitionists in a way they understand The values and principles that define American democracy are at stake

When Bad Things Happen to Privileged People Dara Z. Strolovitch, 2023-07-05 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In *When Bad Things Happen to Privileged People* Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century

Democracy in America (Complete) Alexis de Tocqueville, 2020-09-28 Amongst the novel objects that attracted my attention during my stay in the United States nothing struck me more forcibly than the general equality of conditions I readily discovered the prodigious influence which this primary fact exercises on the whole course of society by giving a certain direction to public opinion and a certain tenor to the laws by imparting new maxims to the governing powers and peculiar habits to the governed I speedily perceived that the influence of this fact extends far beyond the political character and the laws of the country and that it has no less empire over civil society than over the Government it creates opinions engenders sentiments suggests the ordinary practices of life and modifies whatever it does not produce The more I advanced in the study of American society the more I perceived that the equality of conditions is the fundamental fact from which all others seem to be derived and the central point at which all my observations constantly terminated I then turned my thoughts to our own hemisphere where I imagined that I discerned something analogous to the spectacle which the New World presented to me I observed that the equality of conditions is daily progressing towards those extreme limits which it seems to have reached in the United States and that the democracy which governs the American communities appears to be rapidly rising into power in Europe I hence conceived the idea of the book which is now before the reader It is evident to all alike that a great democratic revolution is going on amongst us but there are two opinions as to its nature and consequences To some it appears to be a novel accident which as such may still be checked to others it seems irresistible because it is the most uniform the most ancient and the most permanent tendency which is to be found in history Let us recollect the situation of France seven hundred years ago when the territory was divided amongst a small number of families who were the owners of the soil and the rulers of the inhabitants the right of governing descended with the family inheritance from generation to generation force was the only means by which man could act on man and landed property was the sole source of power Soon however the political power of the clergy was founded and began to exert itself the clergy opened its ranks to all classes to the poor and the rich the villein and the lord equality penetrated into the Government through the Church and the being who as a serf must have vegetated in perpetual bondage took his place as a priest in the midst of nobles and not infrequently above the heads of kings The different relations of men became more complicated and more numerous as society gradually became more stable and more civilized Thence the want of civil laws was felt and the order of legal functionaries soon rose from the obscurity of the tribunals and their dusty chambers to appear at the court of the monarch by the side of the feudal barons in their ermine and their mail Whilst the kings were ruining themselves by their great enterprises and the nobles exhausting their resources by private wars the lower orders were enriching themselves by commerce The influence of money began to be perceptible in State affairs The transactions of business opened a new road to power and the financier rose to a station of political influence in which he was at once flattered and despised Gradually the spread of mental acquirements and the increasing taste for literature and art opened chances of success to talent science became a means of government intelligence led to social power and the man of letters took a part in the affairs of the State The value attached to the privileges of birth decreased in the exact proportion in which new paths were struck out to advancement In the eleventh century nobility was beyond all price in the thirteenth it might be purchased it was conferred for the first time in 1270 and equality was thus introduced into the Government by the aristocracy itself

The Multiple Worlds of Pynchon's Mason & Dixon Elizabeth Jane Wall Hinds, 2009 New essays examining the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past Thomas Pynchon's 1997 novel *Mason Dixon* went further using the same style wit and erudition to re create an 18th century when America was being formed as both place and idea Pynchon's focus on the creation of the Mason Dixon Line and the governmental and scientific entities responsible for it makes a clearer statement than any of his previous novels about the slavery and imperialism at the heart of the Enlightenment as he levels a dark and hilarious critique at this America This volume of new essays studies the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past It offers fresh thinking about Pynchon's work as the contributors take up the linkages between the 18th and 20th centuries in studies that are as concerned with culture as with the literary text itself Contributors Mitchum Huehls Brian Thill Colin Clarke Pedro Garcia Caro Dennis Lensing Justin M Scott Coe Ian Copestake Frank Palmeri Elizabeth Jane Wall Hinds is Professor and Chair of the English Department at SUNY Brockport

Obama and America's Political Future Theda Skocpol, 2012-09-04 Barack Obama's galvanizing victory in 2008 coming amid the greatest economic crisis since the 1930s opened the door to major reforms But the president quickly faced skepticism from supporters and fierce opposition from Republicans who scored sweeping wins in the 2010 midterm election Here noted political scientist Theda Skocpol surveys the political landscape and explores its most consequential questions What happened to Obama's new New Deal Why have his achievements enraged opponents more than they have satisfied supporters How has the Tea Party's ascendance reshaped American politics Skocpol's compelling account rises above conventional wisdom and overwrought rhetoric The Obama administration's response to the recession produced bold initiatives health care reform changes in college loans financial regulation that promise security and opportunity But these reforms are complex and will take years to implement Potential beneficiaries do not readily understand them yet the reforms alarm powerful interests and political enemies creating the volatile mix of confusion and fear from which Tea Party forces erupted Skocpol dissects the popular and elite components of the Tea Party reaction that has boosted the Republican Party while pushing it far to the right at a critical juncture for U S politics and governance Skocpol's analysis is accompanied by contributions from two fellow scholars and a former congressman At this moment of economic uncertainty and extreme polarization as voters prepare to render another verdict on Obama's historic presidency Skocpol and her respondents help us to understand its triumphs and setbacks and see where we might be headed next

