*Conspirators' Hierarchy* John Coleman,1992 Can you imagine an all powerful group that knows no national boundaries above the laws of all countries one that controls every aspect of politics religion commerce and industry banking insurance mining the drug trade the petroleum industry a group answerable to no one but its members To the vast majority of us such a group would appear to be beyond the realms of possibilities and capabilities of any given organization If that is what you believe then you are in the majority The conception of a secret elite group exercising control of every aspect of our lives is beyond our comprehension Americans are prone to say It can t happen here our Constitution forbids it That there is such a body called The committee of 300 is graphically told in this book When most people attempt to address our problems they speak or write about them this book tells precisely who they are and what they have planned for our future how they have been at war with the American nation for 50 years a war which we are on the brink of losing what methods they use and exactly how they have brainwashed us If you are Puzzled and perplexed as to why things are occurring that we as a nation don t like yet seem powerless to prevent why it is that the United States always seems to back the wrong horse Why the United States is in a depression from which it will not emerge why our former social and moral values have been turned aside and seemingly buried if you are confused by the many conspiracy theories the conspirators hierarchy the committee of 300 will clearly establish that these conditions have been deliberately created to bring us to our knees Once you have read the applying truths contained in this book understanding past and present political economic social and religious events will no longer be a problem This powerful account of the forces ranged against the United States and indeed the entire free world cannot be ignored

**The Conspirators' Hierarchy** John Coleman,1997 This work argues for the existence of a committee of 300 an elite body which controls every aspect of politics religion commerce and industry answerable to no one except itself It maintains that the confusion of social and moral values in the free world has been deliberately created

**Beyond the Conspiracy** John Coleman,2023-11-23 It has been commented on many times during the course of history that the average person in most countries has little or no time to spare to think beyond making a living raising a family and holding down a job to make these objectives possible This leaves little or no time to attend to politics or matters of economics or other vital issues such as war and peace that affect their lives and the life of the nation Governments know this So it seems do highly organized groups operating behind many different front organizations which always have the edge over the citizenry What the average individual does not know and will probably never know is that all great historical events are planned in secret by men in total privacy Dr Gerard Encausse in his work *Mysteria* of April 14 1914 put it this way Side by side with the international politics of each State there exists certain obscure organizations The men who take part in these councils are not professional politicians or brilliantly dressed ambassadors but certain unknown men high financiers who are superior to the vain ephemeral politicians who imagine that they govern the world Such a group were the men of the English East India Company whose antecedents sprang from the Catharis the Bogomils and the Albigensians who had originated from Manichean Babylon and who went on to become the controllers of not only England but of the whole world It has been the experience throughout recorded history that one of the common denominator is man s desire to control No matter what societal structure is examined there is always a group of certain individuals in whom the need to control is paramount and who form themselves into secret societies Anyone who seeks to expose these societies places himself in danger

*What You Should Know About the United States Constitution and the Bill of Rights* John Coleman,2016-05-13 A book like no other book ever written about the U S Constitution and the Bill of Rights Some of the most priceless constitutional gems are found in these pages Dr Coleman has done 26 year of research to find them putting together a highly readable book which provides insight into the articles and amendments to the Constitution It shows their true intent and purpose in sharp relief and what it is that make this document so great and so lasting *What You Should Know About the United States Constitution* is a telling blow to those enemies of this nation who are seeking to destroy our Republic Knowledge is power which the book provides in full measure enabling every citizen to understand and defend the United States against enemies external and internal

**Tavistock Institute** Daniel Estulin,2015-09-14 The real story behind the Tavistock Institute and its network from an intriguing best selling author The Tavistock Institute in Sussex England describes itself as a nonprofit charity that applies social science to contemporary issues and problems But this book posits that it is the world s center for mass brainwashing and social engineering activities It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet and in the process change the paradigm of modern society In this eye opening work both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered With connections to U S research institutes think tanks and the drug industry the Tavistock has a large reach and Tavistock Institute attempts to show that the conspiracy is real who is behind it what its final long term objectives are and how we the people can stop them

Diplomacy by Deception John Coleman,1993 This is a true and accurate account of treasonous conduct by the British and American governments An account of how their citizens are deceived by policies provoking actions that are totally detrimental to the well being of their citizens Thoroughly researched the book provides a great deal of hitherto unpublished information and throws new light on such diverse operations as the Gulf War and the Bolshevik Revolution The chapter on covert actions throws new light on the murder of Martin Luther King Pope John Paul 1 and other notables marked for elimination The bloodshed that resulted from the creation of an artificial Saudi Arabia the foreign policy making role of the petroleum industry the rape of Mexico by British and American oil barons the revolutions they ignited which cost thousands upon thousands of lives British conquest of India the pernicious Indian apartheid caste system These are some of the subjects dealt with in this historic expose of how our governments deceive us under the color of diplomacy Diplomacy By Deception tells us that the United Nations is a war making body not a peace keeping organization and how the Rockefellers and Alger Hiss aided by the top Illuminati Dulles family got the United States involved with the United Nations There is a masterly analysis of constitutional roadblocks barring U S membership of the United Nations that will come as a surprise and leave no doubt that we are not now nor can we ever be a member of the United Nations Diplomacy By Deception will forever alter your perception of the two leading governments in Western civilization This is an excellent companion book to the Committee of 300 by the same author