The Anthropology of Donald Trump Jack David Eller, 2021-11-29 *The Anthropology of Donald Trump* is an edited volume of original anthropological essays composed by some of the leading figures in the discipline It applies their concepts perspectives and methods to a sustained and diverse understanding of Trump's supporters policies and performance in office The volume includes ethnographic case studies of Trump country examines Trump's actions in office and moves beyond Trump as an individual political figure to consider larger structural and institutional issues Providing a unique and valuable perspective on the Trump phenomenon it will be of interest to anthropologists and other social scientists concerned with contemporary American society and politics as well as suitable reading for courses on political anthropology and US culture

Growing Up America Susan Eckelmann Berghel, Sara Fieldston, Paul M. Renfro, 2019 *Growing Up America* brings together new scholarship that considers the role of children and teenagers in shaping American political life during the decades following the Second World War. *Growing Up America* places young people and their representations at the center of key political trends illuminating the dynamic and complex roles played by youth in the midcentury rights revolutions in constructing and challenging cultural norms and in navigating the vicissitudes of American foreign policy and diplomatic relations. The authors featured here reveal how young people have served as both political actors and subjects from the early Cold War through the late twentieth century Age of Fracture. At the same time *Growing Up America* contends that the politics of childhood and youth extends far beyond organized activism and the ballot box. By unveiling how science fairs, breakfast nooks, Boy Scout meetings, home economics classrooms, and correspondence functioned as political spaces, this anthology encourages a reassessment of the scope and nature of modern politics itself.

People of Paradox Michael Kammen, 2012-10-03 In this major interpretive work, Mr. Kammen argues that most attempts to understand America's history and culture have minimized its complexity, and he demonstrates that from our beginnings, what has given our culture its distinctive texture, pattern, and thrust is the dynamic interaction of the imported and the indigenous. He shows how, during the years of colonization, especially in the century from 1660 to 1760, many ideas and institutions were transferred virtually unchanged from Britain, while simultaneously others were being transformed in the New World environment. As he unravels the tangled origins of our bittersweet culture, Mr. Kammen makes us see that unresolved contradictions in the American experience have functioned as the prime characteristic of our national style: Puritanical and hedonistic, idealistic and materialistic, peace-loving and war-mongering, isolationist and interventionist, consensus-minded and conflict-prone. These opposing strands go back to the roots of our history. He pursues them down through the seventeenth and eighteenth centuries, from the traumas of colonization and settlement through the tensions of the American Revolution, making clear both the relevance of this early experience to nineteenth and twentieth century realities and the way in which America's dualisms have endured and accumulated to produce such dilemmas as today's poverty amidst abundance and legitimized lawlessness. Far from being a study in social pathology, *People of Paradox* is a depiction of a complex society and an explanation of its development, a bold interpretation that gives an entirely new perspective to the American ethos.

A Carnival of Buncombe Henry Louis Mencken, Malcolm Moos, 1956 Provides lively critiques of the elections and policies of American presidents ranging from Warren Harding to Franklin Roosevelt.

Is Voting for Young People? Martin P. Wattenberg, 2015-10-30 This book focuses on the root causes of the generation gap in voter turnout, changes in media consumption habits over time. It lays out an argument as to why young people have been tuning out politics in recent years, both in the United States and in other established democracies.

"Let Us Vote!" Jennifer Frost, 2023-11-07 The fascinating tale of how a bipartisan coalition worked successfully to lower the voting age Let Us Vote tells the story of the multifaceted endeavor to achieve youth voting rights in the United States Over a thirty year period starting during World War II Americans old and young Democrat and Republican in politics and culture built a movement for the 26th Amendment to the US Constitution which lowered the voting age from twenty one to eighteen in 1971 This was the last time that the United States significantly expanded voting rights Jennifer Frost deftly illustrates how the political and social movements of the time brought together bipartisan groups to work tirelessly in pursuit of a lower voting age In turn she illuminates the process of achieving political change with the convergence of top down initiatives and bottom up mobilization coalition building and strategic flexibility As she traces the progress toward achieving youth suffrage throughout the 60s Frost reveals how this movement built upon the social justice initiatives of the decade and was deeply indebted to the fight for African American civil and voting rights 2021 marks the fiftieth anniversary of this important constitutional amendment and comes at a time when scrutiny of both voting age and voting rights has been renewed As the national conversation around climate crisis gun violence and police brutality creates a new call for a lower voting age Let Us Vote provides an essential investigation of how this massive political change occurred and how it could be brought about again

Unveiling the Magic of Words: A Overview of "**The Lanahan Readings In The American Polity**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. The Lanahan Readings In The American Polity Introduction

In today's digital age, the availability of The Lanahan Readings In The American Polity books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of The Lanahan Readings In The American Polity books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of The Lanahan Readings In The American Polity books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing The Lanahan Readings In The American Polity versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation.

Furthermore, The Lanahan Readings In The American Polity books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing The Lanahan Readings In The American Polity books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for The Lanahan Readings In The American Polity books and manuals is Open Library. Open Library is an initiative of the Internet

Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, The Lanahan Readings In The American Polity books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of The Lanahan Readings In The American Polity books and manuals for download and embark on your journey of knowledge?

FAQs About The Lanahan Readings In The American Polity Books

1. Where can I buy The Lanahan Readings In The American Polity books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
